This is a very loud intersection so I'm not sure how well used this parcel will be as a park instead of a building, but if it has to be a park, it should be an active, loud, and energetic park to drown out / match the loud traffic that surrounds it. There is a similar park nearby on Cross St. that is rarely used because it is designed as a space for respite but no one wants to relax. Please hand this in to one of the hosts when you have completed it. Instructions on back ->

mount to a last-passed roadway.
