### PLAN OF LAND 32 MALCOLM ROAD BOSTON, MASSACHUSETTS (WEST ROXBURY DISTRICT)

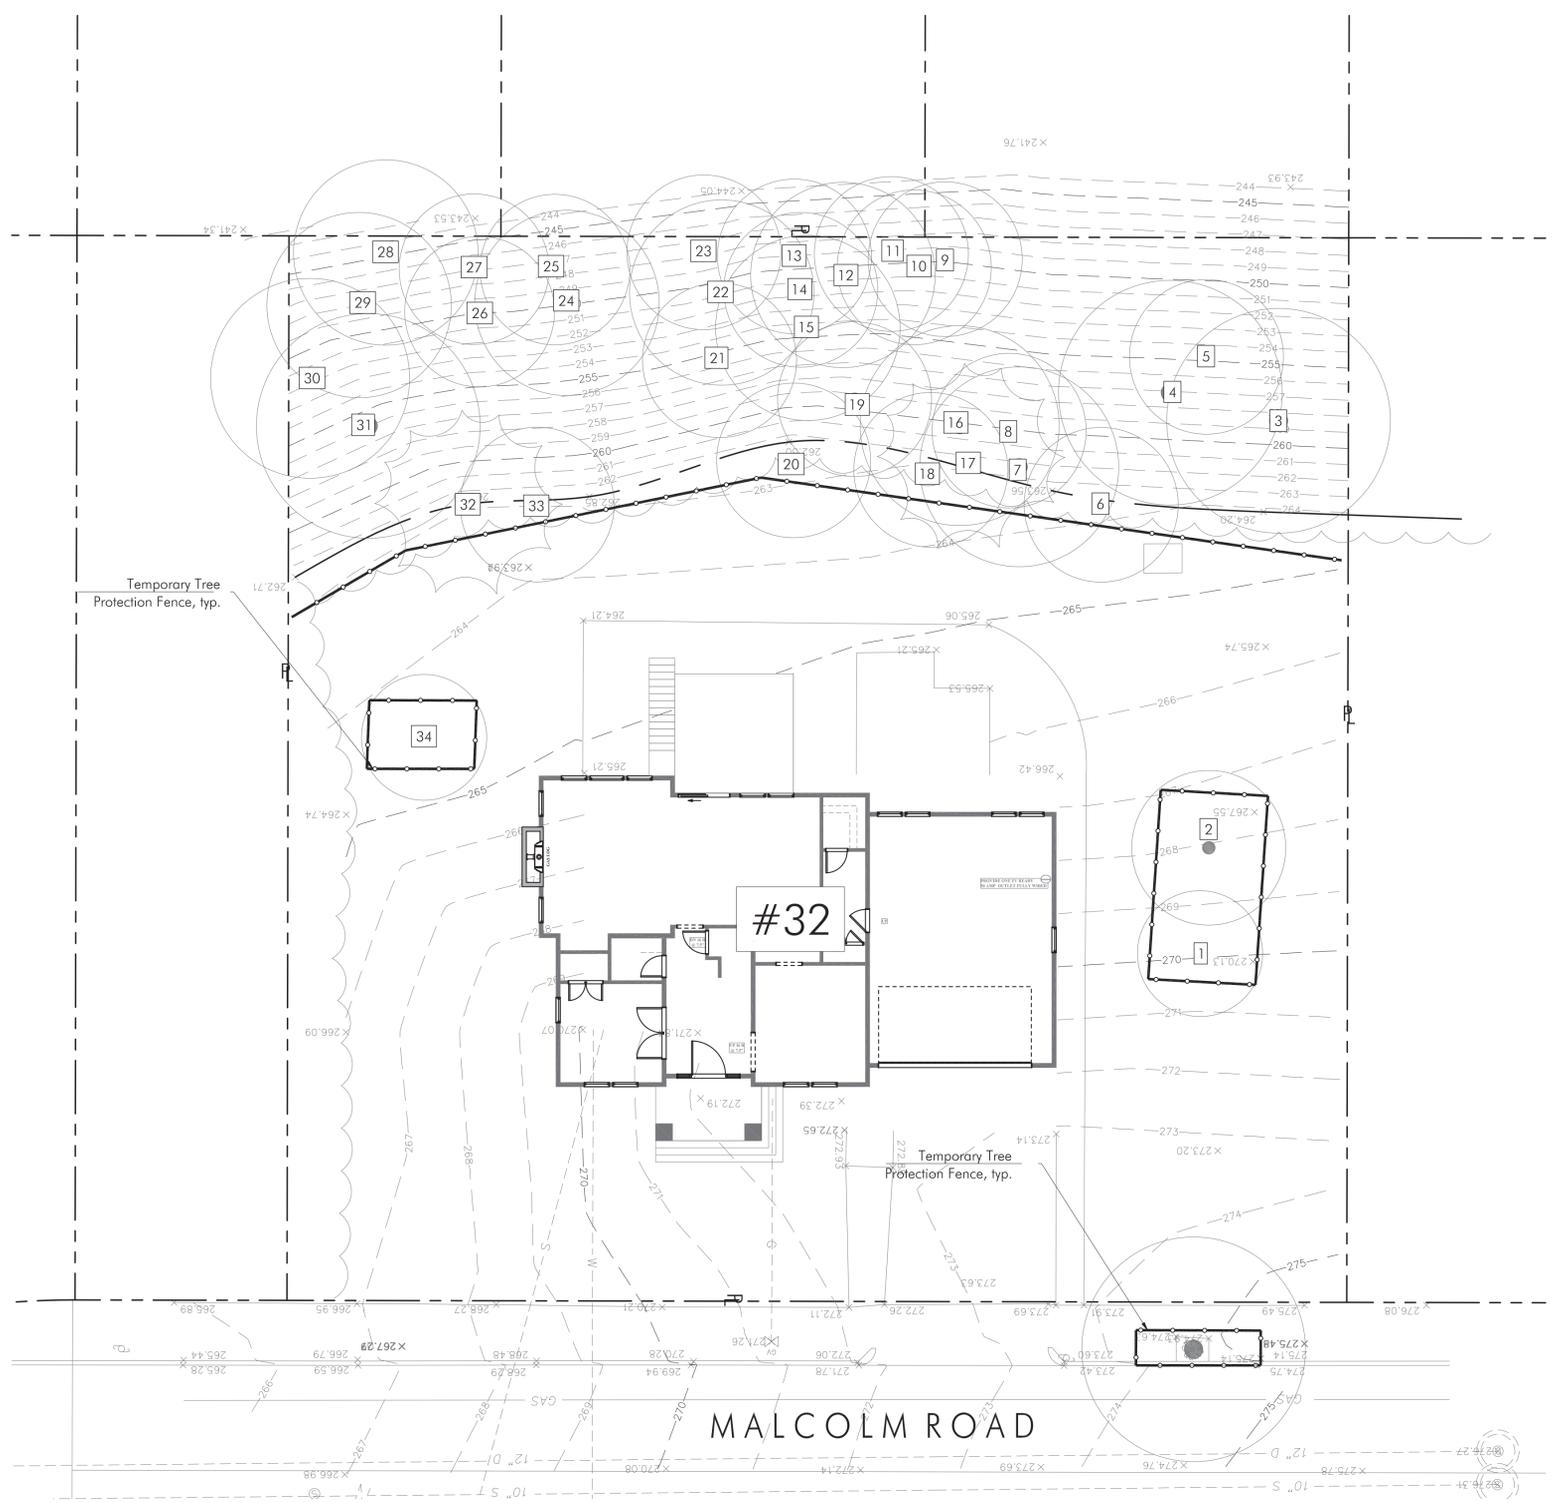

PREPARED FOR  
TONY FERRARA  
394 WASHINGTON STREET  
DEDHAM, MA 02026  
617-438-2171

GREATER BOSTON SURVEYING AND ENGINEERING  
19 FREDITH ROAD  
WEYMOUTH, MA 02189  
(781) 331-6128

CALC BY: PJT

DATE: FEBRUARY 22, 2024

SCALE: 1"=10'

- Tree Protection Prior to Site Work:
1. Prior to initiating site work, the Contractor shall install a Temporary Tree Protection Fence around all trees to remain.
  2. In locations where excavation and construction work will be within the Tree Protection Zone (TPZ), the Contractor shall meet with the Landscape Architect to describe the scope of excavation or filling. Equipment shall not operate within the TPZ except as approved and directed by Landscape Architect. Typically, equipment shall set up and operated from beyond the TPZ. This may involve some adjustment in the location of fencing.
  3. A certified arborist shall be hired to cut and prune limbs and branches that may hinder construction operations or overhang the existing building.
  4. Install 2 to 3 inches of woodchip mulch or a blend of composted woodchips and bark mulch over the entire TPZ.
  5. The tree protection fence shall not be removed until the end of the construction of the buildings at such time as the lawn work and plantings work is initiated.
  6. The Contractor shall set up and provide a temporary irrigation system in all the TPZ areas as directed by the Arborist. During the growing season (June 1 through October 1), the irrigation system shall supply 1" of water after any period of over 1 week when there is no natural rainfall. This added water will support vigorous tree growth allowing the tree to recover from the root damage from construction.

Tree Survey				
Location	DBH (inches)	Species	To Be Removed	Protected or Invasive
1	7	Japanese Maple		Protected
