## West Roxbury

Originally part of the Town of Roxbury, West Roxbury was primarily a farming area with a village at the intersection of today's Centre and Spring streets. In the 1840s, Brook Farm was established in West Roxbury, a utopian community, which influenced writers like Emerson and Hawthorne and attracted visitors from as far away as Europe. The area was also the home of Unitarian minister and abolitionist Theodore Parker, who preached at a church located at the corner of today's Centre and Corey Streets.

Construction of the Boston and Providence Railroad in 1848, and streetcar lines in the 1880s, prompted increased residential development. With Jamaica Plain and Roslindale, West Roxbury seceded from Roxbury in 1851 and incorporated as the independent town of West Roxbury, then became part of Boston in 1874. Ever since, it has been suburban of the city's "streetcar suburbs," containing block after block of single family homes.

West Roxbury's commercial area is located along Centre Street. Its open space is made up of various neighborhood parks and playgrounds, part of the Stony Brook Reservation, and the recently opened Millennium Park, built on the former city landfill.

## i. NOTES TO THE READER

---

1. Two of the important US Census 2000 data files used in the compilation of demographic reports are Summary File 1 (SF1) and Summary File 3 (SF3). SF1 uses the Short Form questionnaire while SF3 uses the Long Form Questionnaire. Moreover, SF1 is a 100% count giving data to the smallest level of census geography, the Block. SF3 is a sample count of 16% of the population giving data to the Block Group level which is a cluster of Blocks. In the aggregation of SF3 data for this report, the Planning Districts straddle Block Groups boundaries. These will have slightly different numbers from those aggregated using the SF1 data. Total population of the planning district, for example, the South End based on SF1 may show slightly different numbers if compiled using SF3. (See Appendix for a brief description of census geography. Short Form and Long Form Questionnaires can be found on the US Census Bureau website, American FactFinder: <http://factfinder.census.gov>)

2. Because of changes in the boundaries of Block Groups between 1990 and 2000, precise comparison of 1990 and 2000 data on Planning Districts/Neighborhoods is not possible.

3. Racial categories of population are limited to six. Hispanic population may be included in any racial group. White alone population includes Hispanic whites. The category of persons belonging to One or More Races is termed Multiracial.

4. Numbers within parentheses at the end of the table title represent table numbers assigned by the US Census. These table numbers are useful in accessing data using American FactFinder for different types of geography such as a Census Tract or a city. A list of P (Population) and H (Housing) Tables, which provide data at the Block Group level, is given in the Appendix. **This report aggregates only Block Group level data as done for all the Planning Districts. However, data available only for Census Tracts can be aggregated to Boston city to generate a more extensive set of characteristics. Complete census tract data can be found on the US Census website.**

5. While variables are retained in their original form, some of their class intervals have been aggregated into fewer intervals to make the tables simpler.

6. Some tables include additional derived data such as medians or per capita incomes.

7. For definition of terms, please see "Census 2000 Glossary", which is published as a separate document (Report # 568) by the BRA .

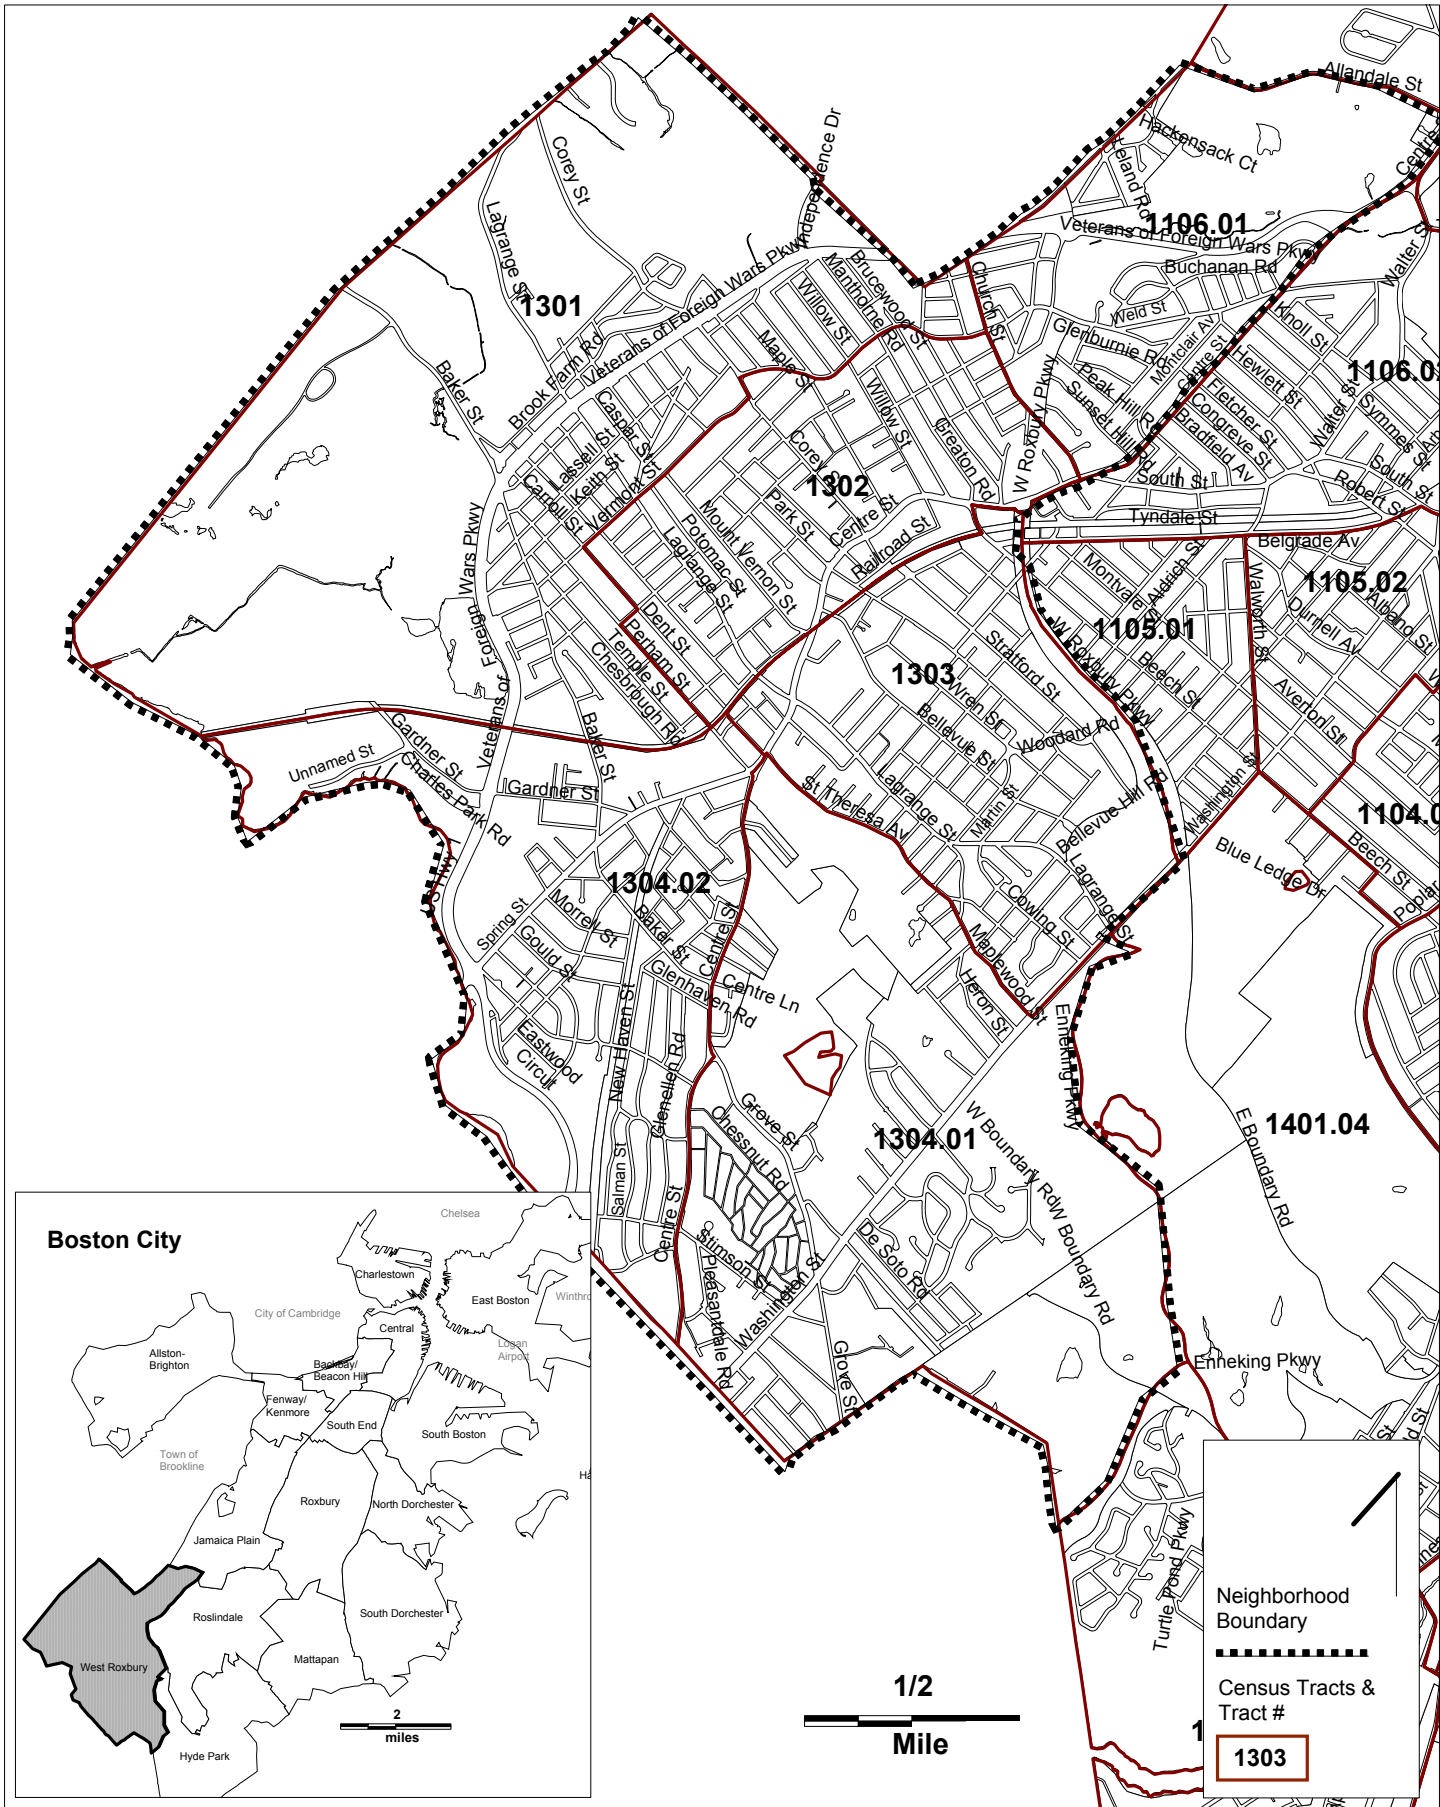

8. Income-related data such as household income, poverty rates, etc. refer to year 1999.
