RE: Support for the Boston Garden Development Project

Dear Mr. Fitzgerald,

As a construction company which regularly works in the City of Boston with both Boston Properties and Delaware North Companies, we are writing to fully support the Boston Garden Development Project at 80 Causeway Street.

In our opinion the proposed project will provide the following benefits:

- The project will create substantial construction job opportunities for not only the residents of the North End but resident of the entire City of Boston as well.
- The project will afford the opportunity for local businesses to sell construction goods and services to the project teams executing the work. This includes items such as miscellaneous tools and supplies, catering services, local restaurants, courier and reprographic services as well as many other elements integral to the construction phase of a project.
- The project will bring an element of community that will transfer the neighborhood into an area of the city that is vibrant 24/7 ... just like game day.

I believe this project will be a positive addition to the City of Boston, please record our company name in favor of this project.

Sincerely,

A handwritten signature in black ink, appearing to read "Pete Hamill".

Pete Hamill  
Vice President and Manager  
Turner Construction Company
