Please join us for the second mobility-focused PLAN: East Boston community open house. Continuing the conversation from our March 2019 open house, we will highlight what we've learned from a neighborhood-wide analysis performed by our transportation planning consultant. We will solicit community feedback about how what we've learned will influence the creation of future transportation recommendations. Whether you walk, roll, bike, ride transit, drive, or hail a car in East Boston, we want to hear from you. We will also share information about water transportation and the recently announced East Boston Transportation Action Committee.

This event is part of many public events for PLAN: East Boston, a long-range planning initiative that, when complete, will update the East Boston Master Plan and will recommend changes to East Boston zoning.

Light refreshments, translated materials, and interpretation services will be provided.
