

PLAN: East Boston

Inner Harbor Designated Port Area Information Session

Wednesday, December 02 | 6:00-7:30PM

Based upon a request from the City of Boston, the Massachusetts Office of Coastal Zone Management (CZM) plans to conduct a review of properties located in the East Boston Inner Harbor DPA boundary to determine whether or not they meet the state's requirements for inclusion in the area. This determination will shape future land use and development scenarios in the East Boston Inner Harbor waterfront. Participants will learn more about how the boundary review process will work, and how it is related to PLAN: East Boston.

Register at bit.ly/EB-DPA

The event will be hosted in both English and Spanish.
