

Num	Paper or Online	GlobalID	Creation Date	If an active waterfront and landscape area are built along the Mystic River, what kinds of activities do you hope would happen there?	What parts of the neighborhood get too hot and should be prioritized for new trees and landscaping?	What climate resilience concerns do you have that are not addressed here?
1	Online	e4c4f42a-9656-417c-8866-f235be5bb880	7/20/22	eating and walking and pop up workout classes and a farmers market		systemically we need to fix climate change by adding more density and amenities and divesting from fossil fuels, so whatever we can do at the neighborhood level to structure our built environment to support a healthy environment feels urgent and necessary
2	Online	a43c715d-a4b2-44bd-87c9-742eaca96a3f	7/21/22		Bunker Hill St, Sullivan Sq, Rutherford Av all need to be prioritized for new trees and landscaping. The upper portions of Charlestown Heights (Doherty Park) by Bunker Hill St could also use improved tree cover and landscaping. Its current condition is not befitting a Frederick Law Olmsted park.	
3	Online	d97706d9-f927-411c-8b23-0231c2a7f04b	7/21/22		The area around the Sullivan Square T stop has no shade and no trees and should be prioritized.	
4	Online	4e5d7ea2-66aa-4dde-8c8a-0221e5a5f857	7/22/22	Wide walking paths, benches and picnic tables, toddler playgrounds,.	All of Charlestown! Trees along all the streets	
5	Online	ce1b929c-1c2a-45c8-8270-25607ddea607	7/22/22	Paddle boarding, kayaking, sailing. It would be great if there was a marina here where people could rent boat slips and store their boats.	Everywhere in the Lost Village is very hot. There are no trees lining the neighborhood (infact there is a clear deliniating line between somerville and charlestown where trees stop and you know you have left somerville).	My number one concern is car emissions from i-93 highway. More trees may absorb carbon released on the highway. Noise pollution is equally as important, and the area could improve from improved sound barriers along i-93. Finally, Heat island effect is top of mind because of the lack of tree coverage in the industrial areas.
6	Online	c01e5444-c4c2-4f99-895a-570a1cd1b6b3	7/23/22	Running and biking trails.	Area surround Boston Housing Authority development.

23	Online	1273071e-30ca-41e2-85d8-922e49dd1699	8/3/22	A usable area along the Mystic should be created, not a sidewalk where people are encouraged to move through to the next destination. In the seaport, the area along the water is great, though very limited greenspace that is usable. Its ok to have grass areas where people can congregate and use - vs the limited hardscape areas that exist at the seaport and navy yard.	Sullivan Square - existing and proposed. There is no safe, convenient and comfortable connections from the vast majority of the neighborhood to the MBTA and Assembly. A BLVD similar to Commonwealth Ave (with usable green spaces protected by a canopy of trees) is suggested from Bunker Hill through to Somerville vs what exists at Seaport BLVD that is mostly unusable. Planting trees may achieve the goal of less of a hot zone, though planting trees that are part of great and usable connections is better. Create a great 'place making experience' that doubles as improved access through usable open spaces complimented by trees. New open spaces connecting the water to Medford Street may obscure visual connections to the water if to many trees were planted. Visual connections are just as important as the physical.	none.

28	Online	9a398dc5-df18-44c5-8dd6-d7f1d1167b67	8/14/22	I love seeing the people bring picnics and lawn games to Shipyard Park...more of that please. Don't underestimate the draw of a few inexpensive Adirondack chairs. Those additions plus the picnic tables have gone a long way in making people feel welcome. Since I live near the Shipyard park I don't really need more of that for me, but I would love to be able to kayak from the Mystic over to the Charles or North Point Park. I'd also love to be able to sit or walk by natural plantings. My favorite part of the Navy Yard is between Spaulding and Harborview. The Spaulding gardens/great pier + the gravel walk and looser plantings in front of Harborview both make me happy. I really feel like I am on the OCEAN, not just a harbor. There is so little naturalistic landscape along the harbor--anywhere--that would be most welcome. (North Point Park has some good natural/native plantings that are a good reference point.)	You already figured it out very well. But since you asked, Chelsea Street is deadly, squeezed between the Tobin Bridge and the granite walls and buildings lining it. The Navy Yard between Gate 1 and Drydock 2 is really really unpleasant. Not a spot of shade on that heavily travelled corridor. Bad look for visitors and tough on commuters too.	No mention of the Navy Yard...I know that is being addressed separately. But still...

42	Online	542ee06c-cf54-4a95-883a-6b2a1ec5ccb3	9/8/22	The little Mystic Channel space needs something better than outlined in the Phase-2 presentation. The Channel water space should not be altered along the South side where NewTown is located. Any alteration of the height as well as filling in the waters with any structure will destroy this space and harm the NewTown coop buildings. While a bit more work to alter the DPA assignment for the area it makes the best sense to place the demarcation along Terminal St's north side to Chelsea St so the full channel space can be converted into a water park zone. Repairing the stone walls of the channel and opening up the walkway along the Annex space if not take the space over making a complete park of the space. Move the climate resiliency needs to the MassPort fence line and create the needed protection on the seaward side of the Chelsea St bridge to protect this water space. A simple three segment dam with a movable center section is what's needed.	The parking lot in front of 275 Medford St (Lafarge entry) should be a new park space there is no reason for MassPort to hold onto this property when the community is in dire need of spaces for EV charging as well as a hub station for intra-community transit using EV micro buses.	Not addressing the fossil fuel issues! We need to get to EV's ASAP! But we can't without the charging infrastructure to support it. 90% of the homes in the community have no means to charge an EV within their home so we need to build communal charging solutions throughout the community. There are very few places which will work. These spaces need to be protected from future development and current EV charging locations need to be more accessible!
43	Online	45385ca7-b2fc-435d-878b-e28069f9d0d9	9/8/22	Most important: Walking, biking, viewing and children's playgrounds. Beyond those things, playing fields would be nice but not necessary.	The Little Mystic Channel area is practically devoid of trees and so is too hot to invite recreational use. The Hood Park development and related projects in that area run the risk of being barren and desert-like if they don't plan for an appropriate canopy.	
44	Online	6851555f-0abc-47fc-8337-511aef66bca	9/10/22	Accessible contiguous green waterfront is a gift. It doesn't necessarily need to be programmed right away. Area near the water for picnicking, walking, running, relaxing. Not green, but how about a saltwater public pool on the harbor, like the one in the North End or ones you see in other cities.	Rutherford Ave, Austin Street, Chelsea Street, Main St could have more trees, Sullivan Square.	Flooding. We are surrounded by the harbor and the Charles and Mystic rivers
45	Online	080e628c-ad71-4c3e-8c8d-db3387515c2d	9/11/22	Sports!! I think the waterfront area is a wonderful spot for youth and adult sports. It is far from highway exhaust (which we get from both I93 and the Tobin Bridge); and the temperature near the river is usually significantly cooler during those hot summer games.	Anything along Rutherford Ave is obviously very unpleasantly exposed - that would be a great spot for more trees.	How the new trees will be maintained. We have several trees on our street in Charlestown that have a failure to thrive. Three have fallen down in the decade we have lived here; and several more have a notable failure-to-thrive. Some of the remaining old ones look ready to go too. What will be done to ensure these new trees will actually grown and flourish?
46	Online	efa13c72-4f1c-442a-8296-a5a4f7c81994	9/13/22	Focus on "loops" that allow for complete circuits.		Charlestown only has 3 points of escape - Rutherford, Gilmore Bridge, and City Square. Planning for potential future connectivity is important. E.g. new access onto future Tobin, Rt 1 to 93N connector, or Somerville inner belt connector.
47	Online	35aecf4c-6bed-4667-8a9e-4ac963825065	9/14/22		We've lost two, now maybe three, trees at the Edwards McCarthy playground on Mead Street in the last few years. The city says it doesn't have enough money to replace a tree that has died or gone dormant during the construction of the park. Please replace it!
