This PLAN: Mattapan workshop will explore how Mattapan community members use corridors today and how that can be enhanced in the future. As discussed in previous meetings, Mattapan's corridors are major roads that are integral to getting around Mattapan. Together we will begin to rethink corridors as places to live, work, and play so that we can make recommendations that will achieve the PLAN: Mattapan vision.

The purpose of this meeting is to:

- Identify how corridors can achieve the vision of PLAN: Mattapan
- Discuss what scenarios and possibilities will implement the vision

We will incorporate recommendations from City and State Agencies also conducting planning and implementation on Mattapan's corridors. Attendees can take with them a brief overview of Article 60 (Mattapan's zoning code) and Article 80 Project Review.

PLAN: Mattapan is a planning initiative facilitated by the Boston Planning & Development Agency in collaboration with other City departments. Translated materials and interpretation services will be provided in Haitian Creole and Spanish.
