The BPDA Research Division strives to understand the current environment of the city to produce quality research and targeted information that will inform and benefit the residents and businesses of Boston. The Division conducts research on Boston's economy, population, and commercial markets for all departments of the BPDA, the City of Boston, and related organizations. The information provided in this report is the best available at the time of its publication.

More research produced by the Boston Planning & Development Agency can be found on the BPDA Research Website:

# 2020 Decennial Census Redistricting Data for Boston's Neighborhoods

boston planning & development agency
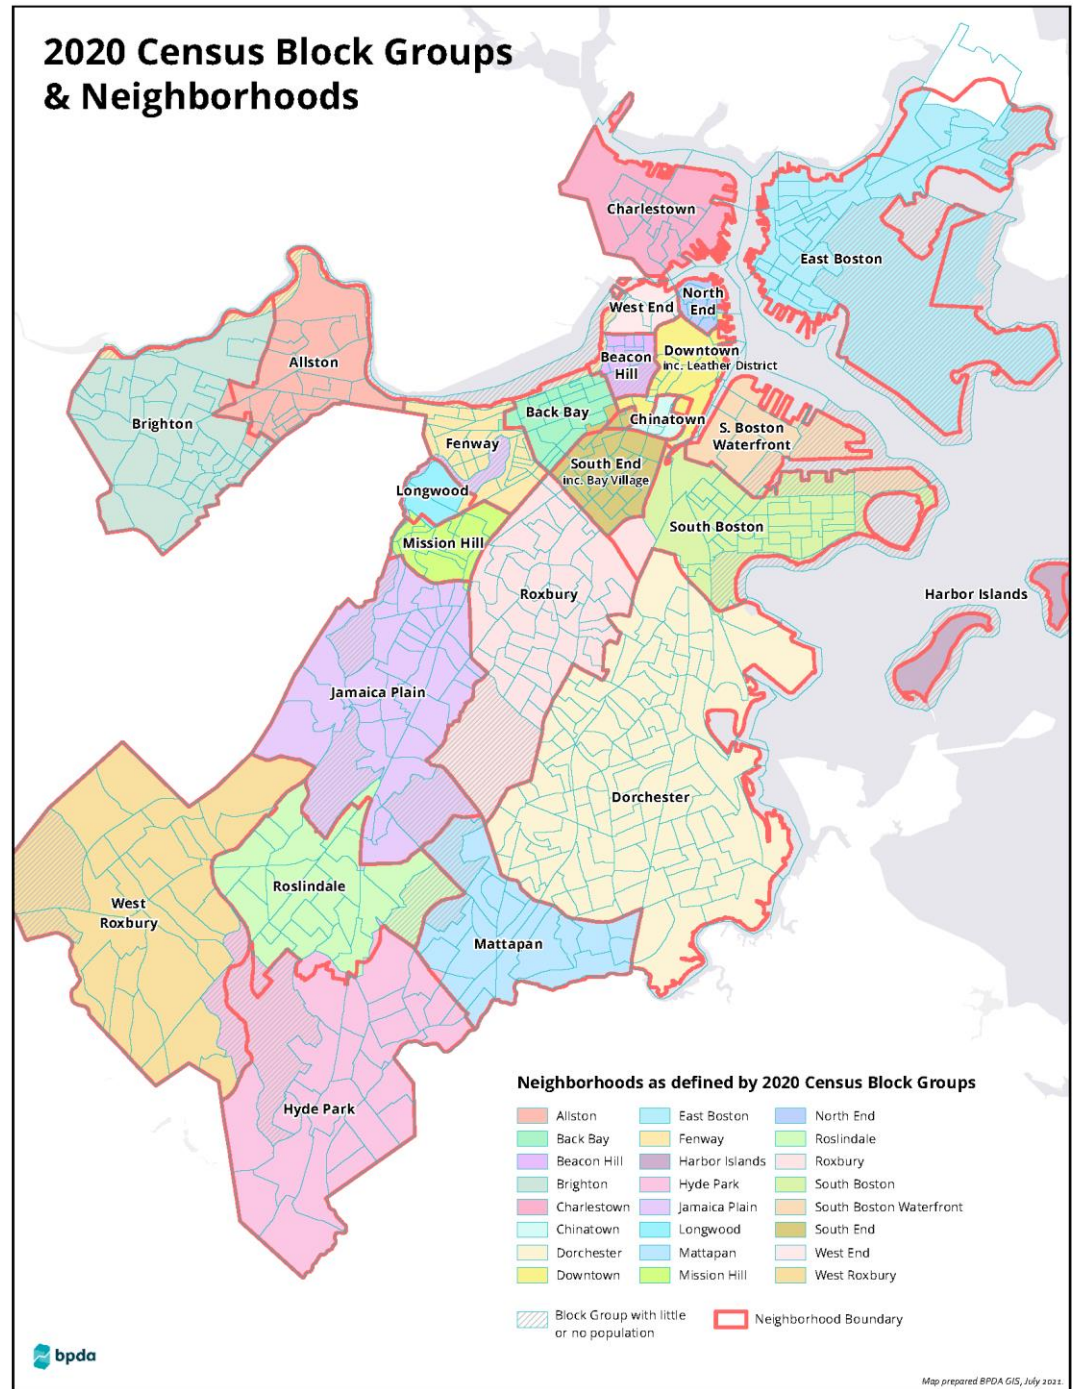

# 2020 Census Neighborhoods

Where possible, data in this report are drawn from the 2020 Census Redistricting data.

Neighborhood boundaries are approximated using 2020 Census block group boundaries.

Because they cannot be separately identified at the Census block group level, the Leather District is combined with Downtown and Bay Village is combined with the South End.

Census Tract 9815.02 is partially in East Boston and partially in Revere, but almost the entire population is in Revere so it is excluded from the East Boston approximation.

The Harbor Islands are excluded from the analyses because they do not currently have any residential population.

# 2016-2020 American Community Survey Neighborhoods

Most variables in this report are only available in the American Community Survey (ACS). The smallest geography in the ACS differs by variable, with some available at the block group level, while others available only for Census tracts or larger geographies. Therefore, when using ACS data, neighborhood boundaries are approximated using 2020 Census tract boundaries, resulting in somewhat different boundaries than those used with the 2020 Decennial Census data.

Because they cannot be separately identified at the Census tract level, the Leather District is combined with Downtown and Bay Village is combined with the South End.

Census Tract 9815.02 is partially in East Boston and partially in Revere, but almost the entire population is in Revere so it is excluded from the East Boston approximation.

The Harbor Islands are excluded from the analyses because they do not currently have any residential population.
