Hi Ann,

Thank you for taking the time to submit your comments on the proposed Roxbury Prep. Charter School project at 361 Belgrade Avenue. Hopefully the weather will be better and you will be able to attend the February 13th meeting, but please do not hesitate to call me at (617) 918 - 4212 if you have any additional questions we may be able to discuss.

Thank you,
Aisling

On Wed, Jan 30, 2019 at 1:56 PM Ann Budreika <ann.budreika@gmail.com> wrote:
Dear Ms. Kerr,

I would like to comment on the proposed Roxbury Prep proposal. I own a home in West Roxbury over by Roxbury Latin School at the top of the Lagrange Street. I have been a resident for any years, 1963. I am very familiar with the Needham Commuter rail and local buses as I am a frequent user of public transportation for work and living.

I really can not envision trying to squeeze a high school and students into that small space already very congested with traffic and the Holy Name School. There does not seem to be enough room for student travel, sports, activities in the tiny old automobile site to safely exist with the already congested space.

I will try to go to the Feb. 13th meeting scheduled as tonight's Jan.30 meeting is too cold as I do not drive and that location chosen is only accessible by the number 38 Wren St. bus and it is too cold for me to venture out that far late at night on foot.

Thank you for your attention.

Ann Budreika

Thank you. I live on Bradwood Street which is very close to this location. Not the best spot to put a school. My already congested street will become a cut-through to get to the school not to mention the parking issues. Why not put it where WR High used to be since they are closing? Please add this comment to my letter. Thank you!

Hi Tammy;

Regarding the Roxbury Prep situation. The folks claim that they want their students to be able to "eat lunch in a cafeteria, not in their classrooms". Which I understand. But what I don't understand is that the City of Boston has so much unused property / buildings which could serve to rectify the Roxbury Prep matter. For instance:

a: W. Roxbury High School. (from my understanding is only half utilized , and slated to close due to "not enough kids available to justify massive space". This location has been used as a high school for over 40 yrs. The location is within walking distance to T stop and commuter rail. Also, would NOT impact residential neighborhood in any way (2 lane road each way) due to location. AND has ample space for school buses and faculty parking. It would be far cheaper for developer to renovate the facility and thus solve the "where can we place these kids where they can obtain an education in a proper environment"...

b: Hyde Park High School is yet another location. All of the above applies to this location as well.

c: Look at all the available city owned property in Readville too.

Worth noting is the fact that every few yrs a kid playing on the commuter rail tracks is struck and killed right where the developer (Upton) wants to build this school. This is an accident (hundreds of kids brought here) waiting to happen. Who will take the blame when a train hits and kills one of them?

AND in the immediate vicinity (3 mile radius) are the Mozart School, The Beethoven School, The Holy Name School, and yet another school atop Washington and Beech st... All within intersections where the traffic lights serve as choke points for snarled traffic in the morning, afternoon, and evenings when after school activities are had. Please keep the aforementioned concerns in mind when contemplating this matter.

Kind Regards

I am among the hundreds of neighbors of 361 Belgrade Avenue, Roslindale, who oppose the construction of a facility at 361 Belgrade Ave. that will accommodate 600+ individuals.

I support the development of this location, but in adherence to City zoning restrictions, including Article 29 of the Boston Zoning Code which pertains to land within the Greenbelt Overlay Protection District, and in conformity with the existing neighborhood's landscape. The revised proposal does not address the neighborhood's concerns, meaningfully or adequately, particularly when considering the neighboring developments already approved by the BPDA.

I agree with the consensus of the immediate impacted neighborhoods that this project is not appropriate for this location.

I appeal to you for the responsible urban planning and development of our neighborhood.

As a life long resident of West Roxbury, I feel i must express my opposition to the proposed development of the former Clay Chevrolet Site at the corner of the West Roxbury Parkway and Belgrade Avenue.

I have many reasons for opposing this particular use of the site for a "Charter School", particularly one of the size and scope being considered.

First of all, why a "charter school"? I think it is time to re-look at our Boston Public Schools to determine why they are failing! I personally attended Boston Public Schools which were once considered some of the best in the country - i think that something is horribly wrong when everyone in the city will not even consider sending their child to a public school. So perhaps that is where we should be putting forth our efforts.

Secondly, why would anyone want to build in an already over populated area which is being over developed by the day! The entire character of our part of the city has undergone a radical change - not for the better, thanks to Mayor Walsh who sides only with developers, never with the residents who elected him. Time for that to change.

With the amount of opposition expressed toward this project already, it is evident that this school should not be built on this site, and perhaps if it is even necessary at all, which is questionable, it could move into the former West Roxbury High School or one of the other Boston Schools that are so readily abandoned -

Much more consideration needs to be given to the congestion, neighborhood changes and the identity of the community instead of the requests of a few who have no vested interest in our local community or economy.

The same goes for all the other over building of the multi dwelling complexes that seem to so easily get permitted despite neighborhood opposition. Zoning and public outcry seem to take a backseat to contractors bottom line in Mr. Walsh's view - poor politics if you ask me.

I am strongly opposed to the proposal to build another charter school at the corner of Belgrade Ave and the West Roxbury Parkway.

Good Afternoon Aisling,

I am sending this email on behalf of my husband and myself.

We would like to go on record as being AGAINST the Roxbury Prep School being built on the small site of Clay Chevrolet, 361 Belgrade Ave in Roslindale.

I have read with interest, those who say this project will not impact an already congested intersection. I would like to reiterate what I have written earlier to the BRA and to our State officials. The traffic each workday starting at 6AM until 9AM just can't be disputed. There are also two other projects that have been approved within hundreds of yards of 361. One of these projects has already broken ground while the other diagonally across the street has received City Hall approval, but they have not broken ground. Each of these projects are adding cars and congestion to this area...certainly not helping with Green Space.

Although, we have heard from the Mayor and other officials that " they" are helping this school look for another site we have not heard of one site as yet. I have read in letters to the editor in our local paper some residents are suggesting WR High. If this is a non-starter would love to know why. Seems to be a good compromise.

As a very long standing member of the WR Council and Zoning, I would sincerely ask the City to look to Smart Planning with the limited space that we have and to NOT approve this site as a school.

Thank you,

Judy and Dan Settana

Subject: Opposition to Charter High School at 361 Belgrade Avenue, West Roxbury
From: Rosemary McAndrew <[REDACTED]>
To: Aisling.Kerr@boston.gov
Date Sent: Wednesday, January 30, 2019 12:20:04 PM GMT-05:00
Date Received: Wednesday, January 30, 2019 12:20:15 PM GMT-05:00

Dear Ms. Kerr:

My name is Rosemary McAndrew and **I want to go on record as opposing the proposed building** of a Charter High School at 361 Belgrade Avenue, West Roxbury.

This project - including the "scaled down" proposal - is too large for the proposed site and will adversely affect the impacted neighborhood, where my husband and I reside.

Our opposition has much to do with the project location which is at the gateway to West Roxbury. The notion that all students will use public transportation, at a MBTA stop which is already overloaded, is an example of the lack of concern for the daily lives of those of us residing in the community.

Following the highly dubious statement that all students will use public transportation in their statement is confirmation that the 67 staff members will fit into 76 parking spots. This is another example of the lack of concern for the daily lives of those of us residing in the community. Overflow of parking will end up where? On Belgrade Avenue? Into the neighborhoods, which is what we already contend with from Commuter Rail commuters on a daily basis?

The fact that this continues to be an issue of consideration is hard for me to understand. Again, I am 100% against this proposal.

Thank you.

Aisling -

I already filed an official public comment about the proposed project; however, I just got a mailing from GBANA.

I am wholly in support of the project — although it seems like I’m swimming in a sea of protest. My belief is that we should welcome a high quality school to the area. We are already known for several high quality private schools.. elementary and high school. Why not another? If a condo were built there, the traffic would be even worse! Progress always has dissenters. I welcome these students, teachers and staff with open arms.

Best,

Anne

[Uncommon Schools \(PDF\)](#)

Owner and Founder of Roxbury Prep found guilty of civil rights violation by United States Office of Education Office of Civil Rights, case 02 17 1015 2018 . PUBLIC SHOULD BE NOTIFIED.

We do not want a tax shelter blocking the major arteries of Roslindale and West Roxbury. We do not want to pay for this tax shelter. This is a lottery school and after all Roxbury Prep students are admitted then the school is open to a state lottery -- NOT THE STUDENTS OF ROSLINDALE WEST ROXBURY .

The deception so far practiced upon the population of our area is an indication of the lack of veracity of this school. Neither could we trust the sincerity of the current plans for the school. They would not be feasible to this tax shelter. Also, The attrition rate for this school is very high. What happens to the unfortunate load of students thrown out by this school? Where do they go?

Sincerely,
Susan Donlan 100 Stratford WR

Date Sent: Monday, January 14, 2019 4:33:54 PM GMT-05:00
Date Received: Monday, January 14, 2019 4:34:32 PM GMT-05:00

Hello -

BPRD met with the proponent of the Roxbury Prep Charter High School in December 2016 and discussed the issue of exterior open space onsite to serve the active recreation needs of the students. The current plan does not appear to have that accommodation. The proponent should explain how it will meet this need, if it intends to provide such programming. The Boston Parks and Recreation Department is not able to provide space for outdoor athletics for this school.

In addition, this project is located on the West Roxbury Parkway, and is therefore subject to Municipal Code Section 7-4.11. Information about that review can be found here: <https://www.boston.gov/departments/parks-and-recreation/development-approval-near-public-parks-and-parkways>

Please let me know if you have any questions.

Thank you.

Dear Aisling Kerr,

I rarely reach out about political reasons, but I have been troubled with the toxic rhetoric surrounding the Roxbury Prep project in my neighborhood. While some people have expressed concerns about traffic, my experience working at another local school (APR in Hyde Park) has been that almost all students take MBTA transportation from surrounding neighborhoods. I also feel the need to add my belief that a lot of the animus comes from lingering racial tensions in Boston. Simply put, I think our neighborhood will be better, not worse, when welcoming promising young people of color who will be future leaders. While fear of difference can be a powerful motivator, I work with young Black and Latino kids every day, and think one of the best things we can do as a community is make them feel welcome.

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

Dear Aisling Kerr,

I live nearby 361 Belgrade and I strongly support Roxbury Prep High School being built. I think the traffic concerns are overblown, and residents who oppose the school are selfishly worried about property values.

I think the benefit of this safe, clean site for the school outweighs any added inconveniences to us residents living here. We must think of the future generation!

These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

Dear Aisling Kerr,

We support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

We drive past this location most days. We live in Roslindale but regularly shop at Roche Brothers, CVS, Blanchard's, use the library, and almost daily are at the YMCA. We are sensitive to traffic concerns expressed by some, but believe that the uptick in vehicular traffic will be minimal, given that most students will be coming on the much more convenient public transportation of the commuter rail and buses.

Were the school not built there, our guess is that new condos and apartments would soon appear, probably at unaffordable prices, and certainly with more traffic congestion than this school will bring.

Our biggest reason for wanting this school to come to that location is to provide these kids from this very good school one campus where they can learn and grow together. This would also provide a high school opportunity right in Roslindale/West Roxbury for kids from the community, something not so available now.

We ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Dave and Karen Hinchin

Sincerely,
Dave Hinchin

Dear Aisling Kerr,

I've seen several signs opposing Roxbury Prep in my neighborhood. I'm writing to strongly support the project, and I'm glad to see the growth in favorable signs nearby as well.

The best thing Boston can do to improve the quality of life for our residents is to improve the school system. I hate when new parents think of their young child as a "ticking time bomb" forcing them to move to the suburbs for the schools.

Now that West Roxbury High School and other schools will be closing, there's a tremendous need for new, state of the art schools all over the city and especially here in Southwest Boston.

The proposal for Roxbury Prep is a terrific location for public transportation, which should also benefit our neighborhood. Please join the many Bostonians and residents of Roslindale and West Roxbury who support the new school.

Sincerely,
Laurence Kranich

I disagree with the traffic congestion argument against this proposal based all the new multi unit developments in West Roxbury that received the green light despite increasing density and traffic. I am disappointed by the elected officials who already oppose the project before the full review process has begun.

I ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Dear Aisling Kerr,

I support the Roxbury Prep High School proposal for 361 Belgrade Ave to come in to my long-time neighborhood in Roslindale. I live just a short walk down Belgrade from there, and I think it is a great use of that space, with transportation available via the Commuter Rail and several bus lines from the Orange Line Forest Hills Station. Roslindale hasn't had a public high school in over forty years, and I would be happy to support a local school in my neighborhood.

My family and I weighed the pros and cons of the proposal for about a year, and I am happy that Roxbury Prep listened to neighborhood concerns and tweaked their original proposal. I haven't heard anything that makes this proposal unworkable, in my opinion, and I am excited by their plans. I expected the "not-in-my-backyard" response that typically meets any new project, though I was horrified at comments from some community members about "those kids," as though they are not our kids, from Boston. Students deserve the better facility that this project can deliver, and the students' needs should trump any inconveniences that opponents may cite.

It is sad to hear that Roxbury Prep has searched for years for a piece of property to develop, and that they presently make do by using two buildings, miles apart, each without basic resources like a cafeteria or gym. Please support their efforts to find a permanent home for these public school students, and turn this vacant property into a beautiful school which would be an asset for the entire Roslindale community for generations to come!

I ask for your support of this project. I hope to hear a reply from your office soon. Thanks for your consideration!

Sincerely,
Robert Fair

Dear Aisling Kerr,

The note below is well-written and I agree with all of it. In addition to those words, I want to say that having one cohesive school in a new location- and having a high school in Roslindale- would be fantastic. The location and aesthetic appeal of a school are so important to the school dynamic and education. Kids going to Boston Latin are "commuters" from all over the city. The kids going to this school may not be solely from Rozzie and West Rox, but that means nothing. Let's give them a good education and a welcome to Roslindale. Please don't let your donors sway good sense here.

Dear Aisling Kerr,

I am writing this email to again express my support for the Roxbury Prep project and to urge you to take swift action and back this project publicly.

I have spent the summer canvassing my neighborhood and have met many neighbors who similarly support the project. While there are still details to be worked out, I believe that with the political will, this project can come to fruition.

In light of Mayor Walsh's recent reveal of the Build BPS initiative, this project presents the opportunity for a "shovel ready" project that will give Roslindale a much needed high school and at considerable savings to tax payers.

I ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Dear Aisling Kerr,

Councilors,

Those of you in my district who do not support the construction of Roxbury Prep High School at 361 Belgrade will have lost one (and likely more as many neighbors feel the same) vote at your next election. I cannot support councilors who do not support a high-quality high school in my neighborhood, one that currently has zero public high school options. Your position on this shows clearly who you are on many, many issues.

Roxbury Prep students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

Dear Aisling Kerr,

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

I ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Sincerely,
Jeanne Reis

Dear Aisling Kerr,

As a lifelong Roslindale resident who believes that public schools DESERVE our enthusiastic support, I heartily approve of the proposed Roxbury Prep school moving into my neighborhood!

Despite the fact that this use of the site may cause me some small annoyances, as I live just off Belgrade, a couple of blocks away, I still support this project, because THESE KIDS ARE OUR KIDS and we owe them the best resources that we can possible give them. It would be extremely hypocritical of us to proclaim ourselves supporters of public education but then quibble over a few parking spaces or increased traffic.

I travel by the site every day, whether by foot, bus, or car, and Belgrade has really been under-utilized for years, and that is not a residential space. In my opinion, it is a great use of the site, being a reverse commute on the Commuter Rail and several bus lines.

Rozzie has NEVER had a public high school, and now that the only high school in West Roxbury is closing, our area deserves to have at least one option for our neighborhood kids. I appreciate the rigor and high behavioral standards that Roxbury Prep offers, so I think they would make a great neighbor and option for our kids.

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

I ask for your support of this project. I hope to hear a reply from your office soon. I will be watching the process and hope to attend BPDA meetings to support them. Thank you!

Sincerely,

Dear Aisling Kerr,

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. The school has pledged their support of our community, and allowing access to their gym space for our local sports teams. They have answered the need for more parking by creating under ground spaces for teachers. They have completely answered the questions of traffic congestion in the area, pointing out the availability of the public transportation and no students being permitted to drive to school. If the issue comes up about the size of the school, that too has been addressed by comparison to the other charter schools in Boston, that have been recently built or renovated.

We need the school in our neighborhood. If the thought that additional housing is needed, that will only make congestion at that intersection even worse.

Please allow these Boston students to have a great new building in our neighborhood. Let's show them how much they mean to us as the future leaders of this city.

Thanks,
Scott

Sincerely,
Scott Bortolotto

Dear Aisling Kerr,

Hi,

I am an English teacher for adults and I have had students who have their kids in Roxbury Prep. They say it's a great school and they need a campus for those kids!!

I, personally, think the attacks against having the school located at 361 Belgrade are rooted in racism and there's no room for that in our community. We need to support this hard working school and have a place for these hard working kids to learn.

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

I ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Dear Aisling Kerr,

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. Even if you DON'T support charter schools in general, this school already exists. We also, need more opportunities for kids in the area.

These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces. Why are we having them travel across the city to multiple locations when they could commute to just one?

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community. The school states they will allow the community to also use the space. This could include a facility for weekend sports programs, local classes, or events.

I ask for your support of this project. I run by this old eye sore almost every morning, why would we add anything else into that space? More apartments or condos that will take up more space than high schoolers? These kids will add value and worth to this neighborhood. I was proud to move to Boston after I left the military because it was going to allow my future children to be around diversity and culture; something I learned to value and something Boston could do more learning from.

I hope to hear a reply from your office soon. The school is willing to work with the city and community to compromise, you should do the same. Thank you!

Sincerely,
Katherine Chousa

Dear Aisling Kerr,

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. These high school students are currently spread across two temporary locations over five miles apart, both of which lack a cafeteria, a gym, or performing arts spaces.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community.

I ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Sincerely,
Barbara Surujbally

Dear Aisling Kerr,

I support Roxbury Prep High School's project proposed at 361 Belgrade Ave. in Roslindale. All students in the city deserve a high quality education in facilities that support active learning in all subjects.

The location at 361 Belgrade will give these students the facility they deserve, with easy transportation access via the Commuter Rail and multiple bus lines. This new building will be an asset to both the students and the community. I love the parkway area for its active community, shops, restaurants, places of worship and civic organizations. Roxbury Prep will be a wonderful addition.

I ask for your support of this project. I hope to hear a reply from your office soon. Thank you!

Good Afternoon,

Thank you for taking the time to submit your comments on the proposed Roxbury Preparatory Charter School project at 361 Belgrade Avenue in Roslindale. I have added your comments to our project file.

At this point, the Boston Planning & Development Agency has received a Letter of Intent from Roxbury Prep Belgrade Avenue, LLC (the "Proponent") which outlines the Proponent's proposal for the site and desire to enter into the Article 80 Review Process. The Article 80 Review Process does not officially begin until a Project Notification Form ("PNF") has been received by the BPDA from the Proponent. It is also at this point (the filing of the PNF) that the 30-day public comment period begins, during which public meetings would be held.

You may view the Letter of Intent, and any other related project documents, on the proposed project's webpage on the BPDA website, available at [this](#) link. I also encourage community members to sign up for the BPDA's neighborhood updates, by filling out the online form [here](#), to receive notification of any meetings in neighborhoods of interest.

Thank you for your involvement in the community and our City. I look forward to continuing to work with the Roslindale and West Roxbury communities throughout the Article 80 Review Process.

Thank you,
Aisling Kerr

Hope you're well. Didn't get a chance to catch you last night, but just wanted to drop you a quick note to let you know that as a Roslindale resident (15 Basto Terrace), I fully support Roxbury's Prep's proposed location at 361 Belgrade Avenue. This is my own personal viewpoint and support for the proposal; it isn't WalkUP Roslindale's official position, though I do think WUR is likely to weigh in as a group once the formal Article 80 process begins about how the project can be as walkable, cyclable, and transit-accessible as possible. Thanks!

Best,
Matt

Dear Aisling Kerr,

We am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project. In addition, our son is a teacher and coach at Roxbury Prep. He has expressed his concern for the well being of his students and all the students in the school because of the problems caused by the school's being in two disparate locations as well as the absence of a large enough cafeteria, gym, and performing art space.

Sincerely,

Jim and Michelle Duane

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale.

As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, performing arts spaces, or adequate space for laboratory equipment to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

I have several friends working for RPHS as teachers. They are among the most dedicated, smart, enthusiastic, and passionate people that I know. The school is filled with hardworking teachers and students who deserve better accommodations. One of their most significant difficulties is the lack of space and permanent location, I have heard from many of these teachers that this lack of space is detrimental to their teaching. The school needs space for teaching, learning, and growing roots in a place, to have a feeling of belonging and home.

As an engaged resident of Boston, I ask for your support of this truly wonderful project.

Sincerely,
Rachel Willen

Dear Aisling Kerr,

As a resident of Roslindale, I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Marie Dumel
37 Seymour St # 3 Roslindale, MA 02131-4322

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

I am a life long resident of Boston growing up in Roslindale and attended Boston Public Schools (BPS) from K to 12 grade.

This period included Desegregation in the early 1970s. I mention all this to inform you that I am not new to the area nor the issues that continue to plague BPS since I attended it. I believe we need to continue to try and improve BPS and I believe the Roxbury Prep School project will help in that effort.

My children also attended BPS. Sadly my children moved out of Boston because they do not want to send their children to BPS.

Sincerely,

Jim Faherty

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

These young people deserve to have a school to call their own. The location at 361 Belgrade would give these students access to the single-site facility all within minutes of several MBTA transit options. It would give them quality facilities for optimum learning and a sense of community.

Even if there is more activity or traffic in the area, which is a complaint of some who oppose this move, it would still be worth it. We need to invest in our youth and provide them with welcome.

As an engaged resident of Boston, I ask for your support of this project. Thank you for the work you do.

Sincerely,
Kathie Carpenter

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options. The addition of an additional free, public high quality high school in the Roslindale area will also benefit all of the families in the area. At present, the conversation between families is, "when our kids get to be around 12 years old, we have to move if they can't get into Boston Latin." While this message is not intended to raise a distress signal about the quality of public schools in Boston, it would be negligent to neglect a chance to improve the quality of education in Roslindale. As a mother, a teacher, and a community member, I cannot accept the argument that this space is inappropriate and neither should you.

As I look around at the groups opposing the building of this school, I am struck by the fact that the argument is a vague reference to the site's address - as if even the people actively opposing the school are embarrassed to be doing so. Take this as a sign, your constituents need and want better schools and you must be doing everything in your power to provide them.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Vsnessa Walker

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale.

Please take time to review the facts, and not just listen to rumors. This will be a huge benefit to our community. There is always fear of change, and certainly some legitimate concerns, but please hear out the school before making a judgment. The school is interested in working with the community to address their concerns.

As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. Right now, these high school students are spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students. As someone who benefitted immensely from performing arts while growing up, I think every student deserves the same opportunity.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options. I literally live less than a block from this site, and commute daily via MBTA. I am not concerned about the influx of students, the supposed traffic "issues" (which I believe will likely be minimal), or think there will be any negative impact on my immediate neighborhood.

As someone who has become a homeowner in the area only a year ago, I can't imagine being anything but pro-school given the situation these students are in, regardless of your personal feelings on charter schools in general.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Jenni McCarthy

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Cynthia Dantas

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. The school's students deserve a new building and a single location for the school.

Some opponents of the school have said that it will create traffic. I believe that waiting in traffic for a minute or two is well worth it to ensure that all the children of our city are educated well. Many of the opponents have cited the fact that most of the kids reside outside Roslindale as a reason not to house the school. There is a serious case of NIMBY going on. Our whole city is responsible for the education of all of our kids. Every neighborhood needs to shoulder the burden of housing schools. No one is exempt. When people talk about where the students are coming from and the students happen to be mostly of color, it smacks of racism. Much of their language has included coded racist terms like "urban elements." Any elected official who supports them in their quest to maintain racial segregation is also complicit.

Some of the opposition is hiding behind the idea that they are anti-charter school. However, this school already has charter seats and students. Whether they have a building or not, they will continue to run their school. Having the school building does not change the number of students they serve or the amount of money they get from the state. And I am in touch with many of the most ardent anti-charter activists in the city. They are supporting this building because they despise the racism behind the opposition. And because they know that the building does not change the charter school landscape.

A school is one of the best possible uses of the land at 361 Belgrade. We have enough over-priced condos. Building a school on this property will give Roxbury Prep students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Allison Jacobs Friedmann

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Kristin Schaefer

Subject: Re: Opposition to Roxbury Prep High School at 361 Belgrade Ave location

Good Morning Eileen,

The most direct way to receive notifications regarding 361 Belgrade Ave. and the Article 80 Review Process would be to sign up for BPDA email updates using the following two links (The email updates are neighborhood specific, and because the site of the proposed project straddles the Roslindale/West Roxbury line, I would suggest signing up for both neighborhoods):

<http://www.bostonplans.org/neighborhoods/roslindale/at-a-glance>

<http://www.bostonplans.org/neighborhoods/west-roxbury/at-a-glance>

On the right hand side of these webpages, you will find a gray box with the words "Stay Connected" beneath which there is a text field to enter and submit your email address. The BPDA will send notifications if and when a PNF is filed in addition to communicating the date, time, and location of any public meeting scheduled during the public comment period. The BPDA also advertises scheduled public meetings in the calendar on our website and in the Boston Herald.

You may view the Letter of Intent, and any other related project documents, on the proposed project's webpage on the BPDA website, available at [this](#) link.

I have cc'd to this email my colleague, Aisling Kerr, who is the BPDA project manager designated for 361 Belgrade Ave. Please don't hesitate to reach out to Aisling directly should you have questions or concerns regarding the Article 80 Review Process or the Proponent's proposal for the site.

I hope this information proves helpful and please let me know if I can be of further assistance.

Kind Regards,
Colin

On Wed, Aug 1, 2018 at 5:51 PM, Eileen Wynne Ball <eileenwynneball@gmail.com> wrote:
This means, as of now they, they haven't submitted a PNF? Do I have that right. Gosh. Maybe they are discouraged. I hope so!

Colin, thanks so much for taking the time to write back to me. I didn't expect it AND I really appreciate it.

Will it be very public if a PNF is submitted?

Best,
Eileen

Subject: Re: Opposition to Roxbury Prep High School at [361 Belgrade Ave](#) location

Dear Eileen,

Thank you for your e-mail regarding the proposed Roxbury Preparatory Charter School at [361 Belgrade Avenue](#) in Roslindale. The Boston Planning & Development Agency (BPDA) takes into careful consideration all public comments concerning a new development project submitted through the Article 80 Review Process.

At this point, the BPDA has received a Letter of Intent from Roxbury Prep Belgrade Avenue, LLC (the "Proponent") which outlines the Proponent's proposal for the site and desire to enter into the Article 80 Review Process. The Article 80 Review Process does not officially begin until a Project Notification Form ("PNF") has been received by the BPDA from the Proponent. Once a PNF has been filed, the 30-day public comment period begins, during which time public meetings will be held.

On behalf of Director Golden, thank you for taking the time to share your comments with the BPDA. Your concerns have been added to our project file. We look forward to continuing to work with the Roslindale and West Roxbury communities throughout the Article 80 Review Process.

Sincerely,
Colin Donnelly

I am deeply upset about the proposal to build a high school at [361 Belgrade Avenue](#). I honestly do not think that racism is at the heart of the matter.

The increased density in that specific area will become much worse with a new set of apartments going up. I believe this school, with its size and limited parking, not to mention lack of facilities will create an impenetrable wedge between the West Roxbury and Roslindale communities. Businesses in both areas will suffer from the congestion.

As a home owner, I am watching parking become more and more difficult for current residents, and the length of time and line of cars for me to enter onto Belgrade from my street has grown exponentially.

I formally oppose the proposed [361 Belgrade Avenue, Roslindale](#) site for the new Roxbury Prep High School which will house too many students. Fewer than 200 will be too many students.

the immediate area cannot handle such an influx of people.

I am a proponent of the development of this site and agree with the consensus of the immediately impacted neighborhoods that this project is not appropriate for this location.

Please, some green!

Thanks for reading this
Eileen Ball

Hi Colin,

Thank you for your email. Just to be clear, this is not about preventing kids from having a better school building, location or a better education. This is about building a school in a very congested area. The traffic in the morning and evening around that neighborhood is extremely congested and I do not think it is safe for such a high level of commuting individuals. Please keep me updated with the date and time of the next meeting. Thank you.

Sincerely,
Nena S. Negrón

Dear Aisling Kerr,

I hope you read this as it is not only genuine but important. I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. I'm not from the city but am fortunate to live here now and hope to be starting a family here. Kids nowadays and more than ever need a space to be together and be able to thrive with one another. These scholars will be able to be in one space where they can bounce off each other, encourage each other, and have support that they may not be getting anywhere else.

Do I want added traffic, by cars or foot? No because I commute to work using the bus on Belgrade. But do I think it will add THAT much more? No. I don't worry about it because school hours are the hours I'm at work so if parents or whomever want to drive, it won't affect most of the people who are protesting it. There is a police station down the road where kids can see a positive role model and police presence. There is Roche Bros which is always seemingly hiring so kids who need jobs after school can apply. Overall, as with anything there are pros and cons but the pros just seem to vastly outweigh the cons.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Katherine Chousa

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options. Its an opportunity for Boston to finally focus on improving and strengthening the multicultural environment and experience for students, teachers and quite frankly members of our community. Boston continues to lag behind with addressing the need for improved multicultural learning environments for all students in Boston. (The diversity in the three existing exam schools is deplorable and nothing to be proud of.)Why not let all our students in Boston have the opportunity to learn in a healthy and stimulating environment, that has basic necessities such as a cafeteria and a gym? Any excuse that the space is not right, such as parking, traffic, building codes is all an effort to avoid the real issue that some residents don't want the school here for concerns of "those students" in our neighborhood.

West Roxbury/Roslindale residents should to proud to have the school join our community, and embrace a multicultural opportunities to help our future leaders. As an engaged resident of Boston, West Roxbury, I welcome the school and the students. I ask for your support of this project and would be glad to talk with you. If this doesn't pass it will be yet one more opportunity that Boston let slip-by that could help us be a proud example of a strong multicultural city. The Boston Globe's Spotlight series pointed to education as a major concern regarding racism- let's stop it now. A new day. Boston needs to more forward not backwards.

Sincerely, Catherine MacAulay

Dear Aisling Kerr,

I fully support the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. It is high time that our neighborhood had it's own High School, and I would welcome the students of Roxbury Prep to our neighborhood with open arms. I hope that one day my young son will have a school of that quality to attend in the neighborhood.

As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options. But I also believe the schools relocation to Roslindale would benefit our community. The stretch of Belgrade between Roslindale Village and West Roxbury feels blighted, to be honest. The street is littered with rubbish and many vacant store fronts and shuttered windows. Having the additional foot traffic and community of students and educators could be the impetus for a the area around Bellevue station to get some business and neighborliness.

Finally, I find the rhetoric by some of my neighbors who oppose this school to be disturbing. Roslindale, and Boston at large, should aspire to welcome students from all races and backgrounds without resorting to euphemistic and racialized language. I hope that once the school moves here, we can all show them the respect and welcome that they deserve at this early stage of their lives.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Lise Bradford

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

There are numerous other schools in the vicinity, so it strikes me as odd that there is so much resistance to this school coming to the neighborhood, especially in the low-traffic Bellevue Hill area we live in.

I think opposing this high school, when there are at least 4 other schools very nearby, sends an odd message.

As an engaged resident of West Roxbury, I ask for your support of this project.

Thank you for your time.

Sincerely,
Susan Roe

Dear Aisling Kerr,

The Roxbury Prep move to 361 Belgrade on the Rozzie/WX line deserves a fair and un-politicized hearing before the BPDA. I know that Senator Rush, Councilor McCarthy, and a number of others who represent me have come out against the move. This move would be a concrete, specific step towards desegregating our highly segregated city. I pledge to support the school by volunteering should it move to my neighborhood (Rozzie). Make Boston more resilient--take this concrete step to desegregate SW Boston!

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Maria R. Carmona
4100 Washington St Roslindale, MA 02131-1720

Hello,

I hope this email finds you all well!

Last week, an event in support of Roxbury Prep was held by abutters at their home in West Roxbury. With over 50 supporters in attendance, we are grateful for the growing network of support in Roslindale and West Roxbury. We want to share some of the messages from supporters of the project with you. Attached are copies of postcards and letters collected by Roslindale and West Roxbury residents asking for your support of the project, many of whom are abutters or residents within the direct vicinity of the proposed site. Please take a moment to read their passionate thoughts on our project.

Thank you, and we look forward to continuing the conversation about Roxbury Prep.

Best,
Kate Armstrong

RE: Apoyo para el proyecto de Roxbury Prep High School propuesto en 361 Belgrade Avenue

Estimado Mr. Brian Golden,

Le escribo para expresar mi apoyo dedicado al proyecto de Roxbury Prep High School propuesto en 361 Belgrade Avenue en Roslindale. Como sabrá, nuestros estudiantes actualmente se encuentran distribuidos en dos ubicaciones temporales a más de tres millas de distancia, y tienen una cafetería, un gimnasio, o espacios de artes escénicas suficiente.

La ubicación en 361 Belgrado le dará a mi estudiante acceso a las instalaciones de un solo sitio que se merecen, todo a minutos de varias opciones de tránsito de MBTA.

Como residente de Boston, le pido su apoyo a este proyecto.

Sinceramente,

NOMBRE: Sara Monterroso

RE: Support for the Roxbury Prep High School project proposed at 361 Belgrade Ave

Dear Mr. Brian Golden,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, our scholars are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of our students.

The location at 361 Belgrade will give my scholar access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,

RE: Apoyo para el proyecto de Roxbury Prep High School propuesto en 361 Belgrade Avenue

Estimado Mr. Brian Golden,

Le escribo para expresar mi apoyo dedicado al proyecto de Roxbury Prep High School propuesto en 361 Belgrade Avenue en Roslindale. Como sabrá, nuestros estudiantes actualmente se encuentran distribuidos en dos ubicaciones temporales a más de tres millas de distancia, y tienen una cafetería, un gimnasio, o espacios de artes escénicas suficiente.

La ubicación en 361 Belgrado le dará a mi estudiante acceso a las instalaciones de un solo sitio que se merecen, todo a minutos de varias opciones de tránsito de MBTA.

Como residente de Boston, le pido su apoyo a este proyecto.

Sinceramente,

Dear Aisling Kerr,

I had the opportunity to attend two informational meetings at Area E and at one I literally felt like I might as well have been at a KKK rally. Having lived in this neighborhood for 36 years, I had actually thought we had made some progress. But what I heard disturbed me very deeply. As the parent of three who all attended BPS I know just how limited options are for high school students who would like to go to school in the neighborhood.

Of course the public stated argument against is the parking situation. I have listened to the parking and traffic study conducted by the school, but perhaps it would make sense to commission an independent study and assess those results.

No doubt, the forces lined up against this are well organized. I trust as our representatives you will have a bit more courage than the bozos in Washington.

All the children in our city deserve a decent education and our neighborhood should have a high school...

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
michael shor

Hi Emily and Aisling,

If you want more information on what I meant about effective and ineffective process, I'd be happy to talk this summer. June is too busy to write or say more. But, there is much more that can be said. I help schools manage change processes. If someone wanted the 361 Belgrade project to be intentionally polarizing, they'd have done what the school did. And, if the city wants more housing and more Main-Streets-friendly development, the process for 400 Belgrade should have been different too.

If you want some input on process for the sake of future projects, let me know. I hope you do; there is no need to set up residents for such awful processes. We deserve better. And your projects would go through more easily (when they're worth going through).

Rachel Poliner

Comments: I'm writing about the projects at 400 Belgrade and 361 Belgrade on the Roslindale/West Roxbury line. I live 1 block from 400 Belgrade, 2 blocks from 361. I know that 400 Belgrade has been approved, I hope with an adjustment of pulling back from the narrow corner at Beech/Belgrade so that visibility at that intersection is improved. I wish that the City would use this (and any) opportunity to make safer intersections; a second one could happen if s cross-walk for 400 Belgrade crosses Beech St just north of the Kenneth St intersection, making the Beech/Kenneth St intersection safer with more visibility. Otherwise, we obviously need more housing and I appreciate the modifications that the developer made so far so that the building won't be 5 stories tall towering over the neighborhood. I still worry about the eventual people who will live in a building on a traffic island (with traffic going in both directions on all sides), but if adjustments are made, the project could make the intersections safer for everyone. (Has anybody studied if Beech St needs to be made one-way?) As for 361 Belgrade, I'd rather see another apartment building, including more affordable units. Housing would fit that lot more effectively than a school. (If a school is to be built, it should be a BPS school, not a charter that's part of a chain controlled by a company located on Broadway, NYC. Who will the City be paying rent to for the lease on that land?) I do not have and will not have a "Stop 361 Belgrade" sign in my yard. It's a complicated issue; the sign is too blunt, too easy to assign unintended meanings. I am, however, against Roxbury Prep being built at 361 Belgrade. As a process point, since I assume that the BPDA wants to develop and isn't actually trying to alienate residents in the neighborhoods, both projects involved badly rolled out processes for community information and input, though the school's process was far worse, seemingly a deliberately polarizing process. There are so many, many, many ways they could have conducted the process more effectively. Their process leaves a stain on them, on the neighborhood, on the BPDA and on the Mayor.

Dear Ms. Ricco,

In regard to the proposal to move the existing Roxbury Prep, the Charter School, from Hyde Park to Belgrade Avenue, I have not spoken to one person in both Roslindale and West Roxbury who believe this is a good idea. Traffic wise it is an absolutely terrible decision. Evidently, the group planning this move has not looked into the location. The traffic, both morning and afternoon, is backed up constantly. The parking for teachers and students is insufficient. Buses and drop off areas will be limited. There will be little land for outside activities. No basketball, baseball or football fields. The traffic on the West Roxbury Parkway and the Holy Name Circle is always backed up, especially in the morning hours.

This Charter School should definitely look elsewhere. Hyde Park High School or West Roxbury High School might be alternatives. Also, why not use these monies paid out for these students of Boston to Charter students be better used to upgrade the Boston School System. Many of our schools are in dire need of supplies and physical up-grades. Integrate these students from Roxbury Prep to our Boston High Schools. There is ample space to take care of these 850 students. The taxpayers would prefer using the facilities we have available to them rather than starting over.

Please have the City Counselors and the Boston School Committee get on board and resolve this matter. Thank you for your help on this matter.

Very truly yours,

Elena M. Flynn

Resident and taxpayer since 1955.

Dear Aisling Kerr,

Dear Mayor Walsh, City Councilors, members of BPDA,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

It is a street with little development currently.

The local restaurants, Tasty Thai, the pizza restaurant would probably get more custom.

I live 3 minutes walk from the Bellevue commuter rail stop. It does not upset me at all to have high school students getting to and from school on the Commuter Rail. The trains are rarely busy

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,

catherine kelley

Dear Aisling Kerr,

I am urging you to support the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students. That's crazy!

I was on the planning committee for Boston Green Academy (now located in Brighton). I've been on that Horace Mann charter school's board since its founding, and I know personally, intimately, the struggle that a school has when it has inadequate space to educate young people. After four years in a beautiful but too-cramped space in South Boston, BPS was able to gradually move the school into another beautiful facility, across from Brighton High School.

Roxbury Prep deserves to be in a single location. The site at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Molly Schen

Dear Mayor Walsh,

I am a Tyndale Street resident; born and bred in Roslindale; attended Boston Public Schools myself; and now have a 1st grader in the Boston Public Schools. I am **in favor of 361 Belgrade Ave as the site for Roxbury Prep**. I believe that a high school option in Roslindale will be a wonderful asset to our neighborhood.

On Tyndale Street alone, there are currently 20 children under the age of 6. Roslindale and West Roxbury in general are full of young families. As I'm sure you know, many parents are committed to staying in the city, but are anxious about current and future choices within the BPS system. To have a successful, high-performing public high school option for my children and their local peers **within** walking distance is something I never thought possible.

I urge you to consider supporting this project. The arguments from detractors about parking and traffic are, frankly, a red herring. 90% of the students will be taking public transportation AND the majority of staff/students will be reverse commuting. School officials have capably addressed parking by adding a garage to their plan. **Let's bring Roxbury Prep to our neighborhood** to give the current students/staff a great surrounding neighborhood, and provide more choice and options to future high school students in our neighborhood.

Thank you,
Amanda Mezzetti-Quirk
28 Tyndale Street

Dear Aisling Kerr,

As a local Roslindale resident, a mom to 3 children and a public educator, I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students. It seems like a reasonable request that a school with an existing successful charter to be under one roof. The school administration have proved to provide high quality education to not only residents of Roslindale but young people from across our city. Why wouldn't we want to help support this cause?

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project. Thank you!

Sincerely,
Emily Adams
73 Tyndale St Roslindale, MA 02131-2325

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale.

I live two blocks from the site and am excited about the prospect of a high school in my neighborhood. As a parent of three BPS students, I know there is a need for more high school choices for families. And even if my children don't attend Roxbury Prep, I look forward to welcoming children, no matter where they live in the city, with a safe neighborhood in which to learn. Furthermore, the location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

Others may say, "Not in my backyard," but I say, "Yes!" and "Put children first!" I ask you to do the same and support this project.

Sincerely,
Elizabeth Vondrak

Dear Aisling Kerr,

I am writing to state my STRONG support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale.

Boston needs more schools, and building this public high school will contribute greatly to the success of kids in Boston.

I live on Tyndale St, 0.5 miles from the site, and I would love to see this project built.

Both my children attend Boston Public Schools, and I you to support this project.

Sincerely,
Joseph DeMasi

Dear Aisling Kerr,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As a Roslindale resident, I travel on frequently on Belgrade Avenue. The neighborhood needs revitalization and a school would bring much-needed foot traffic to the area. What our neighborhood does not need are more high-end condos. I would much rather see a school built than another set of condos.

I believe that the achievement gap is one of the most important civil rights issues of our time. Closing the achievement gap is, of course, complicated and requires varied resources. But surely one of those resources is adequate space and modern facilities.

I urge you to support this worthwhile project and stand with our young people.

Sincerely,
catherine desroches

Dear Aisling Kerr,

As a resident of Roslindale, I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, these high school students are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of these students.

The location at 361 Belgrade will give these students access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, I ask for your support of this project.

Sincerely,
Carlos Martinez
49 Florence St Apt 1 Roslindale, MA 02131-3639

Hi Despina,

My name is Aisling Kerr and I am the BPDA Project Manager for the Roxbury Preparatory Charter School proposal. I am reaching out to follow-up on your comments submitted to the Boston Planning & Development Agency Board Members about the School's proposal for the 361 Belgrade Avenue site in Roslindale. .

At this point, the Boston Planning & Development Agency has received a Letter of Intent from Roxbury Prep Belgrade Avenue, LLC (the "Proponent") which outlines the Proponent's proposal for the site and desire to enter into the Article 80 Review Process. The Article 80 Review Process does not officially begin until a Project Notification Form ("PNF") has been received by the BPDA from the Proponent. It is also at this point (the filing of the PNF) that the 30-day public comment period begins, during which public meetings would be held.

You may view the Letter of Intent, and any other related project documents, on the proposed project's webpage on the BPDA website, available at [this](#) link. I also encourage community members to sign up for the BPDA's neighborhood updates, by filling out the online form [here](#), to receive notification of any meetings in neighborhoods of interest.

Thank you for your involvement in the community and our City. I look forward to continuing to work with the Roslindale and West Roxbury communities throughout the Article 80 Review Process.

Thank you,
Aisling Kerr

Thanks Tammy,

As a West Roxbury resident and mother to four children, I have seen great changes in the BPS over the 25 years we have been (and continue to be) in our public school system.

With regards to the proposed location of the Roxbury Prep Charter High School, I feel that [361 Belgrade Ave.](#) is not appropriate for such a large high school community - especially in regards

to traffic. I understand that many of the Roxbury Prep students and faculty currently travel to and from school via public transportation, however it is naïve to think that such a good high school option will continue to only serve those in the city who travel to and from school via MBTA/commuter rail. As a matter of fact, I suspect that within four years of this charter school moving into West Roxbury, many more “local” families will also begin to choose and hope to win a Lottery seat for their child to attend Roxbury Prep. At the proposed location, it is shortsighted not to plan for more local students coming to join this school community - and this, in turn, will add even more traffic to the area... as local parents will probably be dropping their kids off to school. This is a perfect segue to my next question/idea.

Has Roxbury Prep charter school explored options to rent, purchase, or somehow occupy part or all of the current West Roxbury High School Complex next to Millennium Park? It is T-accessible and has parking but also would open up a diverse new option for more local BPS families to consider for their child’s high school experience. As you may know, this amazing facility has been “under chosen” for many years by “local” families. I feel that a total change - such as becoming a new Roxbury Prep charter high school, with a new focus and new leadership might possibly be the answer to many families who are always seeking better public high school options other than the exam schools for their children! This would allow Roxbury Prep charter high school to continue to do their good work under one roof, with plenty of space and open up a new, diverse and exciting option for many Boston residents... from all over the city!

I have neighbors and friends who literally drive/carpool their children from West Roxbury to Dorchester every day to attend the Boston Collegiate Charter school... and they are so thankful for this non-exam school option!!

Please know that I understand that the BPS leaders and teachers may not like this idea for many reasons... but it might just be what we need. A win for Roxbury Prep and offering residents a fabulous new high school opportunity for Boston children! Can you imagine?

Thank you reading and passing this letter on to those in the decision- making roles.

Warmest regards,
Despina Stavros

I am writing to formally oppose the proposed [361 Belgrade Avenue, Roslindale](#) site for the new Roxbury Prep High School which will house up to 900 individuals.

The neighborhood believes that the site for this number of commuting individuals is not safe. That the immediate area cannot handle such an influx of people. In addition, the facility does not provide adequate space for the headcount it is planning to serve.

I am a proponent of the development of this site and agree with the consensus of the immediately impacted neighborhoods that this project is not appropriate for this location.

Thank you for the information. I remember you speaking at the 4/25 meeting of the GBNA

I did take your suggestion and signed up on the BPDA website.
I'm interested in the background to the developer of this charter school. Is this a national for profit charter initiative? As an educator I'm concerned about the privatization of education. I'm not against local charter schools, but the for-profit big box charter school is not a good choice for any community. I'll keep watching for the first public meeting. It will be well attended I'm sure. Thank you again for your work and your response.
Best,
Maureen Scott

Good Morning to All,

I am writing to formally oppose the proposed [361 Belgrade Ave, Roslindale](#) site for the new Roxbury Prep High School which will house up to 900 individuals.

As a resident of Roslindale, I don't believe this would be in the best interest for the neighborhood nor the school. The site is very congested already with traffic from Holy Name and Washington St. Residential buildings are being built on Centre and Belgrade already which will add to the traffic. The location will not provide the space it needs for the students or staff and faculty.

I'm all for education. I want our young people to get the education they deserve. West Roxbury High School on the Parkway has plenty of room. The school itself needs to be updated. I understand BPS owns that land but why not rent it to Roxbury Prep? There is plenty of room for parking, pick ups, and drop offs. It's important that we help our schools and I would love to see West Roxbury High School be done over and even have Roxbury Prep join them in that location. There is a lot of room in that location to provide the students and faculty with a state of the art school. 361 Belgrade doesn't offer that much room. I propose having the 361 Belgrade location being turned into a park and playground. It would allow and encourage the young families in the area to get outside and enjoy the outdoors.

In conclusion, I agree with the consensus of the immediately impacted neighborhoods that this project is not appropriate for this location.

Thank you,
Bessie Maher

On Sat, May 12, 2018 at 2:54 PM, Martha Echan and Bruno Giordano <meandbru@verizon.net> wrote:

Dear Ms. Kerr,

I am writing to express opposition to the proposal to build Roxbury Prep, a 900 student Charter High School, at 361 Belgrade Ave., Roslindale.

I am an abutter on Beech Street right at the intersection with Anawan Avenue and the West Roxbury Parkway. As you can imagine I am no stranger to traffic. A project of this size and density will only increase the amount of congestion in an already heavily trafficked, main route into the downtown Boston area.

Nowhere else in the city do you have a school with 900 students, faculty and staff squeezed into such limited square footage, and specifically not one surrounded by residences as this area is. Contrary to the school's letter of intent it is not "a highly commercialized" area. There is a "mom and pop pizza shop, a yoga studio and an independent dentist and eye doctor's office on Belgrade. In fact there are even *more housing units* being built within 100 yards of the proposed location!

At one of the very early community meetings, the school stated that the majority of their students will use public transportation in a reverse commute. As it stands currently the commuter rail serves approximately 400 people at most over the course of the day at the station. I commute to and from the Bellevue stop each day and most days there are not enough cars for everyone to sit by the time it gets there. Often times I stand! It is unreasonable to expect that the commuter rail could handle 600-800 arriving at one time *regardless of direction of travel*. They would need to add cars and staff. The school has shown no evidence of concrete agreements with the MBTA proving they are willing or able to handle out this reverse commute. Nor was there any mention of ability to increase the number of buses running from Forest Hills, but again this increases traffic congestion on the roadways, and Belgrade Avenue to Roslindale Square is already at a standstill in the afternoon hours, again regardless of direction!

The proposed "Kiss and Drop" at the end of Anawan Ave., allowing parents to circle in to drop students off, will cause huge back ups on Belgrade Ave. in both directions at the height of commute times in the area. Cars entering the turn around on Anawan will also directly block the *only driveway access* to the condos next door at [345 Belgrade](#).

As students reach driving age, what's to stop them from driving in and parking a block or two up on a side street and walking to school? People using the commuter rail already do this instead of paying at the lot. Extending the "Resident Only" areas was suggested but that becomes an burden to those who live in the neighborhood without driveways (and there are many), or who have guests visiting, by having to deal with stickers and visitor passes.

At the recent pro-school rally families were told the facility would be used for events for all grades of the school. This is extremely alarming from a parking standpoint. Where do all those cars park for sporting events, graduations, performances, fund raisers etc.? Evening hours when residents are home leave little if any open street parking spaces on Belgrade or any other street in this already dense area. The limited parking at the school would not be nearly enough if even a fraction of the 800 students' families chose to attend events. The builder at the rally also had reworked drawings with LESS parking than was originally shown at previous meetings.

It is also my opinion that the location is a huge safety concern! When I worked for BPS, there were two mandatory fire drills each

year. Where do 900 students, faculty and staff safely go should there be a catastrophic emergency such as a fire? They are bound on one side by the commuter tracks, and have two major roadways and intersections on the other side. Using the small commuter rail parking lot is not viable as it would entail crossing the tracks, and it would be full of cars. If students must go across Belgrade or head towards the Parkway, that is directly in the path of services (police and fire) rushing to the scene. Would students then be lining the sidewalks for blocks? What would happen if they are unable to return to the school? It would be very unsafe for the students and drivers alike, not having removed spaces large enough for the children to regroup so arrangements could be made to get them safely home.

Will the current municipal services (police, fire, ambulance, transit) be adequate to support the addition of a school this size, *as well as the other three housing projects already approved* for the immediate area ([317 Belgrade](#), 400 Belgrade and [1721 Centre Street](#))?

I certainly believe all families in Boston deserve quality public school education choices and do not wish to deny anyone those choices. However, as a homeowner and abutter, I feel I must speak out against building the school at this location. Simply put it is the wrong place for a project of that size and density. The safety issues and increased traffic and congestion caused will have an immediate and dramatically negative effect on the neighborhood and day to day lives.

The area would be better served by putting in affordable senior housing possibly with limited commercial businesses at street level. Too many seniors who were born and raised families here but now wish to downsize from the responsibilities of a single family home, are being forced out of the city because they can't afford the "luxury rentals" being built.

I hope you will take my concerns and those of my neighbors who feel the same into consideration, and support our efforts to prevent this project from moving forward.

Sincerely,
Martha Echan

Message I am writing to formally oppose the proposed 361 Belgrade Avenue, Roslindale site for the new Roxbury Prep High School which will house up to 900 individuals.

The neighborhood believes that the site for this number of commuting individuals is not safe. That the immediate area cannot handle such an influx of people. In addition, the facility does not provide adequate space for the headcount it is planning to serve.

I am a proponent of the development of this site and agree with the consensus of the immediately impacted neighborhoods that this project is not appropriate for this location.

Message	I want to oppose the 361 project at Belgrade Avenue. It's just the sheer size of the facility, the shadiness of how it's being presented, and where/how it's going to be located. In comparison to the other High Schools in WR, CM only has 600 people from 7-12th grade, RL has 300 hundred people from 7-12, WR academy only has 450 and Urban Science has 450, they have a huge campus, with outdoor space so a school that is 5th grade(they are not taking public transportation-btw) to 12th grade, currently they have 1400 kids

enrolled, and they haven't said that the school is capped at any particular #. I've been to the neighborhood meetings, and I cannot believe that there is not a better location for the school. DIDN'T I hear Mayor Walsh wanting to close 30 some odd schools? This school going into one of those buildings, wouldn't be a better fit? If anyone has to go through that intersection in the am, or pm they know how backed up it is already. Just seems like a bad plan. I don't think anyone is opposed to a school being there with 300-400 kids, but I realize it wouldnt' be profitable to the hedge fund managers that are leasing it because they get money based on each pupil. that's why I oppose it. Message	I am writing to formally oppose the proposed 361 Belgrade Avenue, Roslindale site for the new Roxbury Prep High School which will house up to 900 individuals.

The neighborhood believes that the site for this number of commuting individuals is not safe. That the immediate area cannot handle such an influx of people. In addition, the facility does not provide adequate space for the headcount it is planning to serve.

I am a proponent of the development of this site and agree with the consensus of the immediately impacted neighborhoods that this project is not appropriate for this location.

I am writing to express my opposition to the proposed Roxbury Prep Charter School at Belgrade Avenue, Roslindale, due to deep concerns for students' HEALTH and SAFETY and the potential for increased in TRAFFIC and pedestrian safety in an already congested street.

The HEALTH AND SAFETY of the students in a facility that is undersized and has no open space or an athletic field is a big issue. Because of lack of space, the students will not be able to congregate outside and they will be congested inside the building. There will only be a dangerous narrow sidewalk outside for the students to convene. The students would have to be bussed to Hynes for athletics and that will mean more congestion. Hynes is much too small to serve 1000 students plus our community. As you know, that park is heavily used by families of very young children, adding 900 teens would be a nightmare for all. Obesity in our Boston youth is a real problem the city cannot ignore, schools need athletic fields built into their plans.

I also wonder if the building plan has a meeting hall or theater for the arts? --my guess is NO. BPS has plenty of underutilized space, why spent so much money to build a dysfunctional facility that will create chaos in student transportation and camped spaces for teaching and learning?

Have you thought of the tremendous amount of under-utilized space at the Madison and at the West Roxbury High School????

You can start working right there to fix the need for sits and QUALITY EDUCATION in Boston for Boston kids.

Thank you in advance for the work you do to help improve the education experience for Boston urban students and teachers.

Much work to be done! But it can be done.

P.S.

I still dream of the day when the innovation Arena at the O'Bryant School of Mathematics and Sciences becomes a reality.

As a resident of West Roxbury, I am deeply upset concerning the proposal to build a Charter School on Belgrade Avenue. What is the reason for this ridiculous plan?

First of all we do not need another Charter School when we have many high schools in Boston with vacant seats. Why not fill these seats with these 800 students? Use these funds to improve the quality of education for all students throughout the Boston high schools. As a grandmother of five high school students in Boston, and other grandparents and students, this would make much more sense in the use of our tax money.

Secondly the proposed location is ludicrous. The Belgrade Avenue, West Roxbury Parkway, the Holy Name Circle and Centre Street is a night-mare for men and women trying to get through this maze to get to work every day even without 800 students trying to get to school.

Third there is a train track behind the proposed site and this is a terrible hazard for high school students. We are setting up these students to get seriously injured if not by the train, then just as dangerous by this traffic maze.

A fourth issue would be parking for both teachers, students and visitors. There does not seem to be any space provided for this important issue.

Fifth, where are these students supposed to play sports? Will you bus them all over the city? This will be both expensive and time-consuming.

There needs to be some serious thought behind this plan. Let us stop this stupidity before it goes any further.

Sincerely,

Elena M. Flynn

Dear Christina,

I have previously emailed my opposition to the school. Have you checked where the writers of the 1,200 supportive letters reside? Are they involved with the existing Roxbury Prep schools and live outside the neighborhood? Has the pollution at the school been fairly checked? The site has been a car repair shop for 70 years and should raise red flags on pollution. Students should not be exposed to the pollution. I hope the BPDA is considering all sides fairly. Thank you for your attention.

Sincerely,
Susan Donlan, 100 Stratford, cor. Anawan.

My name is Racheal Rush and I live at 345 Belgrade Ave in Roslindale. I am a direct abutter the proposed build site of Roxbury Prep High School.

I strongly oppose the potential plan to build Roxbury Prep High School at 361 Belgrade Avenue in Roslindale, at the intersection of the West Roxbury Parkway. The planned school will place upwards of 900 people on less than one acre of land in an already densely populated residential neighborhood. The proposal is an inappropriate and unsafe use of the site.

As an official representative of my city and/or state , I urge you support to the many hundreds of neighbors who oppose this plan. Please step in on our behalf with the developer, Upton + Partners, and the school, Roxbury Prep, to stop this project in this location.

Thank you for your attention to this matter.

*Sincerely,
Racheal Rush*

Date: Sun, Feb 11, 2018 at 5:56 PM

Subject: Att: Ted Landsmark

To: BPDABoard@boston.gov

Cc: Kristina.Ricco@boston.gov

Dear Board Member Landsmark,

Hello again. Our paths have crossed both at the BAC and my (prelude) time as Vice Chairman of the BRA (now BPDA). Congratulations to you to hold critical leadership for our City.

I wish to seek your help and the help of the BPDA. I have been active in West Roxbury and Roslindale for many decades. My Dad was the State Representative for a quarter century.

A controversy has arisen in WR and Roslindale over the siting of a Charter School (*Roxbury Prep*) at the former site of an automobile dealership at the bottom of my adjacent street, Anawan Avenue.

There are many concerns the neighborhood has about this site. The first concern is for the students of the school. This site has no space for a schoolyard or parking for either teachers or pupils. The Needham Commuter rail track is located in the back yard of the school. There is no backyard. The school is located on the West Roxbury Parkway and Belgrade Ave. This is a very busy intersection with heavy traffic all day and very intense at commuter hours. The site itself has been a car dealership for many years. It is a toxic site due to the residue from oil regularly drawn from engines.

The school is currently leasing the Most Precious Blood School in Hyde Park. This site has a large schoolyard parking for all, and is located across from the commuter railroad and other transportation. The school seems fixated on the Belgrade site, even to the detriment of the students. This is an improper site for a school. The Globe listed the salary of the principal of the school as \$250,000 a year. This salary is inordinate for the principal of one school. The teachers, non-union, are not paid in a proportionate rate to the principal.

The proximate cause of this letter to you is untoward behavior on the part of the school. GBANA is the neighborhood association that has had meetings about the school site. They have NOT taken a stand; and if anything most members are opposed. The school sent out a flier co-opting the logo of GBANA and claiming the organization is in support of the school, a falsehood. In my nearly 80 years here in Boston I have not heard of such rogue activity by a group desiring a permit. This process has not been transparent or straightforward.

Please look into this situation. We believe the neighborhood is being denied fundamental due process by reason of some rogue communications from the school with the affected neighborhood -- and perhaps with City Hall.

Thank you so much for your consideration.

Michael Donlan 100 Stratford St., WR, 02132 [REDACTED]

Aisling Kerr <aisling.kerr@boston.gov>

Roxbury Prep at 361 Belgrade Ave and the adjacent parking lot at 371 Belgrade Ave

Carrie Marsh <carrie.marsh@boston.gov>

Tue, Jun 4, 2019 at 2:33 PM

To: Aisling Kerr <aisling.kerr@boston.gov>

Cc: Michael Cannizzo <michael.cannizzo@boston.gov>, "Liza Meyer, ASLA" <liza.meyer@boston.gov>

Hi Aisling -

Thank you for your call explaining that the proposed Roxbury Prep school at 361 Belgrade split its project in two pieces for review and permitting purposes - the building at [361 Belgrade](#), and the adjacent parking lot at 371 Belgrade along the West Roxbury Parkway.

The parking lot apparently has a deed restriction with DCR.

The proponent met with BPRD in December 2016 to present the conceptual plans. BPRD expressed its concern about the fact that the lot was proposed for parking, not active recreational open space for students. Further, the design of the parking lot was proposed to be built very close to the property line of the West Roxbury Parkway.

BPRD has not seen any further iterations of the plans to know if its concerns were addressed.

The Boston Parks Commission will review the project as a whole, once all approvals for both parcels are in place.

Thank you.

CARRIE MARSH DIXON

Executive Secretary

Boston Parks and Recreation Commission

1010 Massachusetts Avenue, 3rd floor

Boston, Massachusetts 02118

617-961-3074 (direct) 617-635-4505 (main)

CITY of BOSTON

Martin J. Walsh, Mayor

To: Aisling Kerr, BPDA
From: Zachary Wassmouth, PWD
Date: February 20, 2019
Subject: Roxbury Preparatory Charter High School SPRA - Boston Public Works Department Comments

Included here are Boston Public Works Department comments for Roxbury Preparatory Charter High School SPRA.

Comments below shall apply specifically to the Public Right of Way (ROW) owned by the City of Boston. The developer shall also be required to coordinate and meet all the requirements of the Massachusetts Department of Conservation and Recreation (DCR) for work within the DCR ROW.

Site Plan:

The developer must provide an engineer's site plan at an appropriate engineering scale that shows curb functionality on both sides of all streets that abut the property.

Construction Within The Public ROW:

All proposed design and construction within the Public ROW shall conform to Boston Public Works Department (PWD) Design Standards. Any non-standard materials (i.e. pavers, landscaping, bike racks, etc.) proposed within the Public ROW will require approval through the Public Improvement Commission (PIC) process and a fully executed License, Maintenance and Indemnification (LM&I) Agreement with the PIC.

Sidewalks:

The developer is responsible for the reconstruction of the sidewalks abutting the project and, wherever possible, to extend the limits to the nearest intersection to encourage and compliment pedestrian improvements and travel along all sidewalks within the ROW within and beyond the project limits. The reconstruction effort also must meet current American's with Disabilities Act (ADA)/ Massachusetts Architectural Access Board (AAB) guidelines, including the installation of new or reconstruction of existing pedestrian ramps at all corners of all intersections. Plans showing the extents of the proposed sidewalk improvements associated with this project must be submitted to the Public Works Department (PWD) Engineering Division for review and approval.

The developer is encouraged to contact the City's Disabilities Commission to confirm compliant accessibility within the Public ROW.

Specific Scope Considerations:

The developer should consider the following improvements to the Public ROW (both City and DCR) to be included in the scope for this project:

- Reconstruction of all pedestrian ramps on all four corners of the intersection of Belgrade Ave and West Roxbury Pkwy should be considered in the project scope. Perpendicular ramps per 521 CMR 21.00 shall be considered. The developer shall coordinate with DCR for these improvements, which may also involve relocating and/or upgrading existing traffic signal equipment to accommodate new pedestrian ramp locations and/or ADA/AAB requirements.

PUBLIC WORKS DEPARTMENT

Boston City Hall • 1 City Hall Sq Rm 714 • Boston MA 02201-2024
CHRIS OSGOOD • Chief of Streets, Transportation, and Sanitation
Phone (617) 635-2854 • Fax (617) 635-7499

CITY of BOSTON

Martin J. Walsh, Mayor

- The developer should provide an accessible sidewalk/path of travel to access the Bellevue MBTA Commuter Rail Station along the dead end of Anawan Ave and should coordinate such access with the MBTA.
- Current renderings in the proposal show geometric improvements to the sidewalk on the northwestern corner of the Anawan Ave/Belgrade Ave intersection. This project should also consider geometric sidewalk improvements to the remaining three corners of this intersection to improve safety, particularly for pedestrians. The proposed crosswalk across Belgrade Ave at this location must be reviewed and approved by the Boston Transportation Department (BTD). The developer shall work with BTD to determine what safety measures can be taken (signage, pavement markings, etc.) to ensure that this proposed crosswalk is safe and visible. All pedestrian ramps at this intersection shall be constructed to be compliant per 521 CMR 21.00.
- The developer shall work with the MBTA and BTD regarding a potential bus stop on Belgrade Ave to accommodate access to the school for students using public transportation.
- Driveway access for the courtyard/overflow lot should be discussed with BTD. The close proximity to the intersection with West Roxbury Pkwy may introduce access challenges.
- The developer should consider engaging with the MBTA in regards to service on the Needham Line in regards to accommodating student transportation (i.e. potentially coordinating with arrival and dismissal times).
- The project transportation study indicates current and future build LOS of E and F at certain approaches at the West Roxbury Pkwy/Belgrade and West Roxbury Pkwy/Beech/Anawan intersections. The developer should consider working with DCR to determine and implement potential signal/intersection improvements to improve traffic flow and LOS.

The developer shall work closely with PWD, BTD, the Boston Planning and Development Agency (BPDA), DCR, MBTA, and other agencies as required in regards to any improvements within the Public ROW associated with this project.

Driveway Curb Cuts:

Any proposed driveway curb cuts will need to be reviewed and approved by the PIC.

Discontinuances:

Any and all discontinuances (sub-surface, surface or above surface) within the Public ROW must be processed through the PIC.

Easements:

Any and all easements associated with this project must be processed through the PIC.

Landscaping:

The developer must seek approval from the Chief Landscape Architect with the Parks and Recreation Department for all landscape elements within the Public ROW. Program must accompany a LM&I with the PIC.

Street Lighting:

The developer must seek approval from the PWD Street Lighting Division, where needed, for all proposed street lighting to be installed by the developer, and must be consistent with the area lighting to provide a consistent urban design. The developer should coordinate with the PWD Street Lighting Division for an assessment of any street lighting upgrades that can be considered in conjunction with this project. All existing metal street light pull box covers within the limits of sidewalk construction to remain shall be replaced with new composite covers per PWD Street Lighting standards. Metal covers should remain for pull box covers in the roadway.

PUBLIC WORKS DEPARTMENT

Boston City Hall • 1 City Hall Sq Rm 714 • Boston MA 02201-2024
CHRIS OSGOOD • Chief of Streets, Transportation, and Sanitation
Phone (617) 635-2854 • Fax (617) 635-7499

CITY *of* BOSTON

Martin J. Walsh, Mayor

Roadway:

Based on the extent of construction activity, including utility connections and taps, the developer will be responsible for the full restoration of the roadway sections that immediately abut the property and, in some cases, to extend the limits of roadway restoration to the nearest intersection. A plan showing the extents and methods for roadway restoration shall be submitted to the PWD Engineering Division for review and approval.

Project Coordination:

All projects must be entered into the City of Boston Utility Coordination Software (COBUCS) to review for any conflicts with other proposed projects within the Public ROW. The Developer must coordinate with any existing projects within the same limits and receive clearance from PWD before commencing work.

Green Infrastructure:

The Developer shall work with PWD and the Boston Water and Sewer Commission (BWSC) to determine appropriate methods of green infrastructure and/or stormwater management systems within the Public ROW. The ongoing maintenance of such systems shall require an LM&I Agreement with the PIC.

Please note that these are the general standard and somewhat specific PWD requirements, more detailed comments may follow and will be addressed during the PIC review process. If you have any questions, please feel free to contact me at zachary.wassmouth@boston.gov or at 617-635-4953.

Sincerely,

Zachary Wassmouth
Chief Design Engineer

RE: Support Letter - Roxbury Preparatory Charter School (361 Belgrade Avenue)

Dear Mr. Golden and Ms. Kerr:

I write on behalf of WalkUP Roslindale to comment in support of the proposed Roxbury Preparatory Charter High School Development at 361 Belgrade Avenue in Roslindale, and to urge BPDA to work cooperatively with the school's developers, BTM, the MBTA, and the Commonwealth, to insure that this welcome addition to our neighborhood be built and designed to be as walkable and transit accessible as possible.

As described in more detail in the footer of this letter, WalkUP Roslindale's overarching goal is to foster "Walkable Urban Places." In particular, we believe we can make Roslindale the most walkable neighborhood in all of Boston, full of active, dynamic, and safe streets. Implemented properly, we believe Roxbury Prep advances this vision.¹

Belgrade Avenue has the potential to be a vibrant and accessible mixed-use corridor connecting the Roslindale and West Roxbury neighborhoods, and especially the Main Street business districts of both. This potential will not be realized, however, in the presence of vacant or abandoned lots, as well as auto-centric uses such as the Clay Auto Center that currently sits at and badly underutilizes this location. Activating this location with a school will change the character of the area for the better, and yield tangible benefits in the form of increased foot traffic (from both students and staff) to neighboring businesses in both West Roxbury and Roslindale. It is primarily for this reason that we support the project.

We note that much of the controversy and opposition to the project has involved transportation and parking issues. We believe rather than serving as a justification to oppose this project (or further diminish its scale), these concerns present an opportunity and an important reminder of the need to better coordinate transportation planning with land use decisions. In particular, the

¹ Note that as our group focuses on walkability, particularly as it relates to transportation and development, we take no position with respect to education policy or various other ongoing debates involving charter schools.

development of Roxbury Prep must go hand in hand with transportation improvements that will benefit not only the students and staff of the school, but the entire community. These improvements should include two key components:

- (1) **A comprehensive “[complete streets](#)” re-design of Belgrade Avenue.** We see this approach as entirely consistent with the City’s [Vision Zero](#) efforts. A full redesign should make Belgrade a safe and welcoming street for pedestrians, cyclists, and mass transit users, as well as drivers. These improvements could include a protected bicycle lane (two-way cycle track) along much or all of the road; spacious sidewalks with ample greenery and other placemaking amenities; as well as improved geometry at intersections and pedestrian crossings to improve safety for all users.

Particular attention should be given to providing for a safe pedestrian crossing across Belgrade Avenue at Anawan Avenue; this is a key crossing point for reaching the Bellevue Commuter Rail Station as well as the bus stop on Belgrade Avenue. We should not have to wait for a pedestrian death or serious injury to occur to justify improvements.

- (2) **Improved service by the MBTA commuter rail Needham Line.** The morning rush hour commuter rail trains through Roslindale are currently well over capacity, making for an uncomfortable experience that is deterring use of the commuter rail instead of encouraging it. Roxbury Prep commuter rail users will generally be using the train for a “reverse commute” and thus will not exacerbate overcrowding on the trains, but the influx of new users justifies better levels of service for the entire neighborhood. We accordingly strongly advocate for the addition of stops at Bellevue on all outbound trains in the morning and inbound trains in the afternoon peak periods. Moreover, there is plainly more than adequate demand for another peak-time train, particularly in the morning. In addition to the schedule adjustments necessary to coordinate with the school day, the MBTA should be pushed to add an additional inbound/outbound run in the 7am-9am weekday time block.

We understand that the school has committed to providing MBTA passes to all employees of the school, in addition to the students who typically receive such passes as a matter of course. The Small Project Review Application, dated January 8, 2019, mentions “transit pass subsidies” for staff and also “consideration of a subsidy for MBTA passes for full-time employees” during construction. We believe it is important that these subsidies--both for construction workers as well as all employees of the school when built--be made a condition of approval of the project, and that they be sufficient to completely cover the cost of all such passes.

Finally, we understand the data strongly support the notion that the vast majority of students and many faculty will commute to the school by means other than driving, most notably by mass transit, but also by foot and bicycle. For the mass transit option to work, however, it is absolutely critical that the school and the MBTA synchronize their respective schedules, for morning and

afternoon trips, as well as for students **and** staff who will need to arrive at the school earlier. We urge all the stakeholders in this project, at both the city and state level, to coordinate early and often to make sure this happens.²

Sincerely,

Adam Rosi-Kessel, 36 Taft Hill Terrace

About WalkUP Roslindale:

WalkUP Roslindale, which takes its name from the international movement to foster "Walkable Urban Places," is a collaborative group of residents dedicated to making Roslindale the most walkable neighborhood in Boston. We advocate for a dynamic, livable streetscape and we support positive changes to our public and private built environment that strengthen walkability and other forms of active mobility as means toward better personal and public health, safety, social capital, economic development, and environmental sustainability. We are led by a steering group of about 25 residents and have over 1,000 additional supporters and allies including residents, business owners, local leaders, as well as other nonprofits and community groups. More information about WalkUP Roslindale and our initiatives can be found at walkuproslindale.org.

² Just by way of example and comparison, the morning inbound Needham commuter rail (train #602) comes just a few minutes too late for Forest Hills, Roslindale, and West Roxbury students to easily reach Boston Latin School by the start of the school day. Even a slight delay on the train results in late arrivals. If the train schedule were moved back a few minutes, or the school day start slightly later, the Needham line would become a practical and efficient way for students to get to that school. It is imperative that we achieve better coordination in situations like this to get more value out of our existing infrastructure and service.

RE: Support for the Roxbury Prep High School project proposed at 361 Belgrade Ave

Dear Mr. Brian Golden,

I am writing to state my dedicated support for the Roxbury Prep High School project proposed at 361 Belgrade Avenue in Roslindale. As you may know, our scholars are currently spread across two temporary locations over three miles apart, both of which lack a cafeteria, a gym, or performing arts spaces to accommodate all of our students.

The location at 361 Belgrade will give my scholar access to the single-site facility they deserve, all within minutes of several MBTA transit options.

As an engaged resident of Boston, and a concerned parent/guardian of a Roxbury Prep student, I ask for your support of this project.

Sincerely,
