24 Hour Emergency Service

October 23, 2013

Mr. John Fitzgerald  
Boston Redevelopment Authority  
One City Hall Square  
Boston, MA 02201-1007

Dear Mr. Fitzgerald,

I recently had the opportunity to be in the company of some senior executives of the Boston Garden leadership team. We were speaking of all the great improvements to the area surrounding Boston Garden and what the future would bring. We did speak specifically about the proposal that has been submitted to the BRA to develop the parcel of land located at 80 Causeway St., the one directly adjacent to the Garden.

As a trusted partner and ambulance provider to the Boston Garden for almost 15 years, I would like the record to show my full support of this endeavor. The professional relationship we maintain gives me great confidence in any project they would bring before the BRA. Like all Boston Garden Development Projects I would expect nothing but the very best in the planning, execution and operation of this developed site.

Clearly, the project at 80 Causeway Street will provide valuable services and resources for all visitors to that area, not just those to the Boston Garden. I hope that Boston Redevelopment Authority will strongly consider and unanimously move to make this vision a reality.

Thank you for taking my opinion into consideration.

Sincerely,

Dennis R. Cataldo  
Vice President
