Join the Boston Planning & Development Agency, other City officials, and your neighbors as we gather for our second workshop for the PLAN: Mattapan planning initiative. On December 10th, you will hear more about the planning process and the early feedback that we received at the October 25th Open House event. This will be an opportunity to share what is most important to you concerning planning themes in your neighborhood. We will have small group discussions, followed by a larger conversation for questions and comments. Your feedback at this workshop will be one of many opportunities to engage in a conversation around planning in your neighborhood.

Light refreshments will be provided. Interpretation services and translated materials will be available in Haitian Creole and Spanish.
