Comment	Location	lat	long	Source	Problem Type	Improvement Type
MBTA Critical Spacing of T Stops on Western Av.	Western Ave			September Open House Map		Transit: Consolidate bus stops
Improve bike connection from Chestnut Hill to Charles River	Connection: Chestnut Hill to Charles			September Open House Map		Bicycle: Add bicycle lane/connection
Improve ped connection from Chestnut Hill to Charles River	Connection: Chestnut Hill to Charles			September Open House Map		Pedestrian: Add sidewalk/connection
<u>speed humps</u> / slow streets treatment to Hano Street, adjacent to Penniman Park Play area - lots of Children in area (Brian J. Hanan Apts)	Hano St, near Penniman Park			September Open House Map		Vehicle: Reduce speed/calm traffic
West Station elevated a priority in North/South connection w/ Buses and Ped	West Station			September Open House Map		Transit: Other
Thoughtful plan to what happens w/ Beacon Park yards	Beacon Park Yards			September Open House Map		Placemaking: Other
Traffic Backs all the way down Market St all Day	Market St			September Open House Map	Vehicle	
Stop parking on Right Side of street until after Bently very Dangerous	Bently St/Sparhawk St			September Open House Map		Vehicle: Enforce/remove parking
Need protected bike path on this heavily trafficked stretch. Sharrow not enough. Plenty of space to fit in.	Brighton Ave			September Open House Map		Bicycle: Add bicycle lane/connection
Coordinate traffic lights with MBTA trolleys & Newton traffic light to make traffic move better.	Comm Ave/Lake St			September Open House Map		Vehicle: Other
<u>walk light</u> stays too short a time	Chestnut Hill Ave/Comm Ave Beacon			September Open House Map	Ped	
flashing yellow arrow unclear	St/Chestnut Hill Ave			September Open House Map	Vehicle	
Beacon/Chestnut Hill Ave intersection repave - biking & walking across seems hazardous!	Beacon St/Chestnut Hill Ave			September Open House Map		Pedestrian: Improve safety
Pedestrian walk signal is not long enough to safely cross the road Thank you!	Market St/N Beacon St			September Open House Map	Ped	

Comment	Location	lat	long	Source	Problem Type	Improvement Type
If you are going straight on Comm Ave from Boston to Allston on a bike, there are 2 car turning lanes that you have to merge with or look behind you to be aware of. Very scary.	BU Bridge/Comm Ave			September Open House Map	Bike	
The Comm. Ave bridge replacement over I90 was done so <u>fast</u> ! Surely other jobs can mirror that. The comm. Ave bike lanes have been worked on since early 2017 and are still not close to done. :(Comm Ave			September Open House Map	Bike	
Need Bike Lane Warren St. + Kelton St	Kelton St + Warren St			September Open House Map		Bicycle: Add bicycle lane/connection
Need to build out bike lanes on Market St	Market St			September Open House Map		Bicycle: Add bicycle lane/connection
more + better cycling infrastructure, especially in heavily -trafficed roads. For example, Brighton ave. separated bike paths are the best.	Brighton Ave			September Open House Map		Bicycle: Add bicycle lane/connection
We need a giant parking garage in Allston to handle existing & coming cars with all the new units :(This garage can also help with parking in snow emergencies when cars must move.	West Station			September Open House Map		Parking: Other
traffic light does not coordinate well with other traffic lights - lots of congestion during AM commute + (over please) Also exiting scrub a dub car wash is not safe or convenient Thank you!	Market St/Sage Ct			September Open House Map	Vehicle	
Allston Yards should build in much underground parking to handle all of the many new cars parking in Allston due to new units without adequate parking being built.	Allston Yards			September Open House Map		Parking: Other
The should be a crosswalk from Naples accross Commonwealth. Pedestrians today need to go far out of their way to cross here to Naples Rd.	Comm Ave/Naples Rd			September Open House Map		Pedestrian: Add sidewalk/connection

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Need <u>flashing crosswalk</u> sign	Academy Hill Rd/Chestnut Hill Ave			September Open House Map		Pedestrian: Improve safety
gridlock @ Harvard x Cambridge needs left turn enforcement and MORE!	Cambridge St/Harvard Ave			September Open House Map		Vehicle: Reduce congestion at signals
Connect Braintree Street and Guest Street and Vineland St	Braintree St + Guest St + Vineland St			September Open House Map		Placemaking: Other
Connection for cyclists across the river between BU Bridge and Cambridge St	Connection: across river			September Open House Map		Bicycle: Add bicycle lane/connection
Connection for pedestrians across the river between BU Bridge and Cambridge St	Connection: across river			September Open House Map		Pedestrian: Add sidewalk/connection
Safe bike lanes along Comm Ave	Comm Ave			September Open House Map		Bicycle: Add bicycle lane/connection
66 does not have anything like the needed capacity during rush hour.	66 Bus			September Open House Map		Transit: Other
<u>driving safety</u> Drivers ignore red lights and cut off pedestrian already in the cross walk.	Area-wide			September Open House Map	Vehicle	
Drivers are killing pedestrians + bikers with t	Area-wide			September Open House Map	Vehicle	
Coordinated traffic lights that encompass streets surrounding great areas of development from Market St- EAST on North Beacon- Union Square, Everett St, Western Union, Leo Birmingham Parkway - <u>More</u> , be warned come from mitigation with developers ie New Balance, Stop + Shop, 37 North Beacon, Volvo Property, Arthur St, etc	Multiple			September Open House Map		Vehicle: Reduce congestion at signals
Safe bike lanes!	Area-wide			September Open House Map		Bicycle: Improve existing bicycle lane
Improve bus routes!	Area-wide			September Open House Map		Transit: Other
Build West Station <u>now!</u> It's Boston 2030 NOT 2040 and I've need it for all other plans in place. <i>Safe bike lanes! Improve bus routes!</i>	West Station			September Open House Map		Transit: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Connecting Comm Ave to Boston Landing area with fequent buses	Connection: Comm Ave to Boston Landing			September Open House Map		Transit: Add service/stop
Stop letting cars park in the bike lane on Beacon by the C.H. Reservoir. I have reported cars parked there but nothing is done, and it should not be allowed as parking for private events at the Waterworks Museum. Bike lanes are not for overflow parking!	Beacon St			September Open House Map		Vehicle: Enforce/remove parking
The new signals in Cleveland Circle that give drivers a green light to turn across crosswalks when pedestrians in those crosswalks have a walk signal are scary. That might work well when streets are straight and flat with good visability, but Cleveland Circle is nothing like that!	Cleveland Circle			September Open House Map	Ped	
for vision impaired -Audible signals needed!! Extremeley dangerous exit North Beacon & Cambridge, Union Sq, Chestnut Hill @ Commonwealth -Assment needed not all intersections are same	Multiple			September Open House Map		Pedestrian: Improve safety
Bike racks in business districts	Multiple			September Open House Map		Bicycle: Add parking
57 bus dedicated lane with signal priority	Brighton Ave			September Open House Map		Transit: Prioritize transit over vehicles
Safer feel for ped + <i>bicycle</i> over bridge in the dark	I-90 Ped/Bike Bridge			September Open House Map		Pedestrian: Improve safety
Safer feel for bicycles over the bridge in the dark	I-90 Ped/Bike Bridge			September Open House Map		Bicycle: Improve safety
Not enough bus connectors to -downtown -other places such as somerville -not convenient- too many transfers	Connections: multiple transit			September Open House Map	Transit	

Comment	Location	lat	long	Source	Problem Type	Improvement Type
The westbound service road often backs up, especially in the afternoon. Suggestions: 1)add a right-turn lane 2) prohibit right turns from the main road 3) allow a right on red.	Comm Ave Carriage Rd/Warren St			September Open House Map		Vehicle: Reduce congestion at signals
Kelton St is, in theory, a good commuting artery toward Brookline/Coolidge Corner, but it's a pretty scary road to bike on- cars parked on both sides and narrow lanes.	Kelton St			September Open House Map	Bike	
Safer track crossings for bicycles + <i>pedestrians</i>	Beacon St/Chestnut Hill Ave			September Open House Map		Bicycle: Improve safety
Safer track crossings for pedestrians	Beacon St/Chestnut Hill Ave			September Open House Map		Pedestrian: Improve safety
Safer track crossings for bicycles	Chestnut Hill Ave/Comm Ave			September Open House Map		Bicycle: Improve safety
Everett St Bridge too narrow. Traffic backs up. Ubers stop to drop off on bridge.	Everett St Bridge			September Open House Map	Vehicle	
I appreciate the bike lane, but this stretch is <u>scary</u> with cars crossing the bike lane at high speed. Not sure what can be done - I find the safest option is to run the red because turning cars are going slower, maybe it'll be better in the redesign	Cambridge St N of I-90			September Open House Map	Bike	
Over 1360 units <u>under review</u> impacting the intersection. Can conditional approval be given until mobility study is done?	Everett St/N Beacon St			September Open House Map	Other	
dedicated rideshare pickup/dropoff zones! [Harvard Ave b/w Comm Ave and Brighton Ave]	Harvard Ave b/w Comm Ave and Brighton Ave			September Open House Map		Parking: Add drop-off zone
Safer infrastructure for bicycle + <i>peds</i> to cross.	Packard's Corner			September Open House Map		Bicycle: Improve safety

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Safer infrastructure for peds to cross.	Packard's Corner			September Open House Map		Pedestrian: Improve safety
Please see the "Amateur Planner's" vision for a redesigned Comm Ave to vastly improve the B branch.	Comm Ave			September Open House Map		Transit: Other
Better access to river/green space	Connection: to the Charles River			September Open House Map		Pedestrian: Add sidewalk/connection
This intersection connects to 4 entrances to the Charles River Path, but it feel really unsafe to navigate as a pedestrian.	Leo Birmingham Pkwy/Western Ave			September Open House Map	Ped	
Quagmire of an intersection- HELP!!	Leo Birmingham Pkwy/Western Ave			September Open House Map	Other	
Poor cycling conditions not enough lane for bikes- high speeds	Comm Ave b/w Sutherland and Warren			September Open House Map	Bike	
Really BAD Intersection (St. Eliz Hospital Study) *TRAFFIC *White vans around the area (new) ADD STOP or speed bumps	Murdock St/Sparhawk St			September Open House Map		Vehicle: Reduce speed/calm traffic
Provide North/South bus connections through future West Station	West Station			September Open House Map		Transit: Add service/stop
Dedicated bus lane on Camb. St. from Union Sq. to Linden St.	Cambridge St b/w Union Sq and Linden St			September Open House Map		Transit: Prioritize transit over vehicles
Mid block crosswalk or other pedestrian infrastructure	Brighton Ave b/w Union Sq and Linden St			September Open House Map		Pedestrian: Add sidewalk/connection
Dedicated bus lane down Market St to WGBH	Market St			September Open House Map		Transit: Prioritize transit over vehicles
Priority bus signal @ Market + Chestnut Hill Ave	Chestnut Hill Ave/Market St			September Open House Map		Transit: Prioritize transit over vehicles
Poor connectivity to other transportation.	Oak Square			September Open House Map	Multimodal	

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Permits should be better coordinated. Construction + Repair makes areas inaccessible for months (Fanuil, Parson Sts) or years Comm. Ave near Packard Corner.	Comm Ave near Packard's Corner			September Open House Map	Multimodal	
More frequent service on the 64 and/or an express bus to Kendall Sq. [Cambridge St north of I-90]	Cambridge St N of I-90			September Open House Map		Transit: Add service/stop
Cambridge Street Islands/medians -Remove + add bike lanes down the middle. -NOISE pollution	Cambridge St			September Open House Map		Bicycle: Add bicycle lane/connection
cars blocking the box. Traffic prone/congestion.	BU Bridge/Comm Ave			September Open House Map	Vehicle	
Commonwealth Ave @ Naples Rd: Please construct a crosswalk. It's a clear "Desire Line"- hundreds of people cross there (or did until the fence went up- why is it there?)	Comm Ave/Naples Rd			September Open House Map		Pedestrian: Add sidewalk/connection
Covered shelter for Harvard Ave T Stop inbound	Harvard Ave T Stop			September Open House Map		Transit: Other
Sound barrier along Lincoln St.	Lincoln St			September Open House Map		Vehicle: Other
Modify intersection of Franklin, Lincoln and ped ramp. Light. Danger!	Franklin St/Lincoln St			September Open House Map	Multimodal	
Pedestrian time to walk from walk signals not humanly possible to cross as it's 15-20 seconds	Brighton Ave/Harvard Ave			September Open House Map	Ped	
Reduce # of greenline stops to speed transit	Green Line			September Open House Map		Transit: Other
Harvard take down some fences to allow better walking routes	Connection: Smith Park to Charles			September Open House Map		Pedestrian: Add sidewalk/connection
Fix the ped crossing request button	Cambridge St/Soldiers Field Rd			September Open House Map		Pedestrian: Other
Franklin St. Bridge exit for cyclists is dangerous	Franklin St/Lincoln St			September Open House Map	Bike	

Comment	Location	lat	long	Source	Problem Type	Improvement Type
More ped overpasses -difficult to cross!	N Harvard St/Soldiers Field Rd			September Open House Map		Pedestrian: Add sidewalk/connection
Need <u>less</u> buses on No. Harvard/Rte 66 \- 1 bus comes along packed full followed by 2, 3, 4 empty buses. They idle at stop lights (the lights should be removed). No. Harvard is basically <u>residential</u> homes. <u>Air pollution is bad</u> - from construction vehicles, dump trucks, Harvard buses, Yankee, school buses going to Gardner Public School, traffic starts at 4:00 AM. There are too many lanes/uses- parked cars, bike lane, bus lane, <u>Rte 66 cannot</u> handle all this please help!	66 Bus			September Open House Map	Transit	
For bikes pave the East bd side of SFR along Harvard Stad. Btwn Everett + N. Harvard Pave between the roadway and brick pier wrought iron fence 14' strip.	Soldiers Field Rd b/w Everett St and N Harvard St			September Open House Map		Bicycle: Add bicycle lane/connection
Connect parkland to Smith Park w/ at grade crossing.	Connection: Smith Park to Charles			September Open House Map		Pedestrian: Add sidewalk/connection
Ease left turn for bikers from Western + Everett	Everett St/Western Ave			September Open House Map	Bike	
One of worst intersections in Allston	Cambridge St/Harvard Ave			September Open House Map	Multimodal	
Replace bridge w/ at grade crossing	Everett St/Soldiers Field Rd			September Open House Map		Pedestrian: Add sidewalk/connection
Finish the dedicated bike lane ASAP!	Comm Ave			September Open House Map		Bicycle: Add bicycle lane/connection
Increase frequency of stops (many trains pass but skip BL) weekdays	Boston Landing			September Open House Map		Transit: Add service/stop
Designated drop off + pick up for food delivery	Brighton Ave/Harvard Ave			September Open House Map		Parking: Add drop-off zone

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Improve bike crossing to Charles river greenway.	Leo Birmingham Pkwy/Western Ave			September Open House Map		Bicycle: Improve existing bicycle lane
Improve bike crossing to Charles river greenway.	Soldiers Field Rd/Western Ave			September Open House Map		Bicycle: Improve existing bicycle lane
Cut-through traffic on Portsmouth St. I'll send email to XXXX, XXXX, XXXX, XXXX, and XXXX with more info.	Portsmouth St			September Open House Map	Vehicle	
Need at grade cross walk.	Smith Park/Soldiers Field Rd			September Open House Map		Pedestrian: Add sidewalk/connection
Diagonal cross walks @ Market/Chestnut Hill/Washington St.	Chestnut Hill Ave/Market St/Washington St			September Open House Map		Pedestrian: Improve sidewalk/crosswalk
Need dedicated bike lane (complete streets) on Western Ave	Western Ave			September Open House Map		Bicycle: Add bicycle lane/connection
More street trees!!	Area-wide			September Open House Map		Placemaking: Add trees/landscaping
Dedicated bus lane on the Pike for 5xx expresses!	I-90			September Open House Map		Transit: Prioritize transit over vehicles
Improve <u>access</u> from A/B to <u>the Charles River!</u>	Connection: to the Charles River			September Open House Map		Placemaking: Other
REPAIR THE CAMB. ST. Bridge + improve the stairs + lighting connection to Lincoln St.	Cambridge St Bridge			September Open House Map		Pedestrian: Improve safety
Need at grade cross walk	Smith Park/Soldiers Field Rd			September Open House Map		Pedestrian: Add sidewalk/connection
You need to be able to cross this intersection on <u>one</u> walk signal (not 3!)	Union Square			September Open House Map		Pedestrian: Improve sidewalk/crosswalk
Widen the bike path at the throat (Dudley White)	Dudley White Path			September Open House Map		Bicycle: Improve existing bicycle lane
West Station w/ Bus + bike connections to River/Camb.	West Station			September Open House Map		Transit: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Build more separated bike lanes!	Area-wide			September Open House Map		Bicycle: Add bicycle lane/connection
Don't forget people's mobility issues (wheelchairs) Universal Community Design We are a big part of B/A XXXX XXXX Franciscan Hospital	Area-wide			September Open House Map	Multimodal	
Street trees w/ water retention element to help keep the river clean	Area-wide			September Open House Map		Placemaking: Add trees/landscaping
Great idea! Ped/bike connection thru park	Connection: Smith Park to Charles			September Open House Map		Pedestrian: Add sidewalk/connection
Need dedicated bus lane	Brighton Ave			September Open House Map		Transit: Prioritize transit over vehicles
Build <u>West Station</u> ASAP!	West Station			September Open House Map		Transit: Other
It would be great if there was a way to interact w/ presentation boards & meeting material on a mobile phone via app or something	N/A			September Open House Idea Board		
More BlueBikes Stations. Start with Brighton/Harvard Intersection	Brighton Ave/Harvard Ave			September Open House Idea Board		Bicycle: Add bike sharing station
Bring back the A Line	Green Line			September Open House Idea Board		Transit: Add service/stop
Faster Green Line to Downtown	Green Line			September Open House Idea Board		Transit: Other
Increase the number of parking spaces in Allston!	Area-wide			September Open House Idea Board		Parking: Other
Reliable + Frequent buses and trains	Area-wide			September Open House Idea Board		Transit: Other
Express Greenline cars + 57 busses to Allston/Brighton	Multiple			September Open House Idea Board		Transit: Add service/stop
Better enforcement of traffic rules especially re: bicycles but cars also	Area-wide			September Open House Idea Board		Vehicle: Other
Provide public parking in commercial centers.	Multiple			September Open House Idea Board		Parking: Other

Green light phase at Everett Street and N. Beacon Street is too short.	Everett St/N Beacon St			Area 1 Workshop Sub-Area Notes	Vehicle	
Transit connections to Allston Brighton are generally very poor.	Connections: to Allston-Brighton			Area 1 Workshop Sub-Area Notes	Transit	
Improve connections to downtown - Boston Landing is expensive and difficult for residents to get the Zone 1A monthly pass	Connections: to downtown			Area 1 Workshop Sub-Area Notes	Transit	
Please investigate the cut-through traffic on Portsmouth Street to I-90 during your invitation. This happens at all hours.	Portsmouth St			Email from Michael Dziedzic	Vehicle	
North Beacon St between Union Sq(Allston) and Everett St is very narrow. Cars turning right into parking lots and Everett St slow traffic and force uncomfortable merging for cars and bikes.	N Beacon St b/w Everett St and Union Sq			Email from Griffin Monahan	Vehicle	
Brighton Ave between Harvard Ave and Packard's corner is littered with pot holes and surfaces that ungrate enough to toss a rider from their bike. On the outbound side of Brighton Ave there are constantly cars double parked in the right lane. This double parking in an active lane of traffic causes congestion and problems for all.	Brighton Ave b/w Harvard Ave and Packard's Corner			Email from Griffin Monahan	Bike	

Comment	Location	lat	long	Source	Problem Type	Improvement Type
The T tracks at Brighton Ave and Commonwealth Ave are very uneven and have many pot holes resulting in dangerous crossing for bikers. There are also old T tracks that are no longer used in the area. These are a danger as bike wheels can get stuck in these wide, straight divots in the road. I know this because this exact occurrence happened to me, causing me to fall off my bike, cause road rash on my side, and break my hand. (See attached images) Please pave this area smooth.	Packard's Corner			Email from Griffin Monahan	Bike	
I am a neighbor to the busy MBTA bus stop at 156 Brighton Avenue in Allston at Harvard Avenue. It is routinely abused and used as a convenient loading zone by huge trucks with loading ramps that service the many food and beverage establishments in the 156 - 174 Brighton Avenue block. There is little or no police enforcement. Thus, on a very regular basis, as T buses can not get into their own bus stop, elderly and disabled transit riders are forced into the busy Brighton Avenue traffic lanes to board or exit the route 57 and 66 buses. This is an ongoing treacherous and unconscionable situation. Can we get this resolved?	Brighton Ave/Harvard Ave			Email from Kevin Quinlan	Transit	
I hope it stops cut-through traffic on Portsmouth St.	Portsmouth St			Google Form	Vehicle	
I do not feel safe biking or walking in many of the roads, please reduce car speeds using speed calming techniques that forces drivers to slow down (do not rely on driver behavior to slow them down, instead use safe roadway design)	Area-wide			Google Form		Vehicle: Reduce speed/calm traffic

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Encourage a mode of transportation that pollutes less, is more space efficient, safer for everyone and encourages livable neighborhoods.	Area-wide			Google Form		Transit: Prioritize transit over vehicles
Allston needs more parking spaces! Ask any resident. Any plan that would reduce the current amount would be absolutely terrible. Will you increase or keep the same insufficient number of spaces we currently have?	Area-wide			Google Form	Vehicle	
Looking forward to seeing improvements to Brighton Ave. I travel the corridor twice daily on my way to and from work and find that the congestion, double parking, poorly signalized intersections (particularly at Harvard Ave and Linden St), lack of bike lanes, and dangerous pedestrian crossings (or lack thereof between Harvard Ave and Allston St) make the street dangerous and uninviting for all users. I would encourage this study and future improvements to address all of these issues.	Brighton Ave			Google Form	Multimodal	
Cycling infrastructure needs to be improved all over, but specifically in Brighton.	Area-wide			Google Form		Bicycle: Improve existing bicycle lane
I would also like to find out what we, the public, can do to encourage Blue Bikes to come into the Cleveland Circle neighborhood.	Cleveland Circle			Google Form		Bicycle: Add bike sharing station
Please please pleeeeeeeaaase make bus lanes for the 66 bus, especially on Cambridge St and in Union square. It's such an important bus and it gets stuck in traffic and ends up skipping people at bus stops. The schedule would be so much easier to maintain if there were bus lanes through the area.	66 Bus			Google Form		Transit: Prioritize transit over vehicles

Comment	Location	lat	long	Source	Problem Type	Improvement Type
I hope someone could come up with creative and working ideas on how to slow down traffic on Brooks and Faneuil streets. Specifically on the Brooks@Faneuil intersection	Brooks St/Faneuil St			Google Form		Vehicle: Reduce speed/calm traffic
plus a crosswalk to the playground on Faneuil (close to YMCA). Many times drivers even sped up while me and others (including children) were crossing! Very scary.	Faneuil St/Hardiman Playground			Google Form		Pedestrian: Add sidewalk/connection
Need turning arrows (left turn signals) at Washington & Market	Market St/Washington St			Google Form		Vehicle: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Hi I live on Brooks@Faneuil corner and are very interested in improving safety, being both pedestrian (with a small child in tow) and driver. I already submitted few comments, but wanted to add my thoughts about your red circles on the map (priorities). Frankly, neither me nor my friends have any trouble at the Oak square or Market@Washington, as they are well regulated with lights; additionally police frequently enforcing stop sign on Oak square. BUT all of us complain about safety of Brooks and Faneuil (especially dreadful Brooks@Faneuil intersection). Cars are too fast, many drivers prefer to ignore pedestrians while they are already in the process of crossing (scary) - once I was harassed by a woman who even stopped and yelled at me that I cross (with the stroller) too slowly! Its a shame we residents have to cross the street we live on like its a war zone. As a driver, I am unhappy with a crosswalk near the church on the Brooks street: it has very poor visibility. Also there is not enough parking. Each year we get new students who need to learn that we all need to park responsibly, taking only one spot at the time. Hope your study will help at least some of our concerns.	Brooks St/Faneuil St			Google Form	Multimodal

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Add a stop sign for the service road that stops at Griggs St. An elderly man died on the service road when a driver did not yield to a pedestrian in a cross walk		42.34863005	-71.13404712	Online Map		Pedestrian: Improve sidewalk/crosswalk
I don't think a No Turn on Red could apply here but perhaps a "Yield to Pedestrians in Crosswalk" sign for those making a right hand turn from Chestnut Hill Avenue onto Commonwealth Avenue/Carriage Road.		42.33799886	-71.1531325	Online Map		Pedestrian: Improve safety
I have a different commute now, but for two years crossing Commonwealth Avenue from this point was an absolute death trap and I do not have any handicap. More time is needed for these crosswalks and perhaps another sign that say a pedestrian should/must yield to trolley when entering track area.		42.35090061	-71.11380126	Online Map		
The set of crosswalks at Packards Corner are incomplete. There is no crosswalk on the east side of the intersection. And no official crosswalk at Naples, so legal crossing points are very far apart.		42.35212545	-71.12389384	Online Map		Pedestrian: Improve sidewalk/crosswalk
This project should reinforce the critical need for pedestrian connections from Commonwealth Avenue to the Charles River near BU as at Babcock Street or Agganis Way.		42.35403564	-71.11877327	Online Map		Pedestrian: Add sidewalk/connection

Comment	Location	lat	long	Source	Problem Type	Improvement Type
The median between the inbound carriageway and inbound comm ave is NEVER removed of snow. 311 has never yet figured out who is even responsible (TD Bank claims they only are responsible for the sidewalk in front of their business. MBTA claims to only be responsible for the median that contains the B-line. This is a hazard EVERY SINGLE SNOW and no one is responsible).		42.35014385	-71.1310572	Online Map		Pedestrian: Improve sidewalk/crosswalk
Band tour buses routinely park in the MBTA stop here. Give them some sort of loading zone that doesn't interfere with the literally thousands of people trying to access the 66 and 57 (and doubly so for people with mobility constraints)		42.35297448	-71.1325692	Online Map		Transit: Other
The area around the curb cut attracts giant pools of water that takes DAYS to evaporate every time it rains/snows. City of Boston claims they'll solve this with the Comm Ave upgrade which is nice, but surely there is something for drainage that can be done in the 2-5 years before this project happens.		42.35010374	-71.13094057	Online Map		Pedestrian: Improve sidewalk/crosswalk
BUS LANES BUS LANES BUS LANES. Businesses here can get MANY more customers than the handful of parking spaces give them.		42.35206088	-71.13180435	Online Map		Transit: Prioritize transit over vehicles
No need for parking here. There are lots behind the businesses and thousands of people come through here by bus every day.		42.351793	-71.13171648	Online Map		Vehicle: Enforce/remove parking

Comment	Location	lat	long	Source	Problem Type	Improvement Type
TSP is so desperately needed at this intersection. Hundreds of people wait through a LONG light cycle every 7 minutes to let tens of single-occupancy vehicle drivers by. Prioritize people!		42.35211904	-71.12412823	Online Map		Transit: Prioritize transit over vehicles
Consider bus in trolley reservation proposals to create a true transit reservation shared by the 57 and B line.		42.35204825	-71.12373514	Online Map		Transit: Other
should be a one street for soldiers fld road to Western Ave		42.36286427	-71.13737304	Online Map		Vehicle: Other
Cars drive very fast here and usually, cars do not stop for pedestrians. I suggest adding warning lights for pedestrian crossing (this crosswalk is also dark at night -- hard to see from the cars' perspective)		42.34143844	-71.14674111	Online Map		Pedestrian: Improve safety
The road curve around here makes for dangerous sitelines. Many people use Corey as a shortcut from Beacon to Comm Ave & Washington, disregarding speed limits on both Boston and Brookline sides. Road is too narrow for parking on SE corner but there are spots there anyway. 1) Place stop signs N/S on Corey and create 4 way stop intersection and full crosswalks on all corners. 2) eliminate parking on SE corner of intersection 2)				Online Map		Vehicle: Reduce speed/calm traffic
Cars travelling SE on Strathmore have no stop sign and no view of cars/peds travelling E on Englewood. Hard for pedestrians to make across intersection, even if car is not approaching yet. 1) place stop sign SE on Strathmore 2) delineate crosswalk on N side of Englewood across Strathmore				Online Map		Pedestrian: Improve sidewalk/crosswalk

Comment	Location	lat	long	Source	Problem Type	Improvement Type
this should be a one way street				Online Map		Vehicle: Reduce speed/calm traffic
this should be a one way street				Online Map		Vehicle: Reduce speed/calm traffic
this should be a one way street				Online Map		Vehicle: Reduce speed/calm traffic
Bike lane paint and bollards are nearly all gone. Every time I drive over here, there is a car using the bike lane to cut traffic to get on I-90 to the detriment of bikers.		42.35753089	-71.12733323	Online Map		Bicycle: Improve existing bicycle lane
ENFORCE DOUBLE PARKING IN CLEVELAND CIRCLE		42.33592218	-71.149966	Online Map		Vehicle: Enforce/remove parking
Enforce parking in bike lane		42.35159889	-71.13160548	Online Map		Bicycle: Improve safety

Need lane lines on road		42.34984545	-71.13061066	Online Map		Vehicle: Other
This is a very dangerous intersection. Cars from the service road join the main road very often, creating points of possible collision. There's already a sign prohibiting cars in the service road from turning left, but it would be good to reinforce the painting on the road.		42.34861948	-71.14029935	Online Map		Vehicle: Other
The turning right sign is very confusing for drivers that are not used to this intersection. There are two "turn right" arrows specifically for people that want to turn onto Essex and Mounfort streets. Very often, drivers misunderstand one of the lanes with the longer circle to take BU bridge. I'd suggest making that more clear by adding a sign for all four lanes (the rightmost two to strictly turn right, the leftmost two to go straight or take BU brigde).		42.35047628	-71.11119872	Online Map		Vehicle: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Please enforce traffic blocking the intersection during rush hours		42.35058076	-71.11112911	Online Map		Vehicle: Reduce congestion at signals
Cars making a u-turn here during rush hour very often block traffic on Comm Ave and sometimes block the T too, adding commuting time to hundreds of people. I'd suggest limiting u-turns during rush hour.		42.35141837	-71.11830341	Online Map		Vehicle: Reduce congestion at signals
I'd suggest consolidating Chiswick and Sutherland Rd T stations, making room for a more spacious station where passengers would pay prior to entering the train, reducing the boarding time and reducing fare evasion. The extra space can be taken by eliminating space from the service road.		42.34146142	-71.14885928	Online Map		Transit: Improve existing stop/station
The T should have priority in this intersection. A train carrying 500 people should not have to wait for minutes to yield for a few cars carrying one person each.				Online Map		Transit: Prioritize transit over vehicles
The T should have priority in this intersection				Online Map		Transit: Prioritize transit over vehicles
Improve station to make riders pay prior to boarding the train. This is a busy station, which during rush hour it will reduce boarding time and fare evasion. (the T already opens all doors here, so there seems to be a lot of fare evasion)		42.35030659	-71.13119749	Online Map		Transit: Improve existing stop/station
Need to have 4 way stop sign! Need to slow down rude drivers on both Faneuil and Brooks		42.35246656	-71.16316052	Online Map		Pedestrian: Improve safety
There is no walk signal for crossing Wallingford Rd at this intersection. This makes it difficult to tell when to cross.		42.34100845	-71.1505207	Online Map		Pedestrian: Improve sidewalk/crosswalk
We need a 4 way stop at the intersection of Faneuil and Brooks St. This crossing is very unsafe.		42.35212779	-71.1633059	Online Map		Pedestrian: Improve safety

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Very poor visibility for cars to see pedestrians. We need a stop sign on Brooks St at the intersection of Bigelow St.		42.35481962	-71.1628296	Online Map		Pedestrian: Improve safety
Ongoing construction makes this difficult, but the bike lane is often blocked by debris or closed without enough notice in advance for cyclists to safely merge into traffic at a convenient location.		42.35094785	-71.11346757	Online Map		Bicycle: Improve safety
Tour busses often block the bike lane in front of Paradise Rock Club and there is no convenient location to safely merge into traffic around them during evening rush hour.		42.35167251	-71.11951721	Online Map		Bicycle: Improve safety
Brooks Street is very popular route for cyclists to access the Charles River bike path, but it is very narrow and dangerous for cyclists. Removing one side of parking and adding bike lanes in both directions would make a huge difference!		42.35399701	-71.16293635	Online Map		Bicycle: Add bicycle lane/connection
Please add timetables to the T stops. It makes it easier to plan one's commute and facilitate the creation of mobile applications that currently rely on estimations. Additionally, it helps adjustments on the T schedule and reliability metrics.		42.34395937	-71.14252471	Online Map		Transit: Improve existing stop/station
It is very busy street and we residents often struggle with parking. "Residents only" parking is needed! NOT ONLY on Upcrest street!!!		42.35376131	-71.16294945	Online Map		Parking: Change parking regulations
This crosswalk is located in a very dangerous intersection where cars speed from all directions and do not often stop for pedestrians. 4-way stop signs should be installed for everyone's safety.		42.35240274	-71.16320999	Online Map		Pedestrian: Improve safety

Comment	Location	lat	long	Source	Problem Type	Improvement Type
A crosswalk **SHOULD** be installed on this side of the YMCA, as many people illegally cross here to go to Dunkin Donuts often. The closest crosswalks are too far away.		42.35050238	-71.16685233	Online Map		Pedestrian: Add sidewalk/connection
A crosswalk **SHOULD** be installed on the corner of Oak Square Ave and Washington Street as the others are too far away.		42.34972522	-71.16429708	Online Map		
It is very scary to cross from Faneuil to Kiki`s Kwik-Mart, especially during rush hours: its hard to see drivers approaching from Oak square, also due to them being very fast. Maybe more stop signs in this area would help?		42.352859	-71.15999471	Online Map		Pedestrian: Improve safety
Very difficult to turn left from Washington to Market (towards Storrow drive). Please add green arrow.		42.34917841	-71.15378367	Online Map		Vehicle: Reduce congestion at signals
Add 1-2 crosswalks along this section of Washington Street. Walkability dictates that crosswalks should be placed about every 250ft.		42.35001383	-71.16472019	Online Map		Pedestrian: Improve sidewalk/crosswalk
This intersection is difficult for vehicles to see and navigate. The right of way is unclear.		42.35610473	-71.1416562	Online Map		Vehicle: Other
Sidewalks should be extended into roadway to keep lanes at consistent width and create smaller turning radii. Pedestrians would benefit from smaller crossing distances.		42.33575487	-71.15024799	Online Map		Pedestrian: Add sidewalk/connection
Please add a crosswalk on the east side of Kinross/Wallingford so people can cross Comm Ave safely		42.34102947	-71.15046404	Online Map		Pedestrian: Improve sidewalk/crosswalk
Whenever it's raining there are puddles here, if you're waiting to cross Comm from the BU West station to the N side crosswalk, the cars splash you with muddy water :(42.35095448	-71.11369278	Online Map		

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Alighting outbound T passengers who want to travel west from the platform must head as much as 200' in the wrong direction to get to a crosswalk. Signal timings/traffic patterns result in relatively few safe gaps for jaywalking. A crosswalk at the western end of the platform would provide a legal path along a common desire line.		42.35195808	-71.12228525	Online Map		Transit: Improve existing stop/station
This intersection is poorly designed, resulting in unpredictable conflicts and an unnecessarily long ped crossing. Reconfiguring would allow addition of green space or other amenities.		42.35082376	-71.12985266	Online Map		Placemaking: Add trees/landscaping
Insufficient space for passenger alighting during peak period.		42.35055341	-71.13088493	Online Map		Transit: Improve existing stop/station
Insufficient space for passenger alighting during peak period.		42.35055341	-71.13088493	Online Map		Transit: Improve existing stop/station
Please paint lines on Harvard ave in both directions leading up to Comm ave.it's a hot mess.		42.35035242	-71.13089677	Online Map		Vehicle: Other
Request a crosswalk and stop sign here to provide a safe crossing for the large number of neighborhood children who use Joyce Playground. There have been numerous close-calls and we should preemptively avoid a tragic accident.		42.34578859	-71.1512277	Online Map		Pedestrian: Improve safety
Turning left here is hard. make it easier with a intersection box, or even make it illegal to remove the dangerous attempt?		42.3491928	-71.13004645	Online Map		Vehicle: Reduce congestion at signals
More green space. More families are moving into the neighborhood and a new park would be a great asset.		42.35182944	-71.146305	Online Map		Placemaking: Create active area
Please paint lines on corey/Brainerd Rd. (I have a sneaky suspicion they aren't painted because the lanes would be too small :))		42.34326154	-71.13934279	Online Map		Vehicle: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
The large numbers of construction vehicles traveling down Washington St. has created many potholes - this is dangerous because the street is used regularly by hospital ambulances headed to the Emergency Room. Washington Street is in desperate need for repaving.		42.34804727	-71.14965533	Online Map		Vehicle: Other
When the pedestrian walk sign is on, crossing Market Street, the vehicles exiting Guest Street turning left onto Market have a green light, placing vehicles and pedestrians in direct conflict. This needs to change. Close to no one drives straight; it's effectively a left turn only (people don't wait for the light to turn green to turn right).		42.35742146	-71.14827235	Online Map		Pedestrian: Improve safety
This signal needs dedicated left turn phasing from North Beacon onto Market. It would make traffic flow better, it would make things safer for cyclists trying to turn left.		42.3562083	-71.14919124	Online Map		Vehicle: Reduce congestion at signals
We need a crosswalk on Faneuil Street crossing Parsons! Maybe a stop sign for people driving, too.		42.3553409	-71.15616691	Online Map		Pedestrian: Improve sidewalk/crosswalk
protected bike lane on Market Street/Leo M Birmingham Parkway please, from Brighton Center to Western Ave. This is a major route.		42.352404	-71.1513516	Online Map		Bicycle: Add bicycle lane/connection
Designate this portion of Washington into a senior safety. There are over 100 units of senior housing and assisted living. Plus, the proximity to transit and retail provide destinations for seniors. A short of portion of this street is a school zone				Online Map		Pedestrian: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Not sure what can be done. People speed up and down this street. The parking and low visibility of cars coming up Corey from Washington can lead to an accident or pedestrian being hit. It's an issue if you are exiting the Providence House.				Online Map		Pedestrian: Improve safety
Issues with people speeding up the hill from Washington St. Cars park near the corner entrance of Providence House which creates visibility issues.		42.34335401	-71.13925031	Online Map		Vehicle: Reduce speed/calm traffic
Lincoln street needs a real bike lane and speed bumps to keep the speeds down.		42.35748828	-71.13579791	Online Map		Bicycle: Improve safety
Waverly St. is a MAJOR cut-through for traffic. Not sure what the plan is, once the apartment building opens on the corner of Western Ave.		42.36089665	-71.14615711	Online Map		
I used to cross this street every morning walking to work and cars would always go right on red and almost hit me, even though I waited for the walk sign, especially if they were turning from Washington St taking a right onto Cambridge St.		42.34899417	-71.15033738	Online Map		Pedestrian: Improve safety
Live on the corner of this street and I have seen more car accidents than anywhere else I've lived. Mostly people speeding down Market Street or who come up the hill from Arlington St and try to make it through the red.		42.35162361	-71.15189653	Online Map		Vehicle: Reduce speed/calm traffic
57 is always full during rush hour by the time it gets to this stop. Really stinks during the winter when 2-3 full buses have to pass you!		42.353137	-71.1385411	Online Map		Transit: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
many cyclists use Brooks Street to access the Charles River path, but when we get to the end of Brooks, it's confusing to know what we're supposed to do... come to an abrupt stop while cars are whizzing by, turning right, then use the crosswalk to cross Brooks street, then access the path? Just making it clearer what people should do here would be great.		42.35786179	-71.1619056	Online Map		Bicycle: Improve safety
protected bike lane on Western Avenue, PLEASE!		42.36233907	-71.14109729	Online Map		Bicycle: Add bicycle lane/connection
it is impossible to see cars coming down this street when walking west on comm ave and i've been in several near-accidents thinking no one is coming (especially during the day when you can't look for headlights, or during snow/rain with low visibility). remove the parking space nearest the corner so we can see who's coming!!!		42.34792556	-71.13586029	Online Map		Pedestrian: Improve safety
This intersection is nuts. There is never enough time to cross the street as a pedestrian, and cars turn every which way.		42.35325763	-71.13773636	Online Map		Pedestrian: Improve safety
Street crossing required here. While there is technically no intersection, the stairs from Mansfield Street / Lincoln Street come up here, and people want to get to Linden Street to head for the Green Line. The only 'legal' way is to cross at Harvard Ave and walk back up, which nobody does. Now, people just run to the center strip, then run across the other 2 lanes. There should be a crosswalk to Linden Street, and a Linden traffic light that is timed with Harvard Ave light.		42.35649821	-71.13035535	Online Map		Pedestrian: Improve sidewalk/crosswalk

Comment	Location	lat	long	Source	Problem Type	Improvement Type
A traffic light in sync with Harvard Ave should have a crosswalk. Cars turning right from Linden should have a protected right turn that is not delayed by a crosswalk. Any crosswalk at this intersection should be to the left of Linden Street so traffic does not back up, and pedestrians have the maximum opportunity to cross.		42.35582394	-71.13214869	Online Map		Vehicle: Other
Now that XXXXX is gone, allow left turn from Cambridge Street down Highgate at any hour, without restriction. Add a traffic light sync if necessary. Also, make Highgate ONE WAY and don't allow OUT traffic unless required for the new development.		42.35592495	-71.13226774	Online Map		Vehicle: Reduce congestion at signals
Need AT GRADE easy to cross, pedestrian bridge across the Pike. This current ramp must go way up and over the pike, then comes out in a place where there is nowhere to go.		42.35618817	-71.13284914	Online Map		Pedestrian: Other
Replace this long, graffiti magnet of a bridge with a straight across, at grade pedestrian connection with a bike lane to bridge the neighborhood.		42.35697442	-71.13293664	Online Map		Pedestrian: Improve sidewalk/crosswalk
ridiculously deep depression in the street here that leads to tons of water collecting & hanging around well after rain, cars driving even normal speed splashes water all over reaching even the sidewalk		42.34929459	-71.13273915	Online Map		Vehicle: Other

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Need police enforcement of ride-sharing vehicles that illegally park in bike lane/bus stop. Harvard contends that there is a designated pick-up spot for students to use on Kresge Way but they don't, creating a dangerous situation for cyclists coming westbound on Western having to merge around a car in the bike lane and into traffic.		42.36406658	-71.11983108	Online Map		Bicycle: Improve safety
Improve bike lane. Bike lane becomes parking spaces, creating dangerous situation and cyclists merge back in with cars.		42.36312984	-71.13088986	Online Map		Bicycle: Add bicycle lane/connection
Enforcement needed of double-parked cars in bike lane. Creates dangerous situation for bikes merging around cars into traffic.		42.36324083	-71.13025686	Online Map		Bicycle: Improve safety
Western Ave is in dire need of proactive funding from developers with a Complete Streets focus from the City. This thoroughway cannot be designed based on current needs but based on what will be here in 5-10 years. MBTA has no plans to improve service on the 86, 70, 70A even though hundreds if not thousands more people will be moving through this corridor and developers continue to rely on their "transit-oriented" builds, already stressing a system at capacity. Developers must be required to have holistic TAPAs that fund public infrastructure improvements for everyone, not just their residents. The City must hold them to this standard.				Online Map		Placemaking: Other
Need a stop sign at Faneuil and Bigelow.		42.35133274	-71.16747519	Online Map		Vehicle: Other

The parking lanes (often empty at rush hour) with hard curbs that jut into roadway are cyclist deathtraps. This route needs a dedicated cycle lane on both sides of the street. Going down the hill on Washington St, it is very dangerous to go into empty parking lane to let cars pass as drivers do not realize that there is a curb and cyclist needs to re-enter traffic lane		42.34095029	-71.13781952	Online Map		Bicycle: Improve safety
This street is very narrow and treated as a one way street by westbound (uphill) traffic. There needs to be a yellow stripe in the middle to demarcate the lanes.		42.34372745	-71.14129895	Online Map		Placemaking: Add wayfinding signs
This intersection is a disaster! Cars are turning left and right onto Washington at the same time, blocking cars from turning right onto Allston. Visibility is poor in either direction due to parked cars, and left turn is immediately into cross-walk.		42.34324308	-71.14184553	Online Map		Vehicle: Other
Thank you Brookline for the dedicated cycle lane. This addressed a very dangerous narrow stretch of road where cars tend to speed up, only to be stopped at the light at Washington street anyway. There is still ample room for cars to collect waiting for the light, even if traffic is slowed on Beacon Street. A good example of using existing space better to improve safety for all. Frequent repainting of lane is helpful, and it would be great if some of the bollards could be replaced.		42.33992047	-71.13332009	Online Map		Bicycle: Improve safety
The road is too narrow here. Cars travelling north over the bridge gain speed then can't stay in their lane at the corner, entering the oncoming lane of traffic		42.35543909	-71.13870197	Online Map		Vehicle: Reduce speed/calm traffic

More community gardens. The waitlist is over 3 years long!		42.36395231	-71.14240031	Online Map		Placemaking: Other
Academy Hill Road should be one way. There is parking on one side and there is no room for two cars to pass each other, especially in the winter. It is like a mad dash to get to Chestnut Hill Ave before another car approaches from the other direction. The intersection at Chestnut Hill Ave is also dangerous. Cars leave Chestnut Hill Ave onto Academy Hill road and there is no space if there is a car waiting to get into traffic from Academy Hill road.		42.34707873	-71.15386642	Online Map		
I would like the city to paint a diagonal crosswalk here because this is an "all way" crosswalk and sometimes pedestrians do not know that. Also, it looks very cool and increases Brighton Center's trendiness!				Online Map		Pedestrian: Improve sidewalk/crosswalk
Sidewalks are too narrow, approximately 1 foot wide here		42.33895281	-71.14679023	Online Map		Pedestrian: Improve sidewalk/crosswalk
Sidewalks need to be installed here. They turn to asphalt and then kind of just fade away		42.33929827	-71.14908205	Online Map		Pedestrian: Improve sidewalk/crosswalk
Need a crosswalk here to connect to the pedestrian entrance to the wooded area. Pedestrians do not walk to the end of the block and end up running across 4 lanes of road traffic and possibly a trolley on Chestnut Hill ave.				Online Map		Pedestrian: Improve sidewalk/crosswalk

Comment	Location	lat	long	Source	Problem Type	Improvement Type
Intersection between Chestnut Hill Ave, South St, and Kirkwood Rd is dangerous to drivers and pedestrians. Parking on the South/West-bound side of Chestnut Hill Ave extends so far up the block that the intersection becomes blind for those coming up Kirkwood. At least one parking space should be removed to allow for better visibility.		42.34027492	-71.15577357	Online Map		Vehicle: Enforce/remove parking
This intersection is often blocked by traffic that cannot make it through the intersection before the light changes. This seems to occur most frequently during the morning rush hour with north-east-bound traffic coming from the two lane Cambridge Street south of the intersection to the one lane Cambridge Street north of the intersection. Some combination of regular enforcement of drivers blocking the intersection and treatments that constrain the traffic before it enters the intersection would be appropriate. Signal timing at Harvard Ave and Cambridge Street probably contributes to this issue also as the traffic backs up from there.		42.35357078	-71.13734106	Online Map		Vehicle: Reduce congestion at signals
Eliminate the signed, rarely observed one-way restriction under the Everett St bridge to allow easier egress from the shopping center.		42.35662479	-71.13847305	Online Map		Vehicle: Other
There should be a crosswalk here to allow getting to and from the shopping center and bus stop from the south side of Brighton Ave. There are many people who cross here anyway so there is a significant desire line.		42.35329168	-71.13369913	Online Map		Pedestrian: Add sidewalk/connection

Comment	Location	lat	long	Source	Problem Type	Improvement Type
A neckdown across the oneway portion of Linden Street south of this intersection would make it easier for pedestrians to cross and also easier for southbound Linden Street cars to take a left turn onto Brighton Avenue by offsetting the vehicle path a bit		42.35266979	-71.13023089	Online Map		Pedestrian: Improve sidewalk/crosswalk
Biking or walking through this intersection is extremely dangerous with fast-moving cars. Several movements are harrowing, particularly North Beacon St/Birmingham Parkway to the bridge to Watertown.		42.35904946	-71.15887116	Online Map		Bicycle: Improve safety
Eliminate a few parking spaces right at the intersection of Linden and Farrington to allow northbound Linden traffic to keep to the right and leave space for Farrington right-turning traffic to make the turn.		42.35449518	-71.13036966	Online Map		Parking: Change parking regulations
Double parking is a particular problem along this stretch of Brighton Ave and never seems to be enforced by police. A combination of better enforcement and more designated loading zones would help.				Online Map		Vehicle: Enforce/remove parking
I would eliminate the right turn from the carriage road to Commonwealth Avenue here to eliminate the conflict with right-turning traffic from the main lanes. An idea to do this would be to block off the turn, create an opening for a right turn just prior to the existing right turn and then reverse the direction and parking angle of this section of the carriage road. Cars which park along the side would be able to turn out at Fuller Street and continue along Comm Ave eastbound.		42.35180437	-71.12468324	Online Map		Vehicle: Other

Crossing the westbound lanes of Brighton Ave between Malvern St and the T stop, it's difficult to see oncoming traffic due to the visual obstruction created by parked cars at 1089 Commonwealth Avenue. I would prefer that the parking spaces be eliminated to create a clear line of sight between the Malvern St crosswalk end, and the point where cars turn onto Brighton Ave.				Online Map		
Due to the distance between the westbound traffic light and the crosswalk, it is currently possible under heavy traffic for the pedestrian phase to begin while there are still cars between the traffic light and the crosswalk.		42.35227861	-71.12492956			Pedestrian: Improve safety
Chestnut Hill Ave is an important stop on the most direct path from most of Allston to Newton Highlands, but it feels unsafe to use due to how little space there is between the train ROW and the traffic lanes. Would like to see some space reallocated from traffic to the transit median, with a view toward eventually adding ADA platforms.		42.33830449	-71.15332619	Online Map		Transit: Improve existing stop/station
There is no obvious place to cross the I-90 onramp while walking along the south side of Cambridge Street. Suggest adding a crosswalk and sign near the no-hazmat sign.		42.35830537	-71.1250877	Online Map		Pedestrian: Add sidewalk/connection
Crossing Linden Street is currently just two curb cuts with no other markings and vehicles rarely yield to pedestrians. Increasing visibility could help here.		42.35591347	-71.13127111	Online Map		Pedestrian: Improve sidewalk/crosswalk

Comment	Location	lat	long	Source	Problem Type	Improvement Type
we need a 4-way stop and daylighting (no parking next to the intersection). Extremely dangerous intersection for pedestrians and cyclists, drivers go WAY too fast and whip around this corner without looking.		42.35566375	-71.15431923	Online Map		Pedestrian: Improve safety
Consider removing parking on one side of Falkland. Routinely, folks entering Falkland don't see that there is someone coming the opposite direction, and someone has to reverse in order to allow the other to pass.		42.35439221	-71.15820385	Online Map		Vehicle: Other
Drivers sometimes turn from sparkhawk st onto Murdock st going the wrong way down a one way road. Better signage and enforcement is needed		42.35039818	-71.1478327	Online Map		Vehicle: Other
People drive way too fast up this road. There is not enough enforcement to calm traffic. It's very scary trying to cross the street.		42.35278768	-71.1464675	Online Map		Vehicle: Reduce speed/calm traffic
The bike connection to get to Harvard Ave from the extremely Narrow bridge is treacherous.				Online Map		
The dedicated westbound right-turn lane is unnecessary and should be traded for pedestrian/bicycle space.		42.35564829	-71.13276407			Bicycle: Improve safety
This intersection should be made into a protected intersection to prioritize pedestrian and bicycle movements.				Online Map		
Related, the median is wasted space that could be re-allocated to the pedestrian/bicycle space.		42.35304656	-71.13208984			Bicycle: Improve safety
This intersection is ridiculous. It is GIANT. Please put in a neighborhood roundabout or traffic calming.		42.34453754	-71.15006168	Online Map		Vehicle: Reduce speed/calm traffic

Comment	Location	lat	long	Source	Problem Type	Improvement Type
This intersection is now far too big to accommodate all motorists, buses, people, and bicyclists.						
This intersection needs a major overhaul like what Cambridge is doing with Inman Square. It should be separated into two different intersections and also the skew should be eliminated. Then, this area can become a real union square, instead of a union sewer, which is what it is now.		42.35358083	-71.13769477	Online Map		Placemaking: Create active area
Storrow Dr/Soldier's Field Rd should be repurposed for people walking, biking, and enjoying the waterfront. There's already a highway here - there doesn't need to be two!				Online Map		Placemaking: Create active area
This is a sketchy corridor to walk or bike on. More space needs to be allocated to these vulnerable modes so people can get go from Allston/Brighton to Cambridge. Otherwise, people will just drive. That's not what we should be telling people!		42.36030625	-71.12089344	Online Map		
The priority corridors here need to connect - what a waste if you don't connect these two links. I realize the bridge may be MassDOT owned, but please work with them to make these two links connect.		42.35867948	-71.14754002	Online Map		Bicycle: Add bicycle lane/connection
Connect these two priority corridors				Online Map		Bicycle: Add bicycle lane/connection
Does this gas station need to be here? It is such an eyesore and could be replaced with a place where people hang out.		42.36299768	-71.13029357	Online Map		Placemaking: Create active area
This is a parking lane next to a giant parking garage - stop subsidizing parking, give this space back to people.				Online Map		Parking: Change parking regulations

Comment	Location	lat	long	Source	Problem Type	Improvement Type
This whole stretch is terrifying to walk or bike through. Connection to the path is so close... yet so far. Lots of space, please rethink and work with DCR to reimagine this parkway.				Online Map		Pedestrian: Add sidewalk/connection
Can diverters be implemented on Lincoln St so motorists don't use this as a cut through? Motorists are always speeding here.		42.3577502	-71.13777718	Online Map		Vehicle: Reduce speed/calm traffic
This could be a really cool space! If there weren't so many vehicle lanes. Are they all necessary? It is sad that the space in front of the restaurants have no where to be activated.				Online Map		
People/Bicycle space should be introduced here and the motorist space eliminated.		42.34376719	-71.14286722			Placemaking: Create active area
There is too much pavement and vehicle lanes here and the public grounds should be expanded so that the police and residents can enjoy this area.				Online Map		
Winship St is an unimportant street and could be closed to this intersection which would also allow for more space for people and bicyclists to roam.		42.34896449	-71.15047213			Placemaking: Create active area
Remove at least 2-3 on-street parking spaces on the north (westbound) side of the street to provide more space for the 66 and 86 buses to maneuver and serve the bus stop. This will also increase visibility of pedestrians and the Blue Bikes station.		42.36376647	-71.12907015	Online Map		Transit: Prioritize transit over vehicles
Consider buffered or protected bike lanes along this stretch by removing on-street parking and excess road space, without significantly diminishing bus operations at bus stops.				Online Map		Bicycle: Improve existing bicycle lane

Comment	Location	lat	long	Source	Problem Type	Improvement Type
A friend died here on her bicycle around 2005. Another woman died here in 2007. There have been no improvements to this dangerous intersection for as long as I can remember (since at least 1999). This intersection hasn't been targeted by Vision Zero - the crashes by far predate that initiative, but this is a very important and well used bike connection, and there has never been any urgency to improve it. I am disgusted by the inability of the people who work for the City and the State to fix this intersection.		42.35554611	-71.13277997	Online Map		Bicycle: Add bicycle lane/connection
Improve pedestrian crossings, ADA accessibility, and sight distance by expanding sidewalk space, adding curb ramps, and restricting parking next to crosswalks so that turning vehicles can see pedestrians.		42.35952673	-71.13326703	Online Map		Pedestrian: Improve sidewalk/crosswalk
This is a dangerous intersection. There have been many accidents as well as people driving the wrong way due to unclear signage for non-locals unused to the carriage lane.		42.34868839	-71.1378135	Online Map		Vehicle: Other
The T screeches when it drives around this corner. The shelters are also worn, and do not take into account the direction of the wind. The barriers banged up from multiple accidents.		42.34851356	-71.13873394	Online Map		Transit: Improve existing stop/station
Could these T stops be combined? My DREAM would be to have the green line underground with longer stops that are sheltered from the weather.		42.34819677	-71.13795644	Online Map		Transit: Other
The pedestrian walk signal is only triggered if pushed. There should be an AUTOMATIC pedestrian light.		42.3481492	-71.13767359	Online Map		Pedestrian: Other

Past and Ongoing Planning Initiatives

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

Inventory of Existing Plans

1. Placemaking Report: I-90 Allston Interchange Improvement Project, BPDA
 - Report – October 2016
2. Western Avenue/Soldiers Field Road/Leo Birmingham Parkway Improvements, BPDA & BTD
 - Presentation, BPDA – January 2018
 - Concept Design Report (CDR), HSH – June 2018
3. Harvard University’s Campus in Allston – Institutional Master Plan, Harvard
 - Report – October 2013
4. Harvard Enterprise Research Campus (ERC), Harvard
 - Report – December 2017
5. Brighton – Guest Street Area Planning Study, BRA
 - Report – March 2012
6. Green Line Service Improvements, MBTA
7. Go Boston 2030, Vision and Action Plan, BTD
 - Plan – March 2017
8. North Allston Strategic Framework for Planning, BRA
 - Plan – May 2005
9. Allston Early Action Transit Study, MassDOT
 - Draft Presentation – December 2018
 - Report – December 2018
10. MassDOT Allston I-90 Interchange Improvement Project
 - Independent Review Team Report, October 15, 2018
11. Brighton Shuttle Bus Feasibility Study – St Gabriel’s Redevelopment – 159-201 Washington Street
 - Draft Final Study – April 2019
12. Commonwealth Ave Reconstruction Phases 3 & 4, PWD
 - 25 percent design
13. MBTA Better Bus Project
14. West Station Transit Study, MAPC
 - Under way as of May 2019
15. North Allston-Brighton Community-Wide Planning Initiative, BRA
 - Presentation – 2008-2009

Last Updated: July 2019

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

1. Placemaking Report: I-90 Allston Interchange Improvement Project, BPDA (2016)

<http://www.bostonplans.org/planning/planning-initiatives/i-90-allston-interchange>

Purpose

- Provide guidance and recommendations for the redesign of the transportation infrastructure in and around the I-90 Allston Interchange

Goals

- Creation of a dynamic, mixed-use TOD district
- Significant expansion of regional transit service
 - West Station Commuter Rail Station
 - Multiple transportation choices: BRT, DMUs, buses, shuttles, rail
- Enhancement of Interstate reliability

Allston-Brighton Related Improvements/Projects

- “Placemaking” in the context of this study refers to the creation of conditions that will allow great urban places to grow within this district
- The following highlights eight projects that would help transform this district
- **Add I-90 and Soldiers Field Road Connections**
 - Provide additional access between Soldiers Field Road and the new streets leading to the I-90 ramps in order to reduce traffic on Cambridge Street and support new development

- **Realign Portions of Soldiers Field Road Along the River**
 - Soldiers Field Road can be pulled further away from the Charles River, creating more useable open space, public access and pedestrian/bicycle connectivity
- **Create Park Space on the Charles**
 - Provide the space for a new park along the Charles River with revisions to the Soldiers Field Road alignments

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

- **Provide an at-grade crossing over Soldiers Field Road for a shared-use path to the Charles – “Peoples Pike”**
 - The project should include an off-street landscaped multi-use path connecting the district and the surrounding neighborhoods to the Charles River, with an at-grade crossing over Soldiers Field Road

- **Additional East/West Street Connection between Cambridge Street and West Station Area**
 - Provide for a direct street connection with bicycle and pedestrian accommodations at or near the Cambridge Street Bridge over I-90 and the West Station area, using air rights

- **Provide a North/South Link for Shuttles and Buses**
 - Provide a north/south transit link for buses and shuttles between the North Allston/Harvard Area, West Station, and areas to the east and south, including Kendall Square and the Longwood Medical Area
 - Routes should be directed past the new West Station
- **Provide a Third North/South Arterial Street**
 - Provide three north-south arterial streets across Beacon Park Rail Yard aligned with three north-south streets now being planned for the Harvard Institutional Master Plan (IMP) area

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

- **Consider a Direct North Harvard Street Intersection**
 - A more direct intersection between Cambridge Street South and North Harvard Street at Cambridge Street would limit neighborhood impacts and reduce unnecessary turning movements, congestion, and street and intersection widths along Cambridge Street

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

2. Western Avenue/Soldiers Field Road/Leo Birmingham Parkway Improvements, BPDA & BTD (2018)

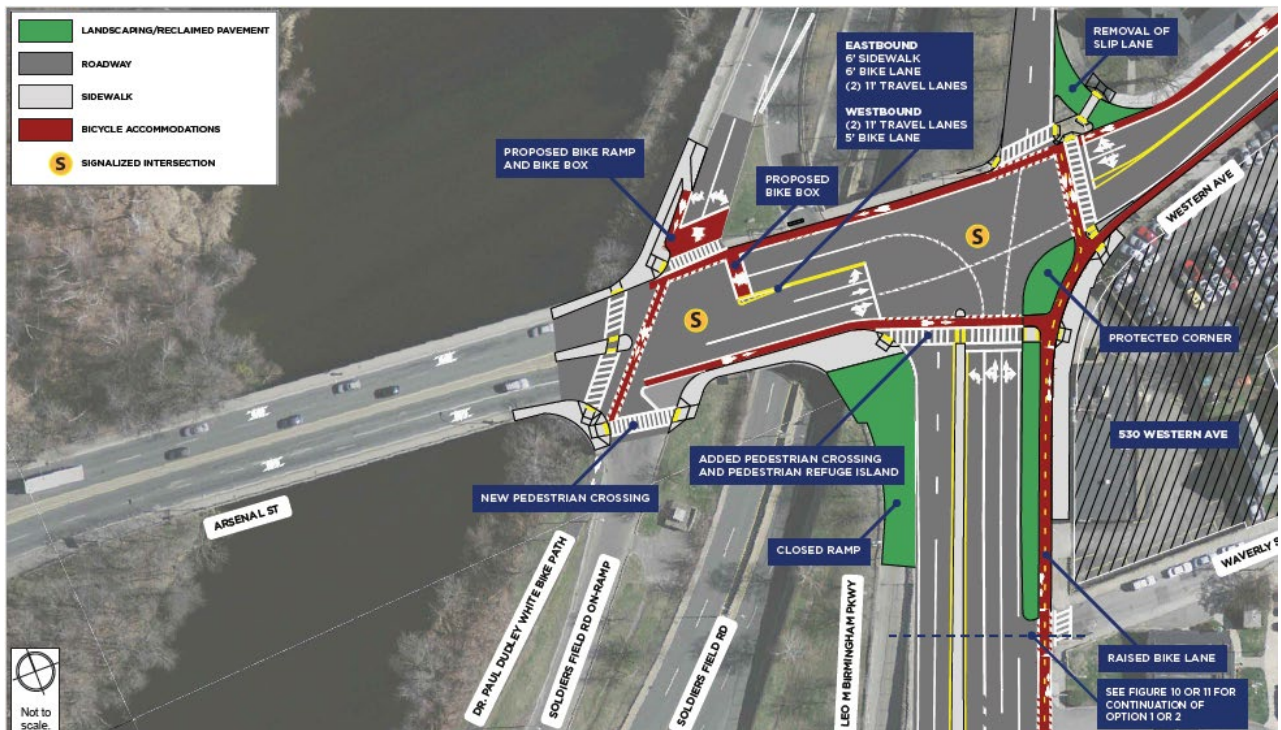

Source: Conceptual Design Report - Not available online

Guiding Principles

- Simplify and improve access for all modes
- Provide access to riverfront & Paul D. White Bike Path
- Integrate the Intersection and Leo M. Birmingham Pkwy with Bicycle & Pedestrian Network
- Maintain Public Transit operations
- Limit cut through movements
- Reclaim useable public and green space

Allston-Brighton Related Improvements/Projects

- Short Term Improvements – from **Conceptual Design Report – Western Avenue Transportation Improvements (2018)** (see figure below)
 - Western Avenue
 - Provide painted bike lanes traveling westbound
 - Provide a parking buffered bike lane traveling eastbound
 - Remove the slip lane from Western Avenue westbound to the Soldiers Field Road northbound on-ramp
 - Restripe pavement markings and crosswalk

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

- Leo M. Birmingham Parkway at Western Avenue, Arsenal Street, and Soldiers Field Road intersection
 - Leo M. Birmingham Parkway (General Improvements)
 - Provide two-way cycle track at street level traveling on the east side of Leo M. Birmingham Parkway Parkway
 - Add Eight-foot floating bus stop on the Eastside of Leo M. Birmingham Parkway at the corner of Centola Street
 - Restripe pavement markings and pedestrian crosswalk
 - Reconstruct pedestrian ramps to meet current ADA and AAB standards
 - Improve access and connectivity for pedestrians, bicyclists, vehicles, and public transit
 - Provide physical buffers to protect bicyclists queuing at Lincoln Street and Market Street
 - Add a sidewalk on the east side of Leo M. Birmingham Parkway to improve pedestrian connection to local stores and neighborhoods
 - Provide a pedestrian crosswalk to connect Soldiers Field Road development to development east of Leo M. Birmingham Parkway
 - Leo M. Birmingham Parkway Corridor
 - Two concepts with varying number of northbound travel lanes
- Long Term Improvements– from **Conceptual Design Report – Western Avenue Transportation Improvements (2018) (see figures below)**
 - Proposed two (2) concepts to improve traffic operations, corridor safety, and pedestrian & bicyclist accessibility
 - Leo M. Birmingham Parkway at Western Avenue and Arsenal Street Intersection (General Improvements)
 - Add a pedestrian and bike crossing connecting the Paul Dudley White Bike Path across Arsenal Street
 - Close the southbound on-ramp to Soldiers Field Road
 - Add a pedestrian and bike crossing across Western Avenue northbound and southbound
 - Install protected intersection corner islands and raised bike lanes at the southeast and southwest corners of the intersection
 - Add shared vehicle and bike lanes markings across the Arsenal Street bridge
 - Restripe pavement markings and crosswalk
 - Optimize traffic signal timing, phasing, and coordination to include updated pedestrian crossing times and vehicle clearance intervals
 - Reconstruct pedestrian ramps to meet current ADA and AAB standards

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

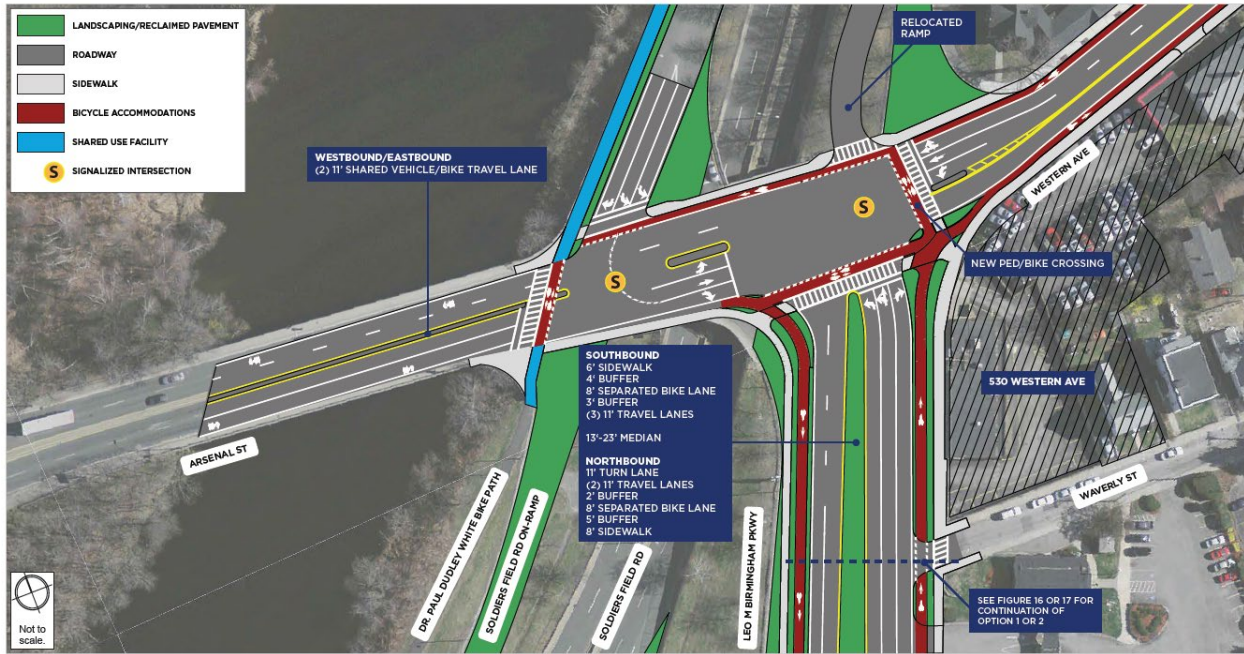

- Leo M. Birmingham Parkway at Western Avenue and Arsenal Street Intersection (Long-Term Concept 1)
 - Reconfigure the lane use for the Soldiers Field Road southbound of ramp; left, left, and right-turn lanes
 - Remove eastern segment of the split in the Soldiers Field Road southbound off-ramp at the intersection
 - Reconfigure the lane use for the internal eastbound approach adjacent to Leo M. Birmingham Parkway to; left, thru, and right-turn lanes
 - Provide two-way bike crossing across Leo M. Birmingham Parkway, Parkway, Western Avenue and Arsenal Street
- Leo M. Birmingham Parkway at Western Avenue and Arsenal Street Intersection (Long -Term Concept 2)
 - Tighten and simplify the intersection to reduce the approach and departure access points to reduce conflict areas and simplify signal phasing
 - Remove the median along Leo M. Birmingham Parkway and realign Soldiers Field Road southbound on-ramp to connect to the Leo M. Birmingham Parkway southbound lanes
 - Provide one-way bike accommodations and crossings in the counter-clockwise direction around the intersection
 - Reconfigure the lane use on the Arsenal Street eastbound approach; thru-right and thru-left
 - Reconfigure the lane use for the Soldiers Field Road Southbound off-ramp; thru, thru, and right-turn lanes
 - Provide a split in the Paul Dudley White Bike Path southbound and connect to the intersection
- Leo M. Birmingham Parkway (General Improvements)
 - Consolidate the Soldiers Field Road northbound off-ramp to a single approach
 - Add one-way separated bike lanes along both sides of Leo M. Birmingham Parkway
 - Reconstruct pedestrian ramps to meet current ADA and AAB standards
 - Restripe pavement markings and crosswalks
- Leo M. Birmingham Parkway (Long – Term Concept 1)
 - Align the Soldiers Field Road off-ramp perpendicular to Leo M. Birmingham Parkway to reduce vehicular clearance times and improve intersection sight distance
 - Add a pedestrian crossing with a median cut through connecting sidewalks adjacent to the consolidated ramp
 - Retain parking in the northbound direction

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

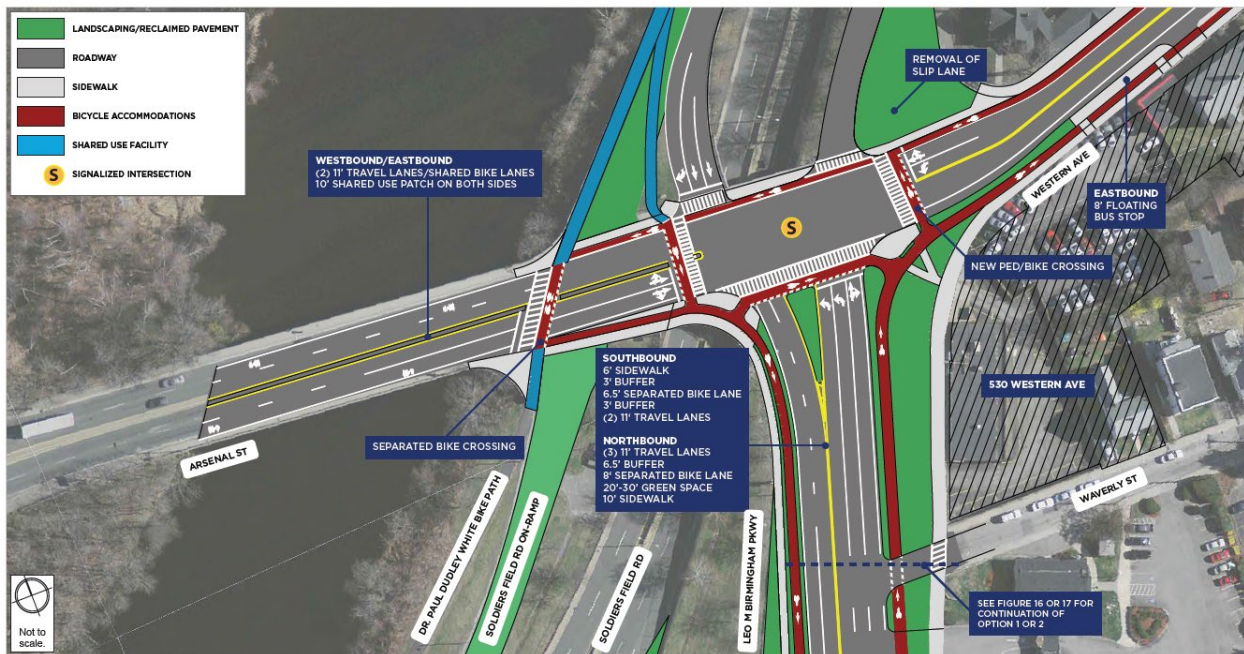

- Retain the existing trees within the median that separates directions of travel
- Leo M. Birmingham Parkway (Long – Term Concept 2)
 - Remove the median throughout Leo M. Birmingham Parkway to realign the roadway and reclaim the space for buffer space and pedestrian and bike facilities
 - Realign the consolidated ramp to connect into Lothrop Street
 - Provide pedestrian crossings at the Lothrop Street intersection
- Leo M. Birmingham Parkway and Market Street Intersection (General Improvements)
 - Add painted bike lanes in the northbound and southbound direction across the Market Street bridge
 - Add a bike box on the Market Street northbound approach
 - Provide a painted bike crossing in the southbound direction
- Leo M. Birmingham Parkway and Market Street Intersection (Long Term Concept 1)
 - Provide an accessible bus stop and queue jump bus lane at the northwest corner of the intersection
 - Add a bike box on Leo M. Birmingham Parkway at the Market Street and Leo M. Birmingham Parkway intersection in the southbound direction
 - Reconfigure the lane use at Leo M. Birmingham Parkway: thru, thru-right, and queue jump bus lanes
- Leo M. Birmingham Parkway and Market Street Intersection (Long Term Concept 2)
 - Reconfigure the lane use at Leo M. Birmingham Parkway: Two thru lanes, and one right turn lane
 - Provide pedestrian crosswalks around the intersection
 - Realign the western intersection approach to be perpendicular to the intersection to shorten crossings and condense the intersection
 - Provide bicycle crossings on the eastern and western sides of the intersection
 - Extend the separated bike lane to an on-road bike lane traveling down Leo M. Birmingham Parkway by reducing the existing two thru lanes to a single thru lane

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

Long Term Concept One

Long Term Concept Two

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

3. Harvard University's Campus in Allston – Institutional Master Plan (2013)

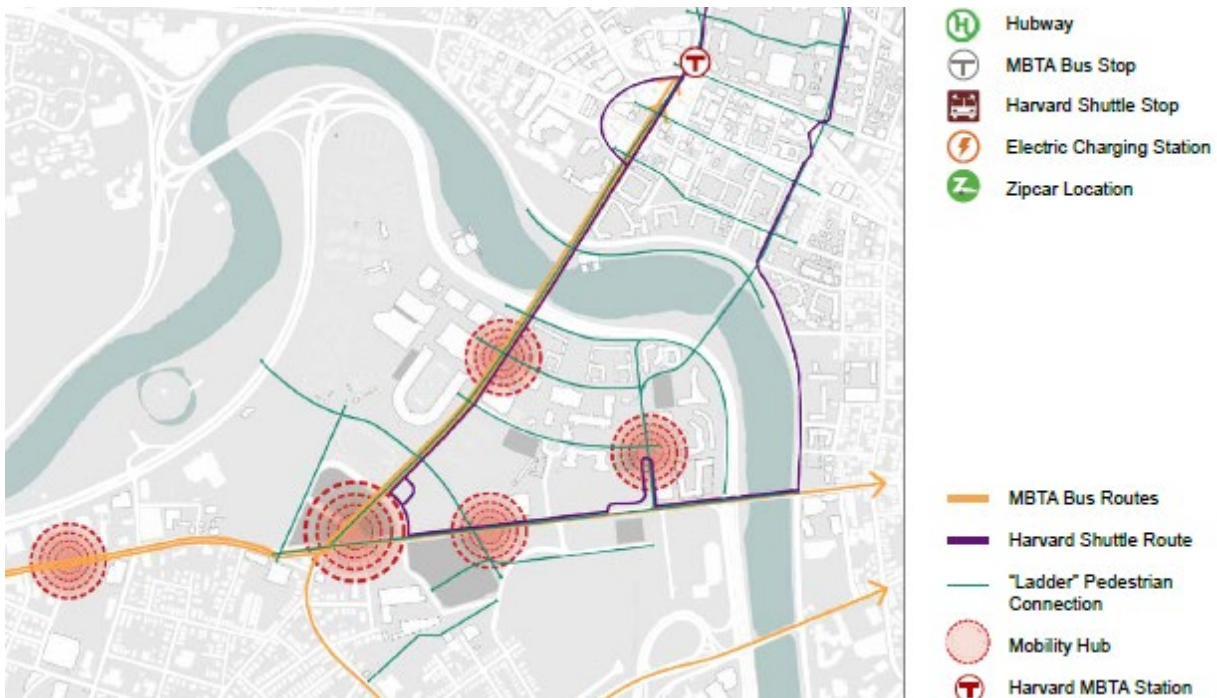

<http://www.bostonplans.org/projects/development-projects/harvard-imp-2013-4>

Harvard's Long-Term Vision

- Intended to guide campus and community development in Allston
- Provides the overarching framework for Harvard's Ten-Year Institutional Master Plan
- Focuses on transforming an industrial and commercial area that has been vehicular-oriented
- Proposes a long-term development program that emphasizes new connections in the form of new streets, new open spaces, new pathways, and a revitalized public realm

Allston-Brighton Related Improvements/Projects

- Long-Term Street Typologies
 - Increase permeability
 - Provide better connections to activities
 - Improve transit access
- Long-Term Pedestrian Circulation
 - Extend walkable patterns by creating a pedestrian-scale block pattern
 - Strengthen connections to adjacent neighborhoods
- Long-Term Bicycle Network
 - Create new north-south and east-west connections
- Mobility Hubs
 - The Ten-Year Plan identifies five Mobility Hub locations in Allston

4. Harvard Enterprise Research Campus (2017)

<http://www.bostonplans.org/getattachment/3fd29552-2a18-4ca7-893d-eb51aad4660e>

Planning Objectives and Character of Development

- Create a cohesive and sustainable public realm
- Streets should be sensitive to their context, recognized as an essential component of public spaces, supportive of multiple functions, and encouraging of nonmotorized uses
- Promote a street and sidewalk configuration that will ensure high performance and longevity for the investment in new

Allston-Brighton Related Improvements/Projects

- Construction of two new roadways, Cattle Drive and East Drive, which will provide access from Western Avenue to the surface parking lots and the DEF, respectively
- On a temporary basis, an extension of Cattle Drive via Dedham Parrish Road to provide an additional vehicular access/egress point to Cambridge Street and to direct through-traffic away from Windom Street
- Discontinuance of Hague Street and, potentially, a section of Rotterdam Street to the east of Stadium Road
- A new bicycle path connecting the ERC with the planned Rena Path extension and providing a new bicycle facility from Western Avenue to Cambridge Street
- Improvements to Western Avenue including new and enhanced pedestrian and bicycle facilities on the southern side of the street, adjacent to the ERC PDA site
- Approximately 800-900 parking spaces in a mix of below ground garages and surface parking lots
- Nearly 600 new bicycle parking spaces
- A new traffic signal is warranted at the intersection of Cattle Drive and Western Avenue
- Harvard will provide tenants and residents of the ERC PDA developments with access to its shuttle services in Allston
- A Transportation Demand Management (“TDM”) program will also be implemented as part of the Proposed Project

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

5. Brighton – Guest Street Area Planning Study (2012)

<http://www.bostonplans.org/planning/planning-initiatives/brighton-guest-street-planning-study>

Purpose of the Study

- The goal of this Planning Study is to proactively work with the community to determine the future character and function of Guest Street

Urban Design Guidelines

- Creating mixed use development with office, live/work, residential, community, retail and active/recreational uses along primary streets
- Developing a range of street types to create a diverse neighborhood
- Creating a “flexible” open space zone at core with parks, plazas, and indoor/outdoor recreational amenities
- Allowing a height and density range from FAR 3.0-4.0 and 150 ft or 10-13 stories at the Turnpike to FAR 0.75-1.5 and 40 ft or 3 stories along North Beacon Street

Key Transportation Findings

- Significant traffic congestion at Union Square and in Market Street corridor
- Transit service in the neighborhood has been reduced
- MBTA is investigating restoring rail transit service
- Public street network is disconnected at center of the study area
- Access to river and river roads to the north is constrained

Allston-Brighton Related Improvements/Projects

- (1) Connect the Study Area’s streets to the local grid
- (2) Connect and upgrade Arthur St
- (3) Signalize the foot of the Everett St bridge
- (4) Create a one-way pair out of Denby St and Franklin St
- (5) Invest in Everett St
- (6) Improve traffic operations in the Market St corridor
- (7) Open an arterial connection from Guest St to Braintree St
- (8) Improve transit services
- (9) Connect Braintree St under Everett St

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

6. Green Line Service Improvements, MBTA

<https://www.mbta.com/projects/green-line-b-branch-consolidation>

Purpose

- Technology improvements to increase speed and reliability

Project Description

- Status: Design
- The consolidation of 4 B-Line stops along Commonwealth Avenue will begin in 2019
 - The project is being done in coordination with MassDOT's Commonwealth Avenue Phase 2A project and the Commonwealth Avenue Bridge project
- Project Features
 - The consolidation of St Paul and BU West stations
 - The consolidation of Babcock and Pleasant Street stations
 - Updated fare collection machines
 - Longer, 225-foot platforms for 3-car train sets
 - Accessible level boarding at both stations
 - Security and reliability upgrades to trains and stations
- Benefits
 - Faster, more reliable transportation along Commonwealth Avenue
 - 2 new accessible stations on the Green Line
 - Improved traffic and pedestrian safety in the Boston University neighborhood

Image source: [Federal Transit Administration](#)

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

7. Go Boston 2030, Vision and Action Plan, BTD (2017)

<https://www.boston.gov/departments/transportation/go-boston-2030>

Vision

- Go Boston 2030 envisions a city in a region where all residents have better and more equitable travel choices, where efficient transportation networks foster economic opportunity, and where the City has taken steps to prepare for climate change

Goals

- Make Boston's neighborhoods interconnected for all modes of travel
- Substantially reduce collisions on every street through education, enforcement, and designs that reallocate street space to prioritize moving people safely rather than faster
- Prioritize making travel predictable on Boston's transit and roadway networks
- Develop public spaces on streets and at transit stations that are welcoming, clean, and fun
- Lead the nation in supporting new mobility technology and innovations in shared transportation that reach all Bostonians
- Restructure transportation costs to address income disparities
- Prepare for sea level rise along Boston's coastline and reduce greenhouse gas emissions
- Include neighborhood residents as key decision makers in transportation design and funding
- Promote active and healthy lifestyles by connecting and providing access to green corridors

Allston-Brighton Related Improvements/Projects

- Local – Walk and Bike Friendly Main Streets
 - Improvements to neighborhood commercial districts for people traveling on foot and by bike

- Local – Neighborhood Mobility microHUBs
 - Multiple prominent neighborhood access points to shared transit resources

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

- Mobility microHUBs are designed to provide and identify a range of connected travel choices

- Local – Better Bike Corridors Multiple

- Rebuild streets with protected and low-stress bicycling facilities

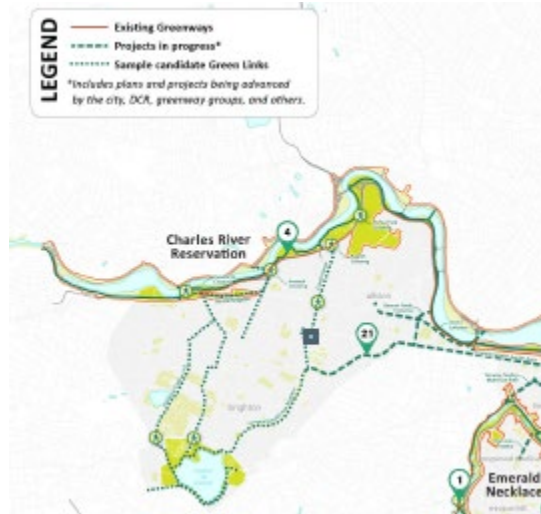

- Crosstown – Projects and Policies

- The Go Boston 2030 crosstown policies and projects relieve the transportation systems of the need to go downtown for transit transfers and safe bike facilities
- Early Action Projects – 0-5 Years
 - Commonwealth Avenue beyond Packards Corner
- Longer Term Projects – 5-15 Years
 - Oak Square to Comm Ave Improved Bus Corridor - Create a rapid bus system to serve a large underserved neighborhood

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

- Crosstown – Green Links Network
 - Enhanced pedestrian and bicycle paths between greenways including Yawkey Station to Fenway, Roxbury to Fenway, and Arboretum to Roslindale
 - Within AB:
 - Charles River
 - Comm Ave Phases 2 and 3

- Regional – Projects and Policies
 - I-90 Newton Urban Rail - Subway-like service paralleling the Mass Pike from Newton to South Station
 - West Station Transit Hub - A new rail and bus station serving Brighton and the new Beacon Yards
 - West Station Rapid Bus to LMA, Kendall, and Harvard - Create a new set of rapid bus connections

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

8. North Allston Strategic Framework for Planning, BRA (2005)

Source: <http://www.bostonplans.org/getattachment/68190170-b518-4b55-9636-6888a447eef1>

Core Challenges

- Address existing traffic congestion along major streets while preventing further congestion of local streets as a result of either institutional or non-institutional development
- Explore strategies to accommodate demand for on-street parking on the neighborhood's major thoroughfares
- Seek an integrated approach to transportation improvements that includes new transit options; minimize auto trips generated by Harvard or any other new development; investigate new configurations of the Turnpike access ramps to avoid drawing traffic through the neighborhood; and expanding pedestrian/bicycle networks
- Address the community's longstanding concerns about heavy truck traffic through the neighborhood
- Resolve concerns about pedestrian safety, particularly at the Western Avenue/Birmingham Parkway intersection and at Barry's Corner

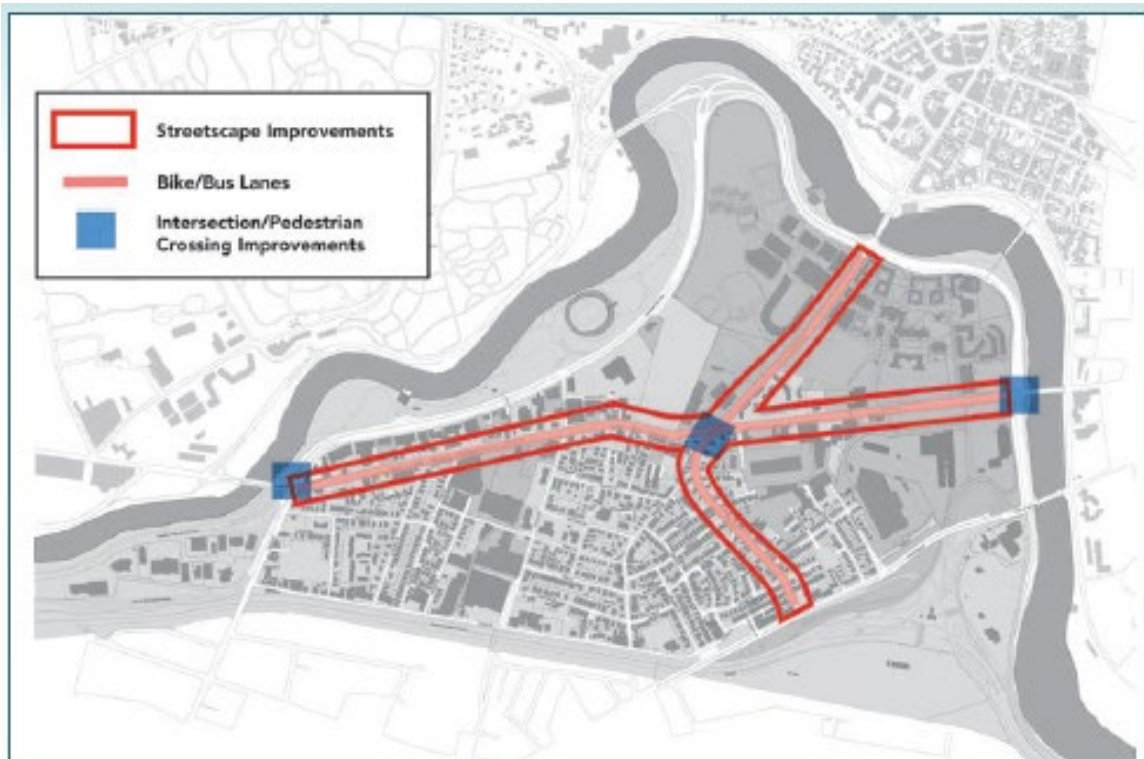

Opportunities

- Emphasize pedestrian, bicycle, and transit access to Harvard's future new facilities in North Allston and avoid reliance on automobile access

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

- Create neighborhood safety plan to minimize truck through-traffic within the residential neighborhoods while encouraging a safe, pedestrian-oriented environment through such interventions as neck-downs
- Make Western Avenue and North Harvard Street more pedestrian-friendly
- Improve public transportation access and service in the short term, with particular attention to the #66 bus route, one of the 15 busiest in the MBTA system
- Locate and design commuter rail stations to facilitate “Fast-Track” rail connections to downtown Boston and Back Bay
- Investigate new link to Phase II of the Urban Ring project, and a dedicated Bus Rapid Transit route between Kendall Square in Cambridge and the Longwood Medical Area in Boston as well as to downtown Boston and Back Bay
- Study a possible intermodal transportation center at Allston Landing South, including analysis of freight and commuter rail access (study to be conducted by Executive Office of Transportation and Construction/EOTC and Harvard)
- Improve access to the Charles River for both pedestrians and cyclists
- Locate new development to minimize neighborhood impacts
- Improve on-street facilities for bicycle riders
- Expand university shuttle services
- Assign safety priorities to Western Avenue/Birmingham Parkway intersection and to Barry’s Corner
- Improve access to industrial facilities and lessen impact on residential neighborhoods

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

9. Allston Early Action Transit Study, MassDOT, 2018

<https://www.mass.gov/doc/november-14-presentation-by-massdot-planning/download>

Source: Report - Not available online

Purpose

- Review existing public transit challenges in Allston and develop recommendations for near-term improvements

Issues and Challenges

- Overcrowding
- Buses get stuck in traffic congestion
- Unreliable service

Recommendations

- Coordinate with ongoing MBTA Bus Service initiatives including the Better Bus Project and the Bus Network Redesign
- Collaborating with the City of Boston to pilot bus lane on Brighton Avenue in Spring 2019 to improve speed and reliability on 57 and 66
- Implementing queue jump and transit signal priority on Soldiers Field Road in Spring 2019 to improve speed and reliability on 70 (will also help 64)
- Service Improvements
 - Improving midday headways on 66 (16 min to 14/15 min frequencies) in Winter 2019
 - Increased AM peak service on 47 this fall 2018
 - Exploring additional service improvements through the Better Bus Project to help increase bus speed and reliability
- Real-time bus arrival information signs will be deployed at high ridership bus stops in Allston
- Additional Recommendations for Consideration
 - Upgrade 86 to Key Bus Route, primarily adding service in the off-peak
 - Upgrade 70/70A trunk section of combined routes to key route standards, primarily by adding service in the off-peak and improving AM peak inbound coordination
 - Explore alternative bus routes to better serve Boston Landing/ Everett Street area
 - New fare collection system to help speed up buses with all-door boarding

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

10. MassDOT Allston I-90 Interchange Improvement Project (2018)

<https://www.mass.gov/allston-i-90-intermodal-interchange-improvement-project>

Project Description:

Replace the Allston Viaduct and reduce the footprint of the existing Allston Interchange toll plaza. The project creates an opportunity to dramatically improve livability and connectivity for residents of the Allston neighborhood while preserving and enhancing regional mobility through improvements to I-90 and its abutting interchange and the creation of a new stop on the Worcester/Framingham Commuter Line to be known as West Station.

Currently Under Review:

The project is currently compiling the Final Environmental Impact Report (FEIR)

Opportunities:

- Eliminate defunct I-90 superstructure through Allston
- Cambridge Street and Cambridge Street South opportunities:
 - Elimination of a westbound travel lane on each street
 - Shorter north-south pedestrian/bicycle crossings
- Allow opportunity for West Station Commuter Rail construction
- Reduction of regional traffic through the ERC 2
- Opportunity to define future streets to meet local circulation needs and scale
- Improved service access to parcels away from public realm
- Opportunity to simplify/ “flatten” grade of Cambridge Street South
- Opportunity to build over sections of Stadium Way to strengthen Cambridge street edge

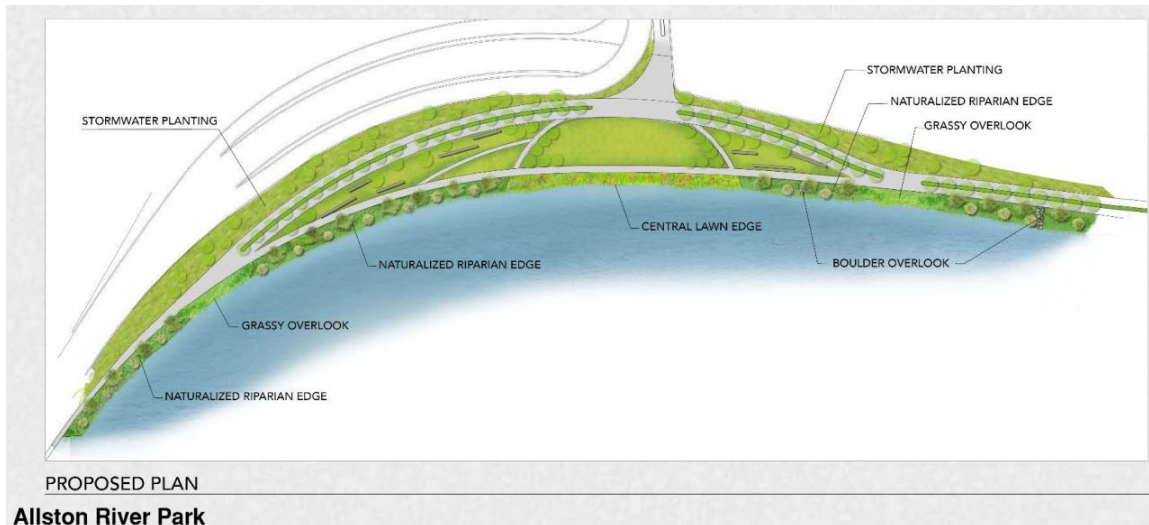

Pedestrian and Bicycle Connection Locations

Opening New Connections for Cyclists and Pedestrians

Commuter Rail Concepts:

There are three possible Commuter Rail service models under review:

- Replicate Boston Landing service
 - All trains that stop at Boston Landing would also stop at West Station
- Provide skip stop service
 - Trains would stop at either Boston Landing or West
- Station, but not both
 - Constitutes a reduction in service to Boston Landing
- Maintain existing Boston Landing stops and provide service to West Station as necessary to meet the service delivery policy (three AM peak, four PM peak, off- peak headways of at least 180 minutes)

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

11. Brighton Shuttle Bus Feasibility Study – St Gabriel’s Redevelopment – 159-201 Washington Street (2019)

Purpose

- As part of the development of the St. Gabriel’s site, the developer is required to complete a shuttle bus feasibility study

Project Description

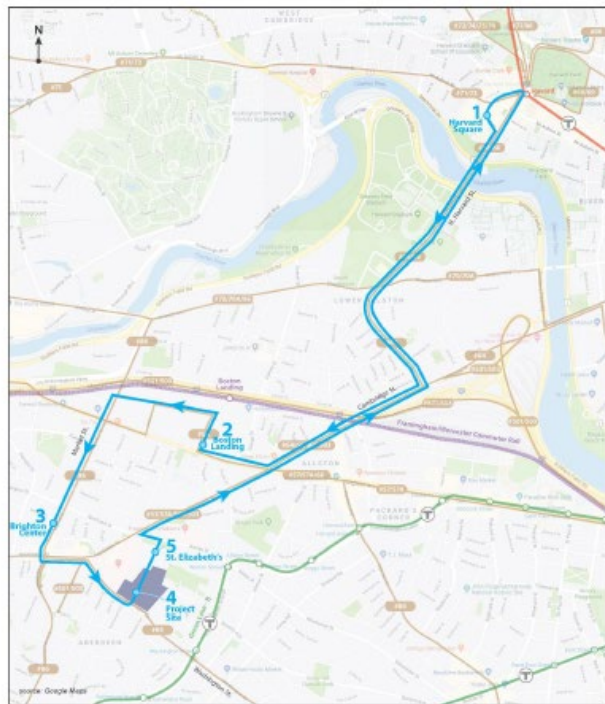

- A comprehensive outreach program was conducted and a detailed inventory of available transportation resources in the study area was created
- Six alternatives for potential shuttle routes were developed and analyzed
- Three alternatives were selected for detailed analysis
- The study provides guidance on implementation for the preferred route and next steps including how to identify partnership opportunities once the shuttle service is established and operational

Preferred Route and Schedule

- Alternative 2 route is recommended as the preferred route
- Alternative 2A without midday service is the suggested schedule

Morning Peak Period Route

Afternoon Peak Period Route

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

12. Commonwealth Ave Reconstruction Phases 3 & 4, PWD

Source: 25% Submittal – <https://www.boston.gov/departments/public-works/commonwealth-avenue-phase-3-and-4>

Project Overview:

Includes complete reconstruction of Commonwealth Avenue from Packard's Corner to Commonwealth Court (west of Warren Street).

Key Project Highlights:

- Improved transit stations
- Improved pedestrian and bicycle amenities
- New signal equipment
- Improved stormwater management
- Station consolidation is desirable between Harvard Ave and Warren Street to allow for accessible stations to be constructed

13. MBTA Better Bus Project

<https://mbta.com/projects/better-bus-project>

Project Overview:

Umbrella for MBTA efforts to improve overall bus service. Includes all types of bus projects, including service changes, infrastructure improvements and extensive analysis. Overall goal is to measure and close the gap between current bus service delivery and the MBTA service delivery standards (January 2017). The standards cover comfort, reliability, frequency, span and coverage.

Phases and Impact:

- Continuous improvement and multi-year investments (2018-2019) – focuses on internal-MBTA processes and municipal partnerships. Within the study area, this includes the North Beacon St bus lane
- Research and Analysis (2018) – developed profiles of all routes, market analysis and state of bus system report, all posted online
- Near-term changes (2019) – proposed 47 changes to routes (consolidation of routes, improving space available at stops, eliminating route variants and extraneous turns) – 36 changes adopted in April 2019, changes in effect September 2019
- Bus Network Redesign (2019-2020) – examination of how the entire network can be redeveloped, instead of on route-by-route basis

Near-term changes:

- Effects on Allston-Brighton:
 - Proposal adopted for Route 64 to shift from Hobart St to Brooks St in Brighton
 - Additional proposals affect 64, 70, 70A, 501 and 503 outside of Boston city limits
 - Proposal not implemented for Route 65
- Principles:
 - Keep proposals cost neutral
 - Combine similar services
 - Minimize route variations
 - Shorten unproductive sections
 - Straighten routes

Allston-Brighton Mobility Study – Summary of Existing & Ongoing Plans

14. West Station Transit Study, MAPC (2019)

https://www.mass.gov/files/documents/2018/12/19/I-90_AllstonTaskForce_MAPC_111418PC.pdf

Goals and Objectives

- Identify transit services and connections to and through Beacon Park Yards (BPY) that will have the greatest potential demand/use
 - Will evaluate bicycle & pedestrian connections too
- Understand how future growth in BPY will influence transit demand
- Inform the design, service planning, and timing of the new West Station
- Pilot new tools and analytic methods for integrated land use and transportation planning

Timeline

- Summer 2019: Engage stakeholders and refine methodology
- Spring 2019: Hire consultants and develop land use assumptions
- Summer/Fall 2019: Engage with public on scenario development
- Winter 2019/2020: Test scenarios
- Spring 2020: Analyze results and report back to public
- Summer 2020: Present findings and recommendations

Key Study Questions

- Which types of new transit connections and frequency of service are likely to attract the most riders?
- Who is serviced by the new station? Travel from where to where?
- How might pedestrian and bicycle infrastructure, as well as on-demand mobility services, impact travel behavior?
- What is the optimal sequencing of development and transit improvements?
- What transit and land use policies and regulations might be most effective?
- What are the best measures for determining if a scenario is effective?

Note:

15. North Allston-Brighton Community-Wide Planning Initiative, 2008-2009

<http://www.bostonredevelopmentauthority.org/getattachment/fa3a4172-4299-42fc-8f17-8cbef03d3be3>

Project Overview

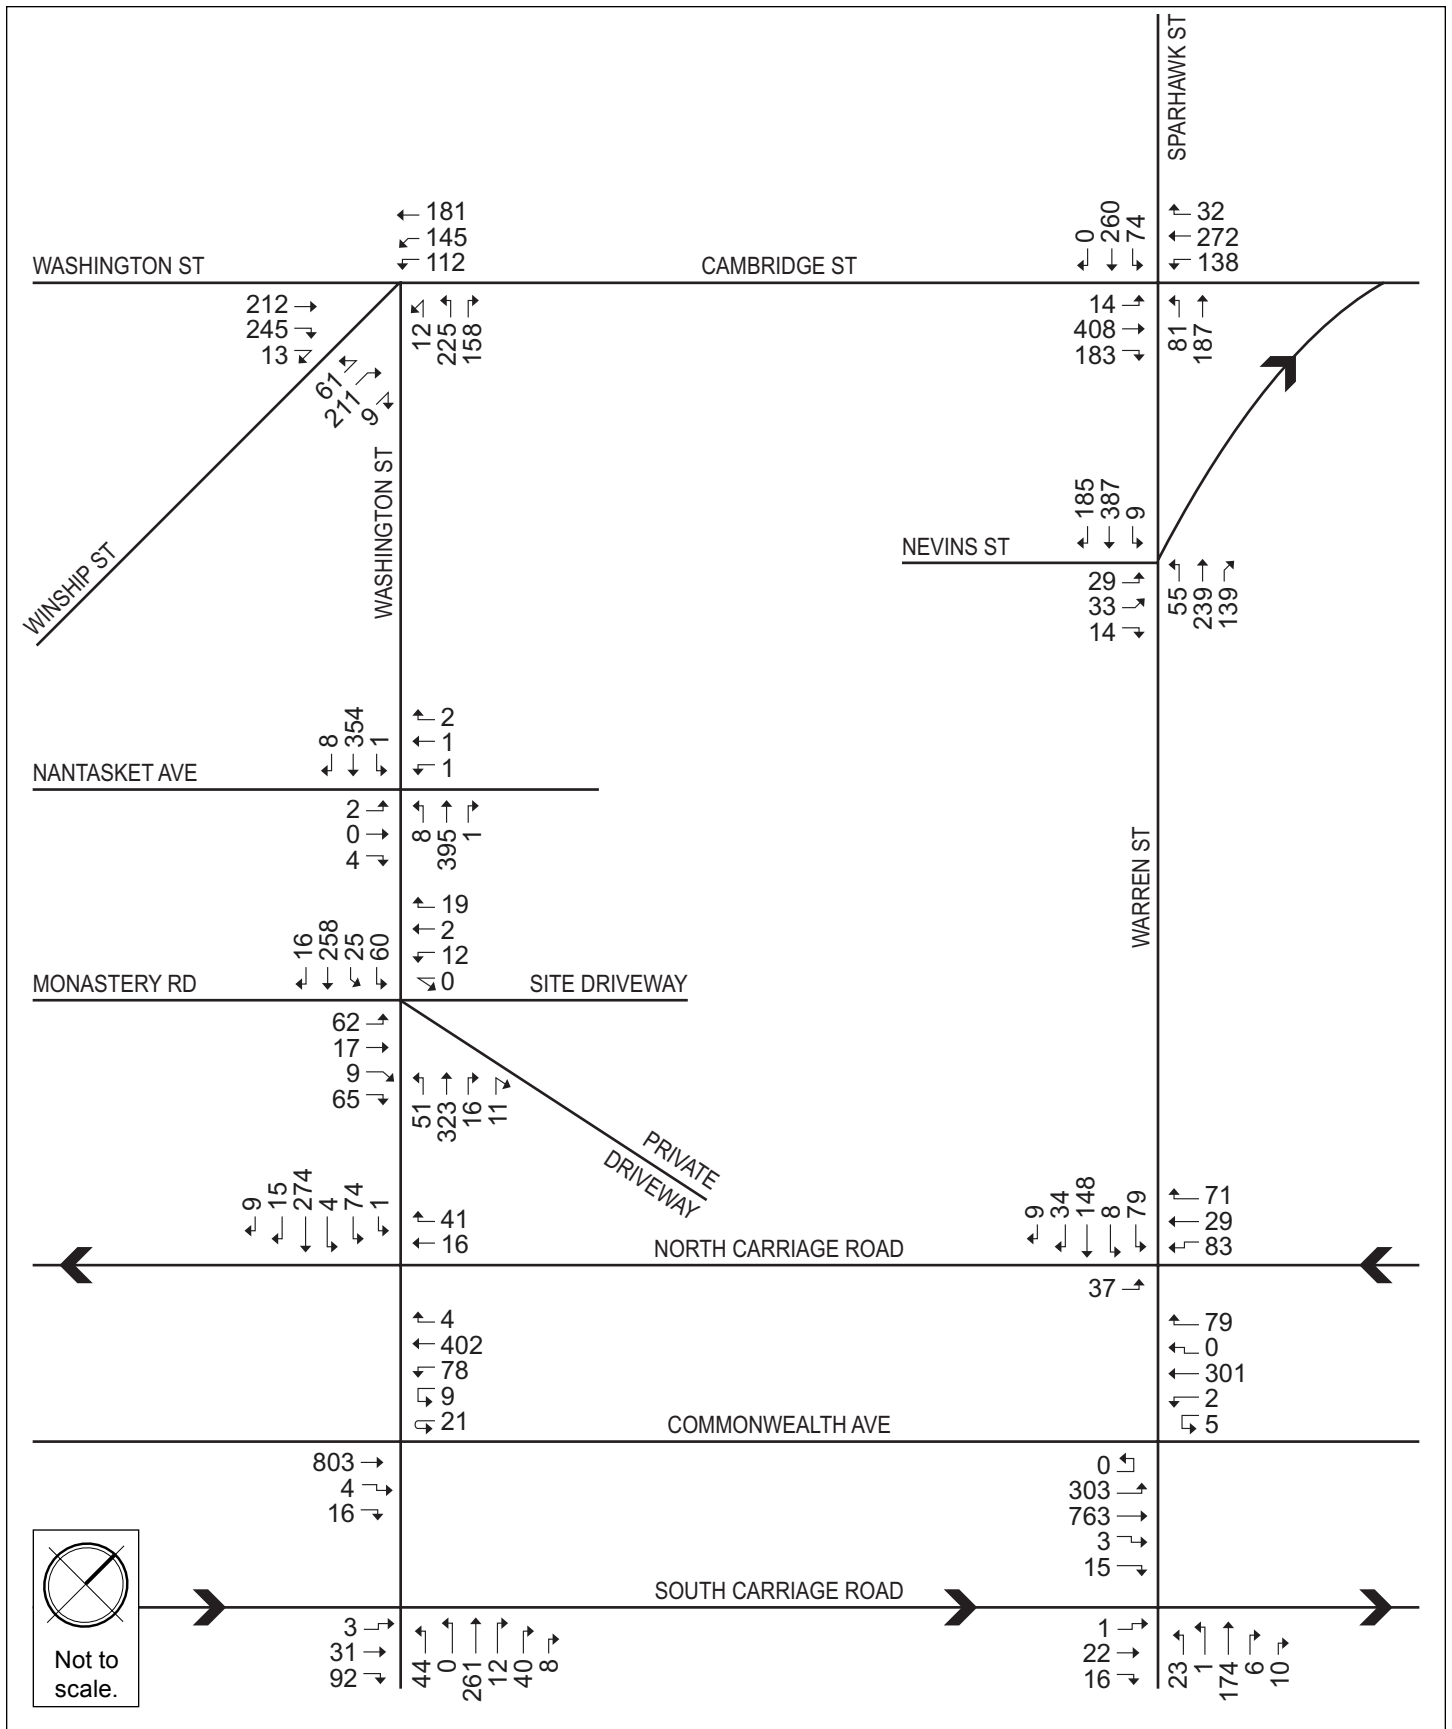

The main purpose of the Community-Wide Plan (CWP) was to identify a series of specific planning and implementation measures. The CWP will not create a new “Master Plan” for North Allston-Brighton, but rather create an updated plan to ensure that there is a clear mechanism for implementing the goals which emanated from the community process and strategic framework.

Purpose

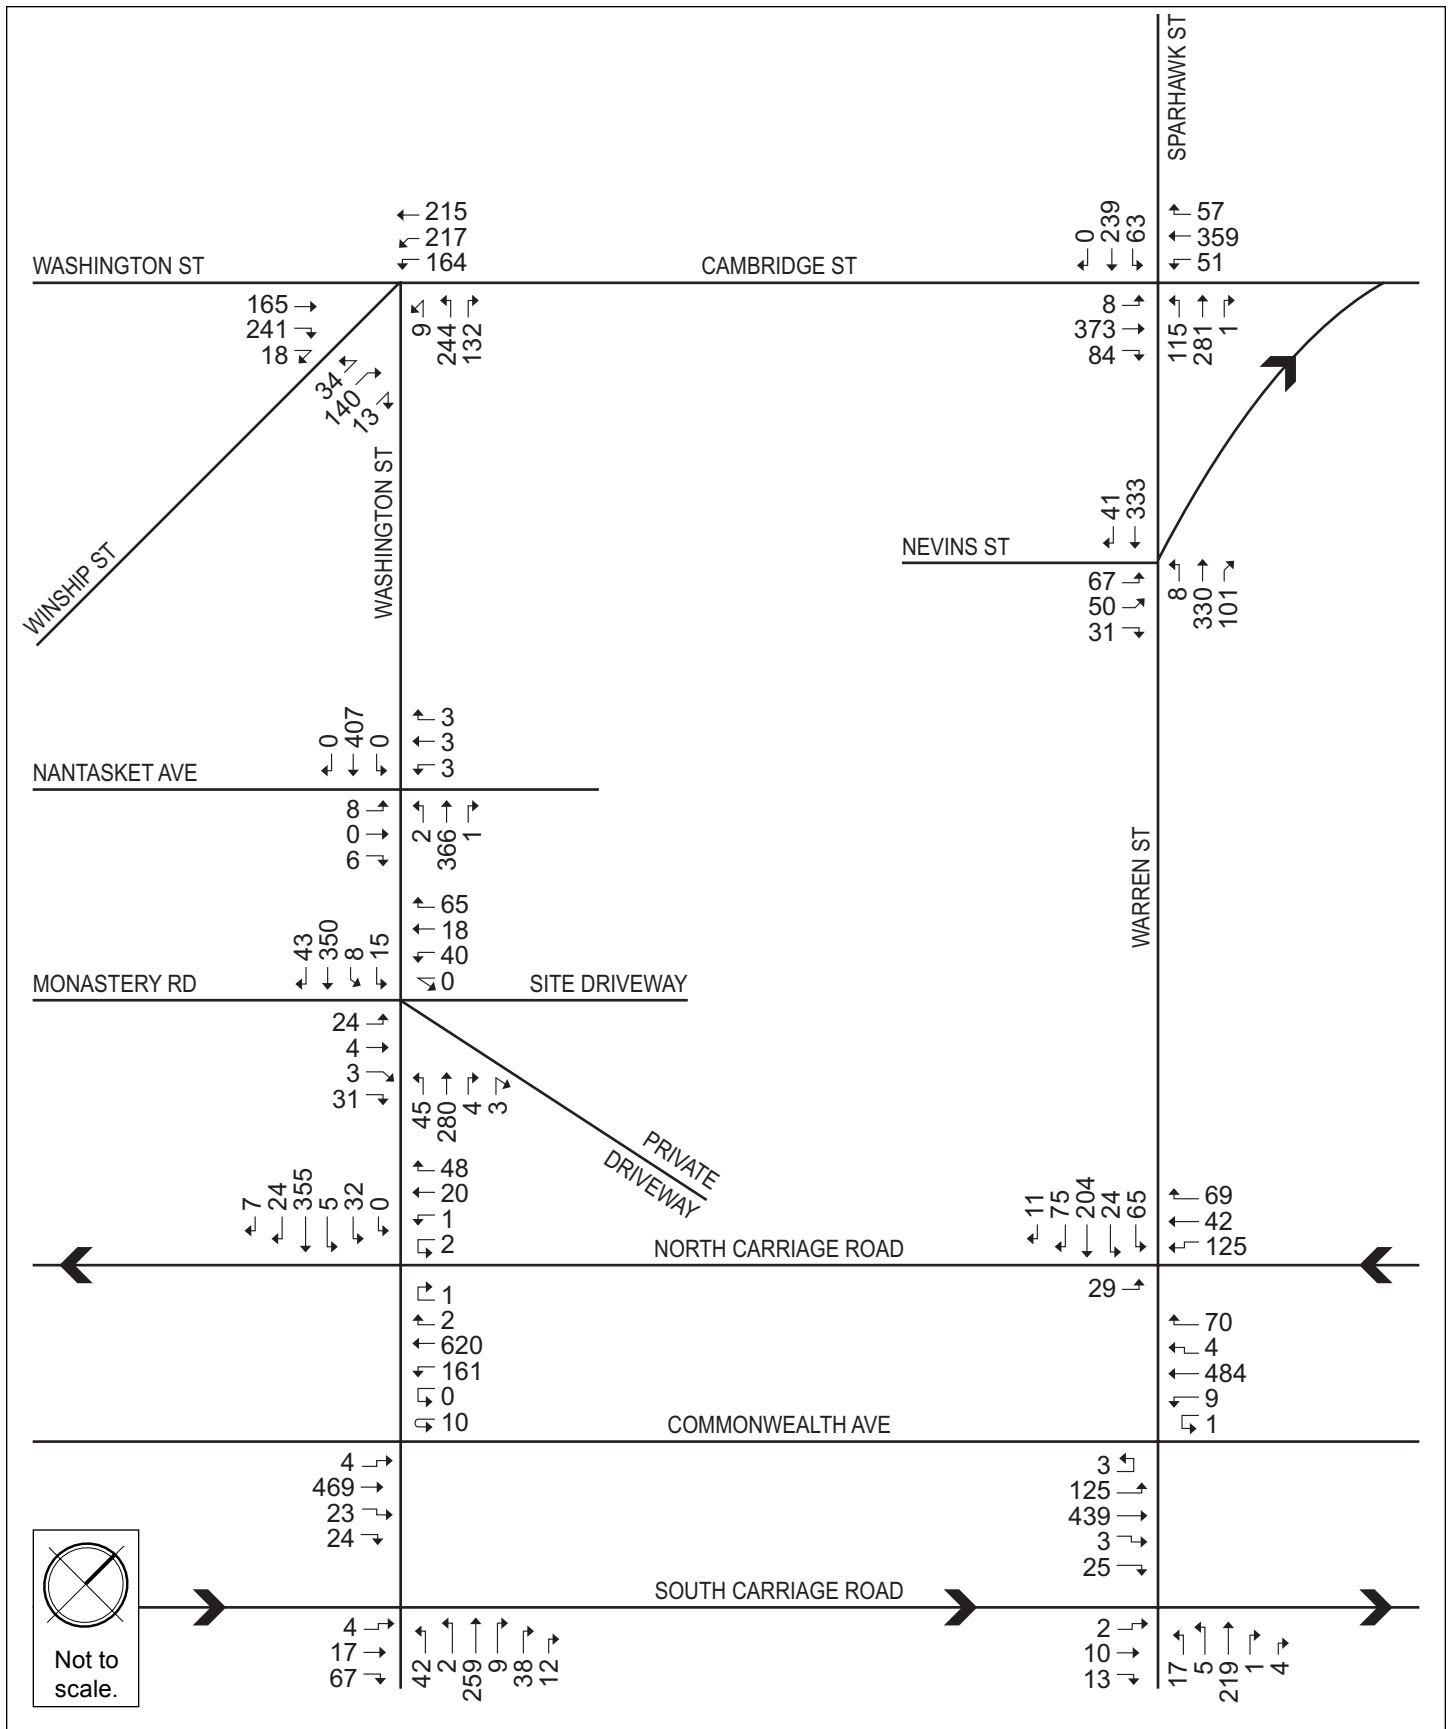

The purpose of the CWP is to:

- Create a clear strategy for implementing recommendations and a vision for North Allston-Brighton by building upon, re-evaluating and updating the NASFP goals and vision
- Gather and analyze data on residential and commercial real estate, retail market demand, business trends and other factors which will inform development decisions
- Provide an internal (City of Boston agencies) planning mechanism for responding to and coordinating development scenarios in light of the on-going Harvard Institutional Master Planning process as well as potential development by private property owners
