### What's happening?

Join us for the release of the Draft South Boston Seaport Strategic Transit Plan at a Virtual Public Meeting, **Thursday, March 3, at 6 pm**. We began this discussion in spring 2019 with the goal of improving the operations, capacity, and connectivity of the transit network serving the South Boston Seaport. Over this time we have released short, mid, and long-term strategies on the project website at [bit.ly/SeaportTransit](https://bit.ly/SeaportTransit).

At the Virtual Public Meeting you can review the recommendations of the draft Plan, which are centered around the strategies, as well as ask questions and provide feedback. Whether you are an employer, resident, transit rider, pedestrian or bicyclist – or several of these at once – you can help frame a new future for travel in the South Boston Seaport by participating in this Plan.

### What's the goal?

At public meetings held at the beginning of the process you asked us to focus around the goals of **Expand, Rely, Respect** and **Equalize** when identifying potential solutions for improving transit in the South Boston Seaport. Objectives were developed which reflected each of the four goals, such as connecting to underserved areas, reducing transfers, and making transit more competitive with driving. Strategies were then evaluated against these goals and objectives.

**Need a refresher?** Visit the website to watch five videos that summarize the Project Context, Past Public Meetings, Ongoing Work in the South Boston Seaport, and the Short, Mid and Long-Term Evaluations.
